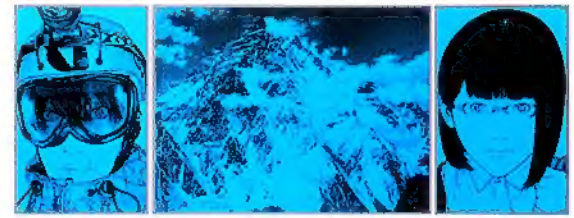
I CANNOT LIVE BY MYSELF-...

13 孤高の人 THE CLIMBER

TIED TO HANA, AND WITH HIS SURNAME CHANGED TO "KATOU", BUNTAROU IS BLESSED WITH A DAUGHTER, ROKKA. WORK AND FAMILY... A LIFE WHERE HE HAS STARTED TO DEDICATE HIMSELF TO SOCIETY HAS SATIATED BUNTAROU'S HEART. BEFORE LONG HE HAD COME TO DENY THE CHALLENGE TO K2. BUT WHEN HE RECEIVES A CHANCE VIA AN INVITATION FROM TAKEMURA, WHOM HAS CONTINUED TO IMMERSE HIMSELF IN MOUNTAINS, THE BREATH OF "SNOWY MOUNTAINS" IN HIS HEART CONTINUES TO CRITICIZE BUNTAROU.



"FANTASY" IS ORIGINALLY SOMETHING THAT CAN BE DRAWN BUT CANNOT HAPPEN IN REALITY. IT SEEMS IT WAS CALLED INFLATED NONSENSE...

BUT THERE ARE FEW TRUTHS THAT HUMANS LIVING IN THE REAL WORLD SPEAK OF.

TRUTH CAN ONLY LIVE IN FANTASY.

I FEEL LIKE RECENTLY I HAVE REALIZED
MISSION AS A MANGAKA

Please take extreme care of the Nanga Parbat snow Katou-kun risked his life to get for us!!

Adachi

CURRENTLY BECOMING A PROBLEM AND LINKED TO THE GLACIERS IN THE HIMALAYAN MOUNTAIN RANGE "BLACK SNOW".

THE CAUSE, THE EFFECTS FROM THE ABC COMING FROM AROUND THE INDIAN SUBCONTINENT.

HOW FAR DOES IT EXTEND?

DOES IT GO ALL THE WAY TO THE DISTANT PEAK OF NANGA PARBAT!?

(dnospheric brown cloud)

FROM THE INDUSTRIAL AREA OF SOUTHERN ASIA'S "SOOT SCATTERING".

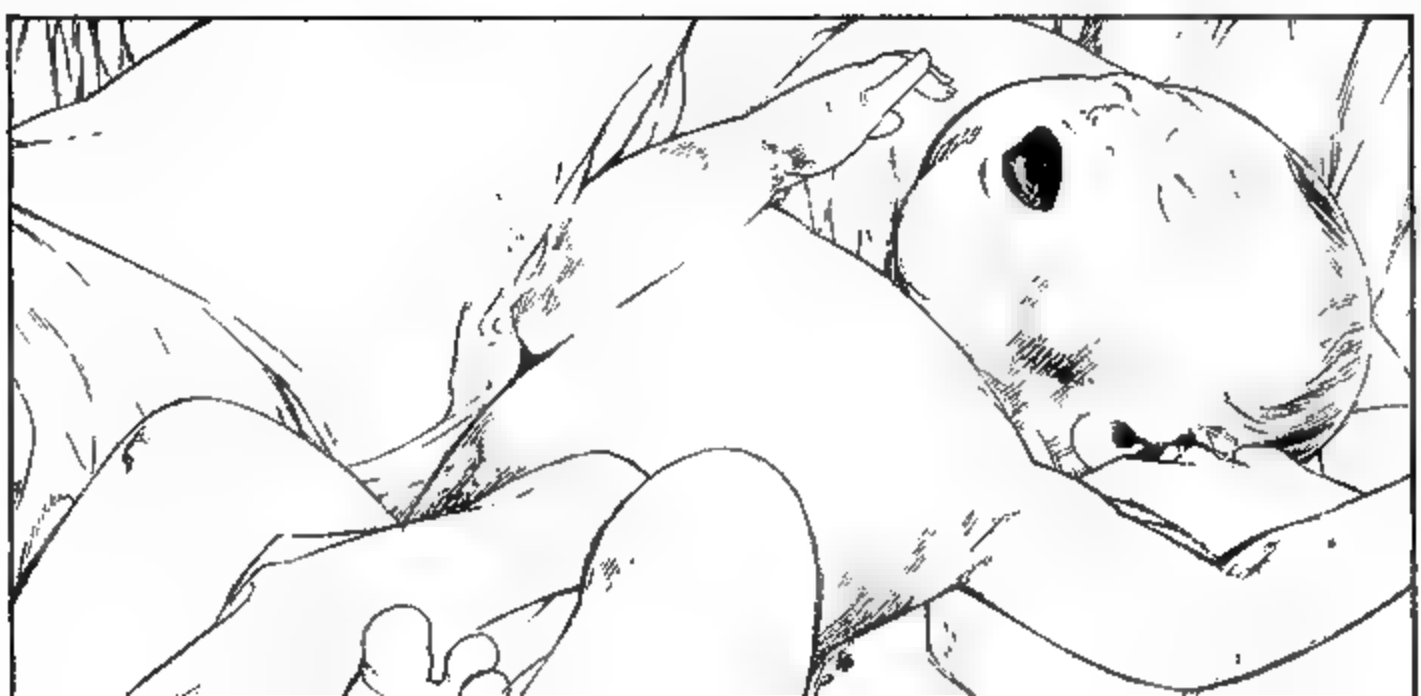
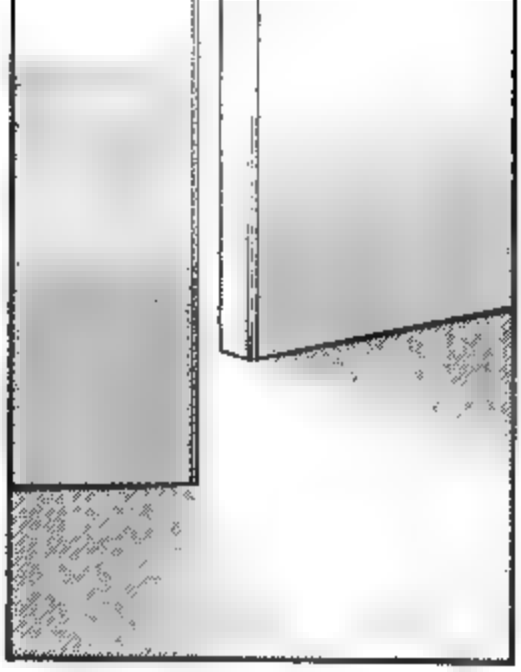
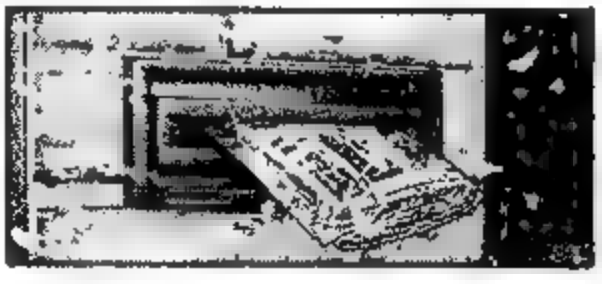
5

産婦人科
124TH CLIMB
WE ARE HERE

IN USE







IT'S BUNTAROU.
HELLO? MOM?

THEY'RE SAYING SHE CAN LEAVE THE HOSPITAL IN 4 DAYS

...YES. I'LL BE EXPECTING YOU!!

..YES BORN JUST NOW

A 3900 GRAM HEALTHY LITTLE GIRL.

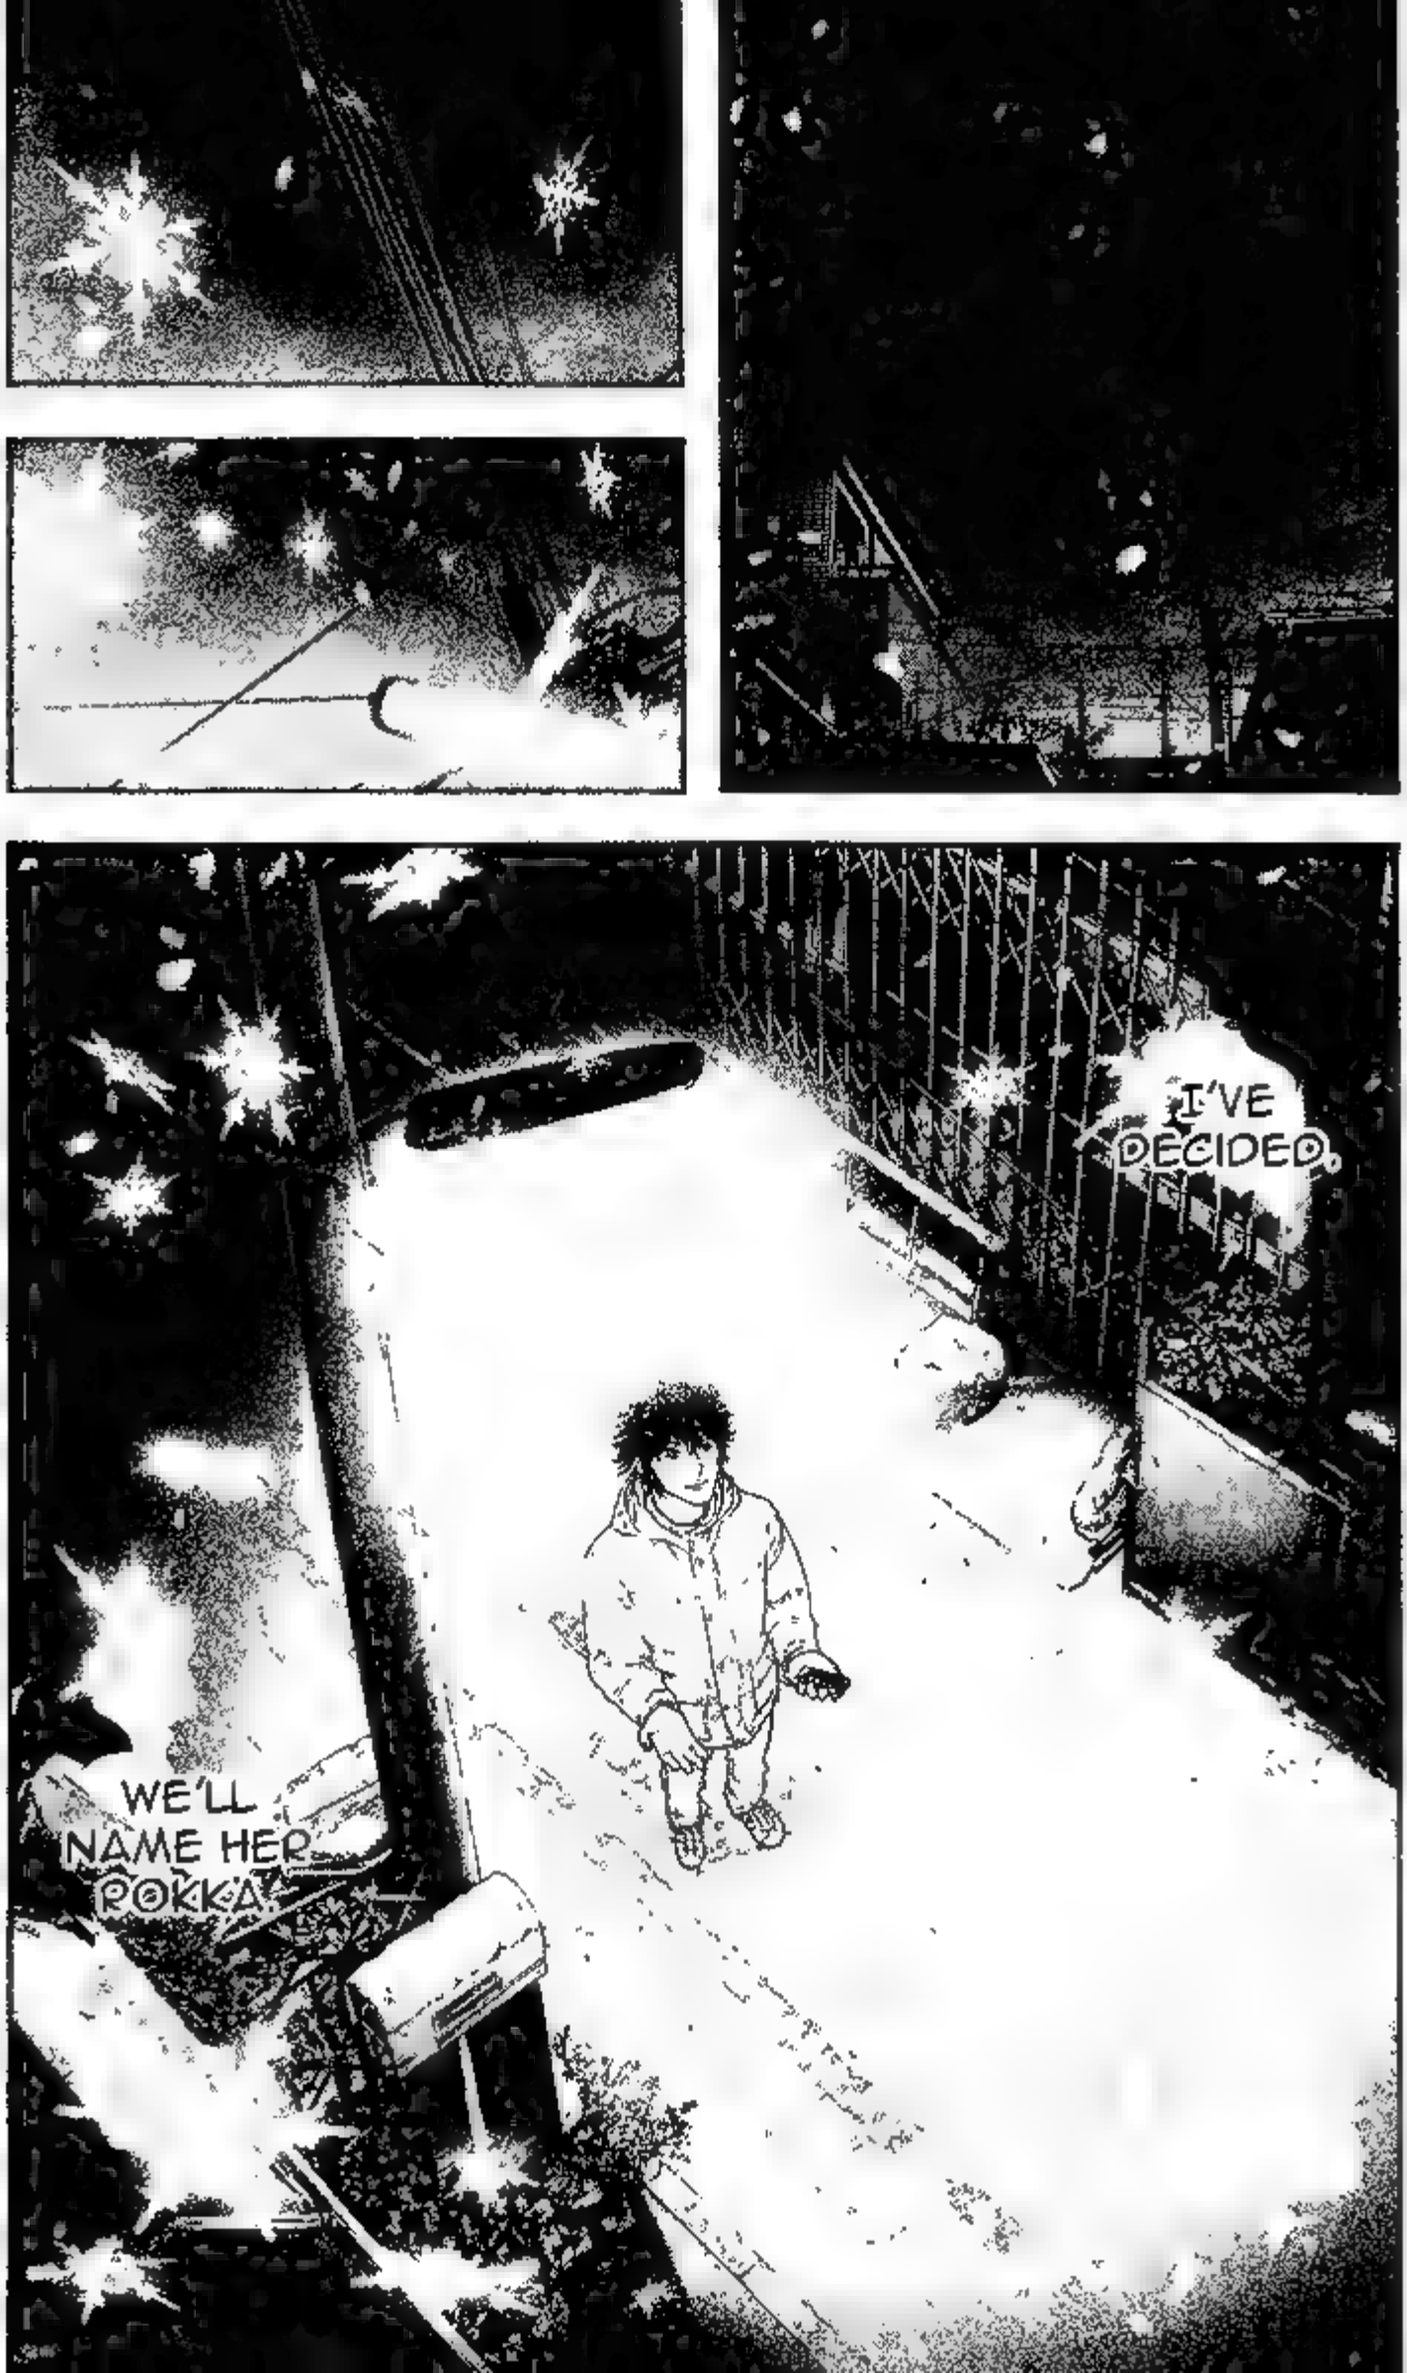
...YES. HANA-CHAN AND THE BABY ARE BOTH DOING WELL.

MY LIFE CHANGED AGAIN.

TODAY

I HAVE TO PROTECT THAT NEW LIFE WITH EVERY FIBER OF MY BEING!!!

AS THAT CHLD'S FATHER.



I'VE DECIDED.
WE'LL NAME HER POKKA!

Hi!
I'm Komura
6.29

WHAT'S WITH THOSE LUKE-WARM CLOTHES?
!?
YOU...

TA.

TAKE-MURA.

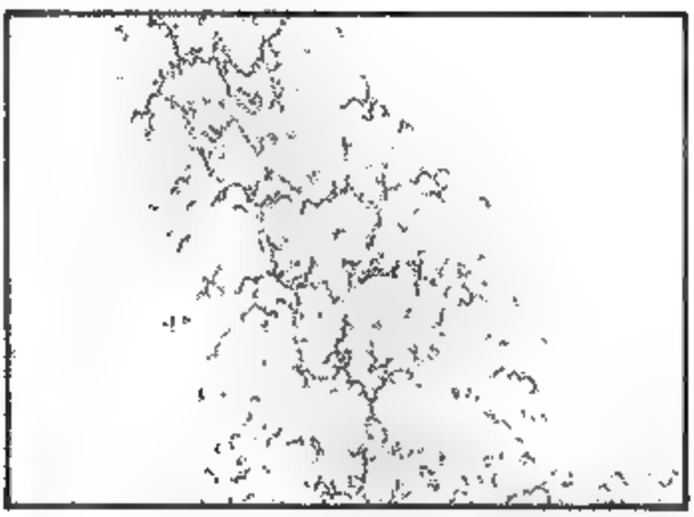
THEY'RE TRUE, AREN'T THEY?

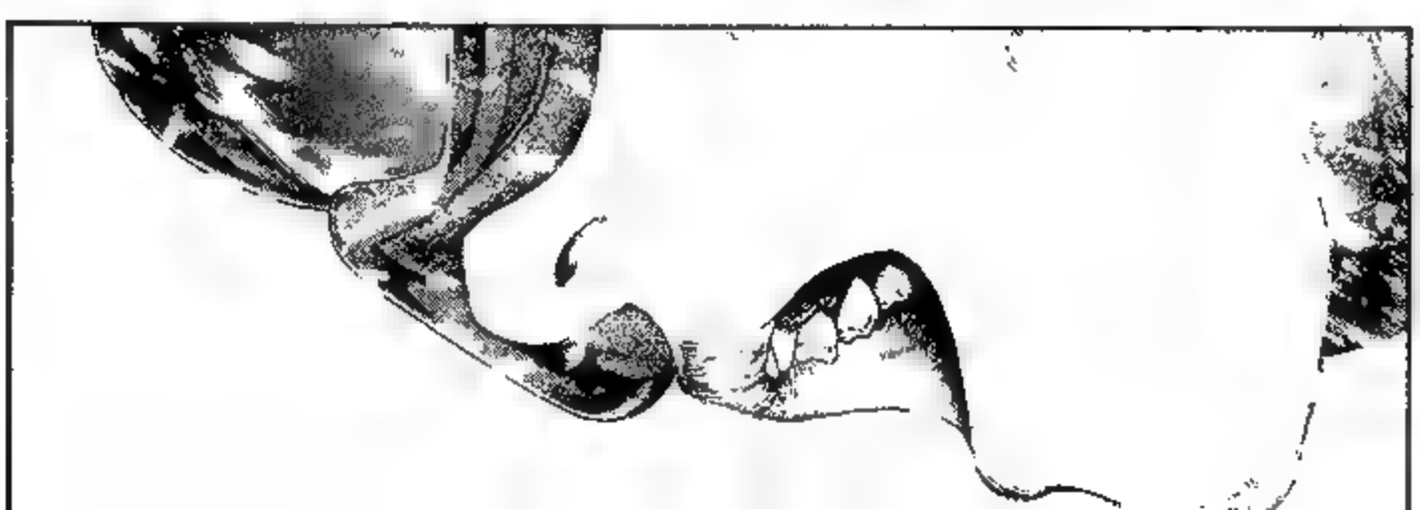
THERE ARE RUMORS SAYING YOU GOT MARRIED AND QUIT MOUNTAINS, SENPAI

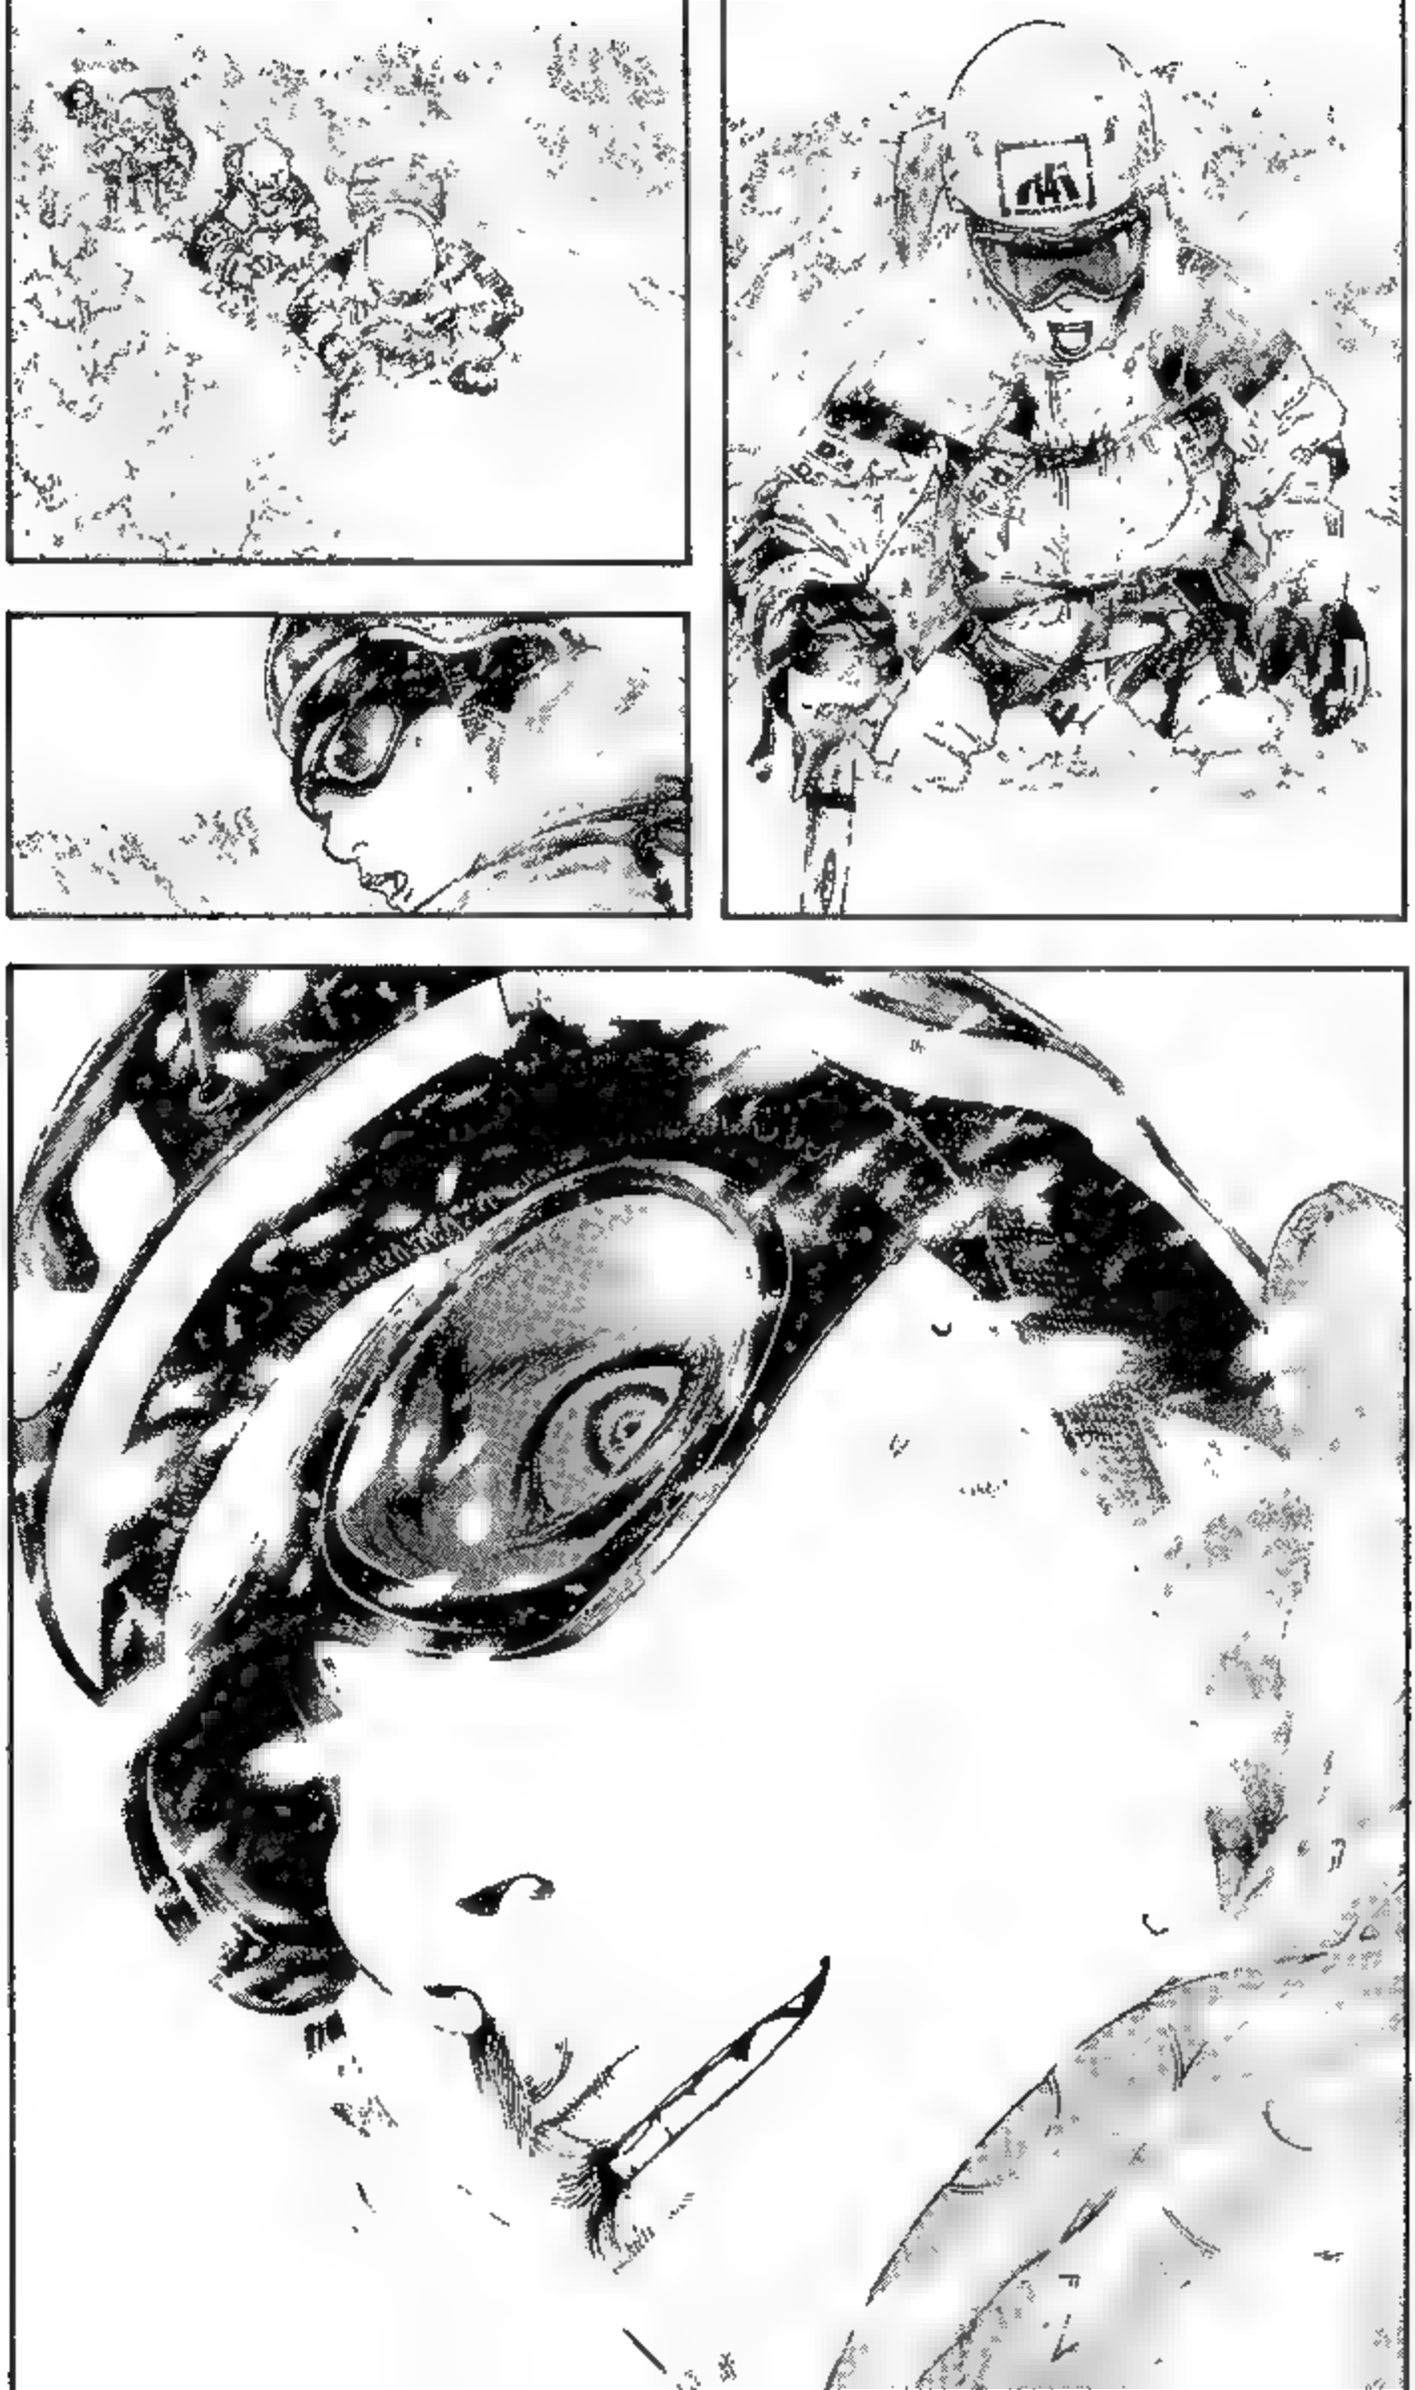
...I DID IT.

!!!
ON DECEMBER 14TH, I DEPARTED FROM TSUGAMI SHINDOU.
GO NG THROUGH SHIROUMA, KAERAZU, EBOSHI AND SHAKUJYOU,
LAST NIGHT I DESCENDED V.A THE KITAKAMA RIDGE..
THE MID-W NTER NORTHERN ALPS ALL-MOUNTA N TRAVERSAL.
FASTER THAN MY SENPAIS-

AND ALONE.







I DON'T HAVE ANYTHING ANYMORE.

YOU HAVE A FAMILY AND A JOB...

AND NOW IT SEEMS YOU'VE JUST HAD A CHILD, TOO, HAVEN'T YOU ?

YOU MUST BE HAPPY, SENPAI.

NEXT IS THE K2 EAST-FACE.

I'LL RISK MY WHOLE BODY AND SOUL, I WILL GO CONQUER IT WITHOUT REGARD FOR MY OWN LIFE.

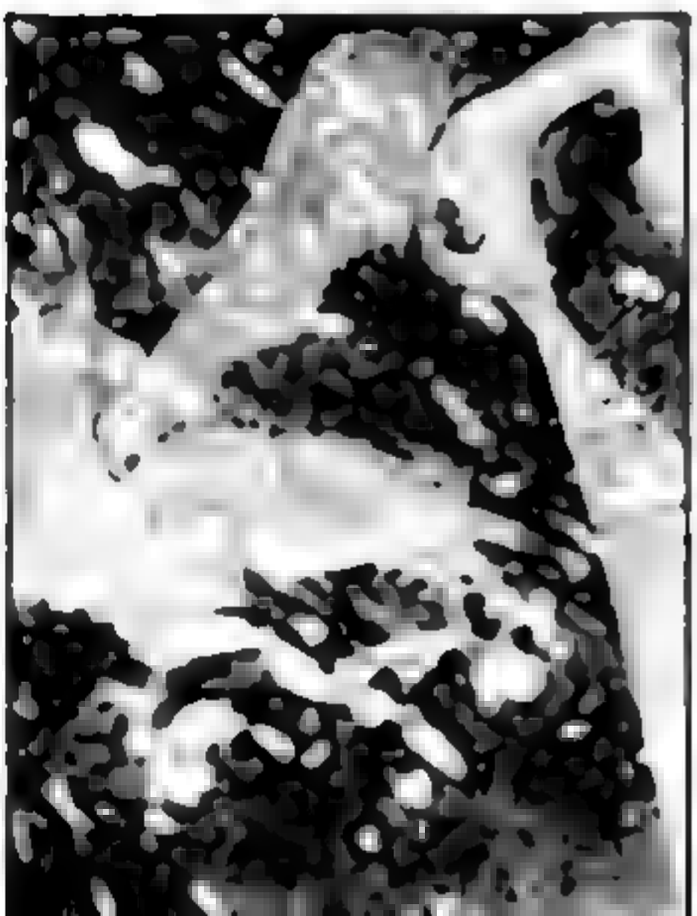
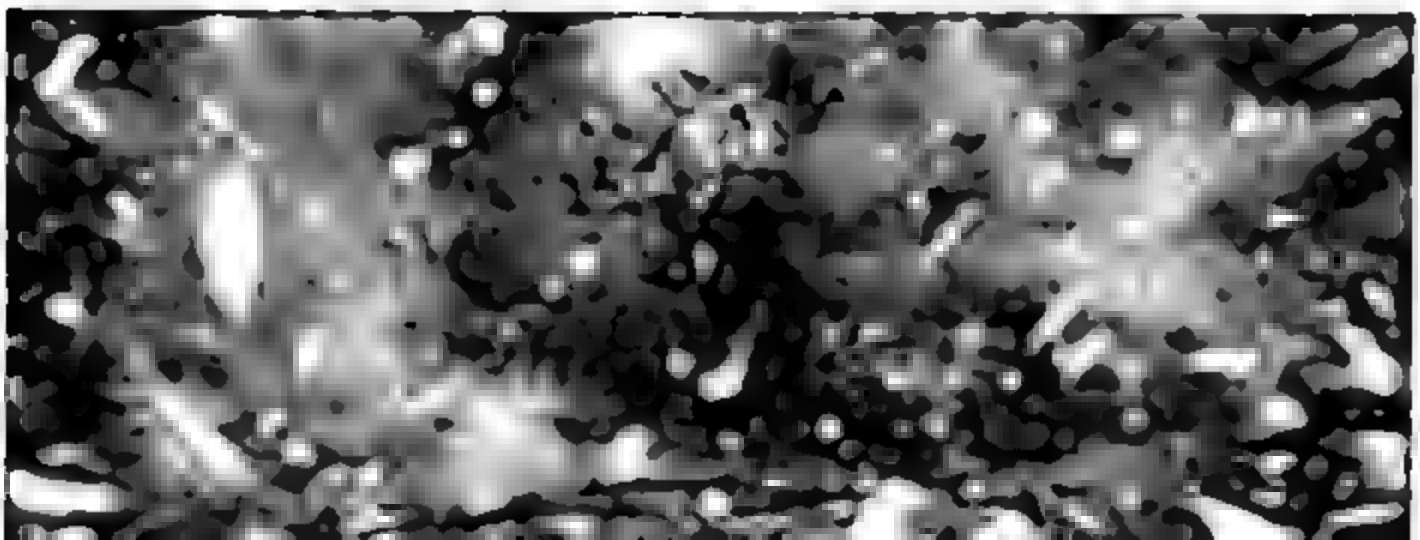
CAN'T BE WIPED





...IS SHE SLEEP-ING?

I'M BAAAAACK.

AH, SORRY
I'LL CLEAN THAT UP NOW.
HEHHUH.

ROKKA'S BEEN SLEEPING WELL FOR A WHILE

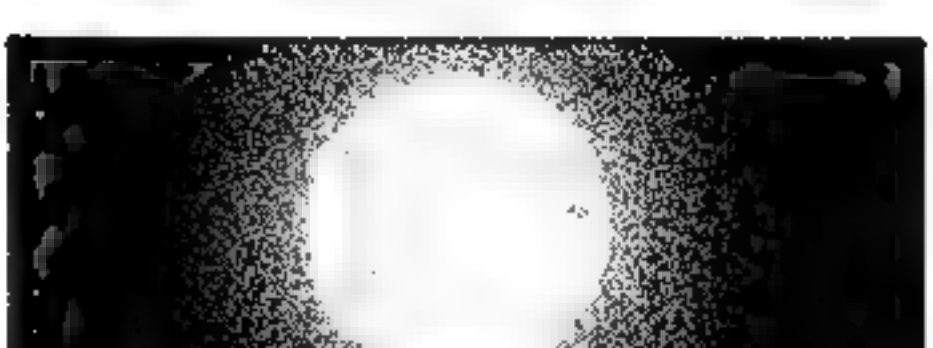
SO I THOUGHT I'D DO SOME MAINTE-NANCE ON MY GEAR FOR THE FIRST TIME IN A WHILE...

WELL, I'LL GET DINNER READY...

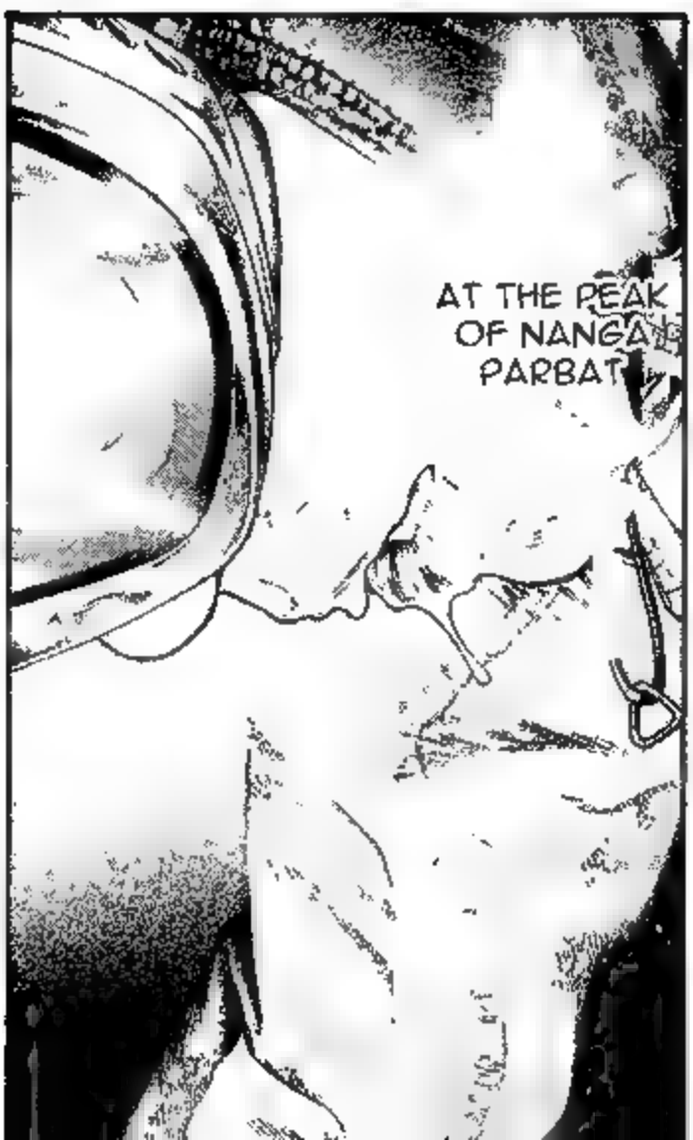
YOU HAVEN'T GONE IN A LONG TIME, HAVE YOU?

EVER SINCE ROKKA WAS BORN, ADACHI-SENSEI'S BEEN TAKING MY NEW SITUATION INTO ACCOUNT.
HE'S TAKEN ME OFF OVERSEAS INVESTIGATIONS.
ARE YOU STARTING TO
NOT LIKE GOING TO MOUNTAINS?
..AT ELEVATIONS ABOVE 8000 METERS, BECAUSE OF THE CHANGES TO AIR PRESSURE AND OSMOTIC PRESSURE IT LEADS TO EXTREME DEHYDRATION.
THE HINDRANCE OF BLOOD BECOMING THICK, IT CAUSES A TEMPORARY STATE OF HAVING A STROKE...

WITH A LACK OF OXYGEN, THE BRAIN'S FUNCTIONS ARE ARRESTED STARTING FROM THE AREA THAT GOVERNS MEMORY, THE OUTER HIPPOCAMPUS.



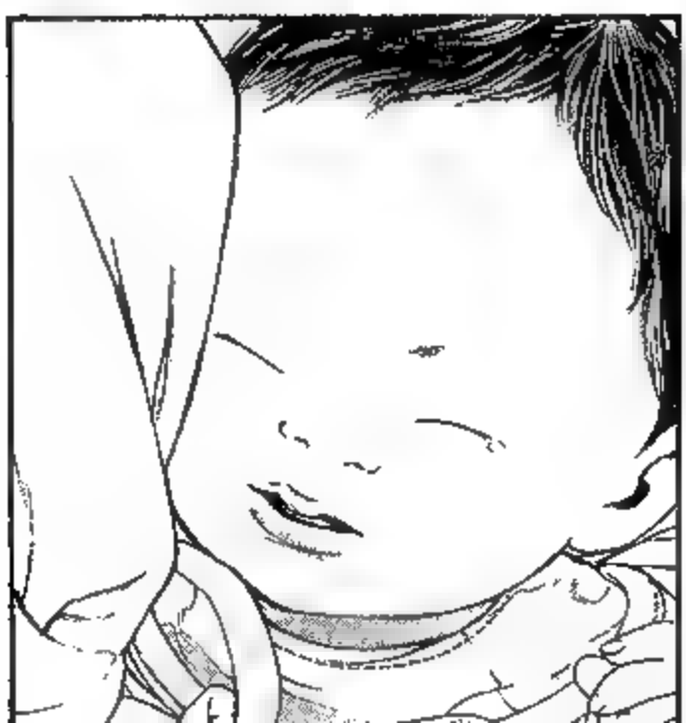
YOU FALL INTO SO CALLED PATCHES OF TIME WITH "NO MEMORIES".

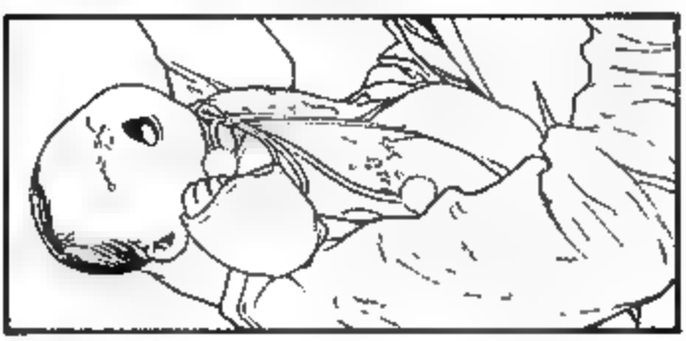


AT THE PEAK
OF NANGA
PARBAT

I WAS UNCON-
SCIOUSLY
GATHERING
SNOW FOR THE
LABORATORY.

I GUESS THAT MEANS THAT WORK
IS A PART OF MY BODY NOW, ISN'T IT?





I'M NOT
GOING TO MOUNTAINS ANYMORE...

SORRY.
GET THE CHEAPEST ONES.

SO, MISO AND MILK, RIGHT?

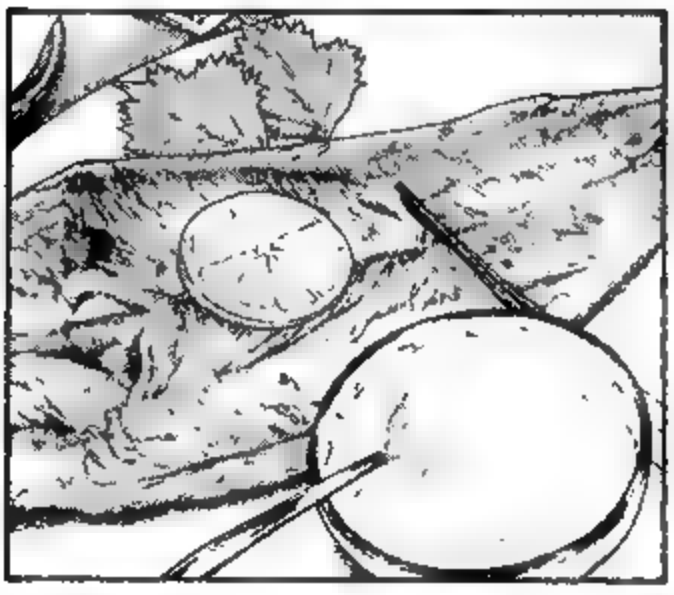
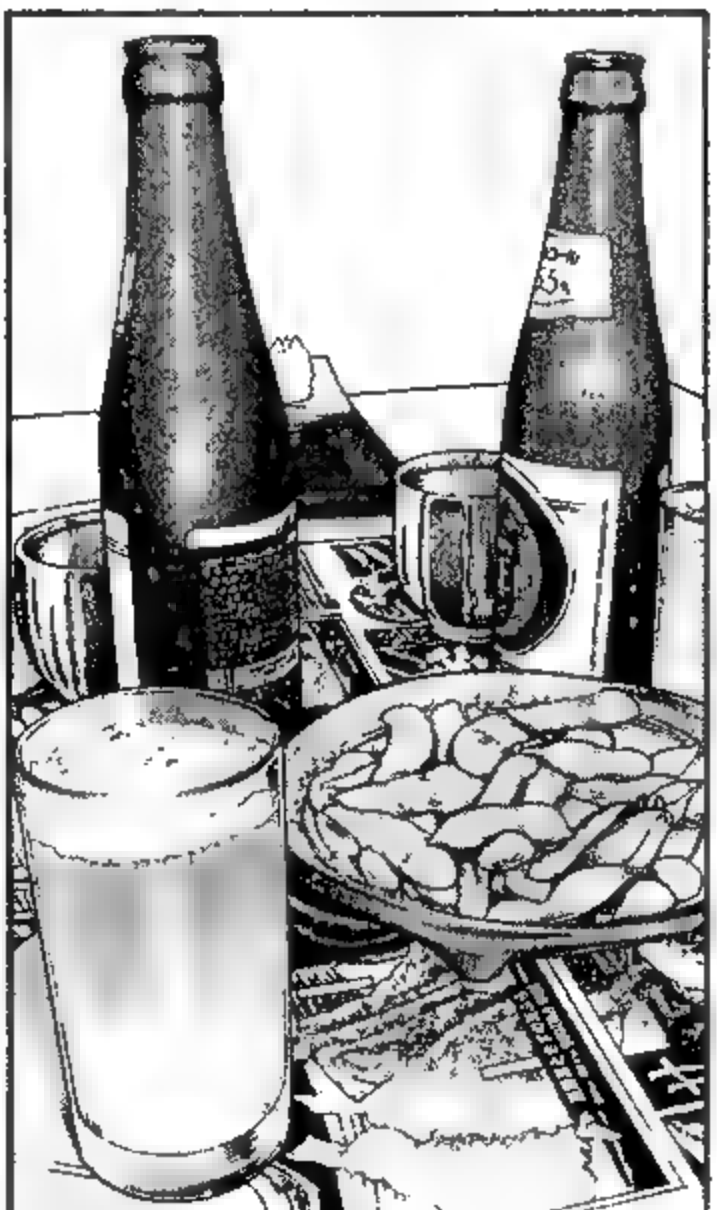
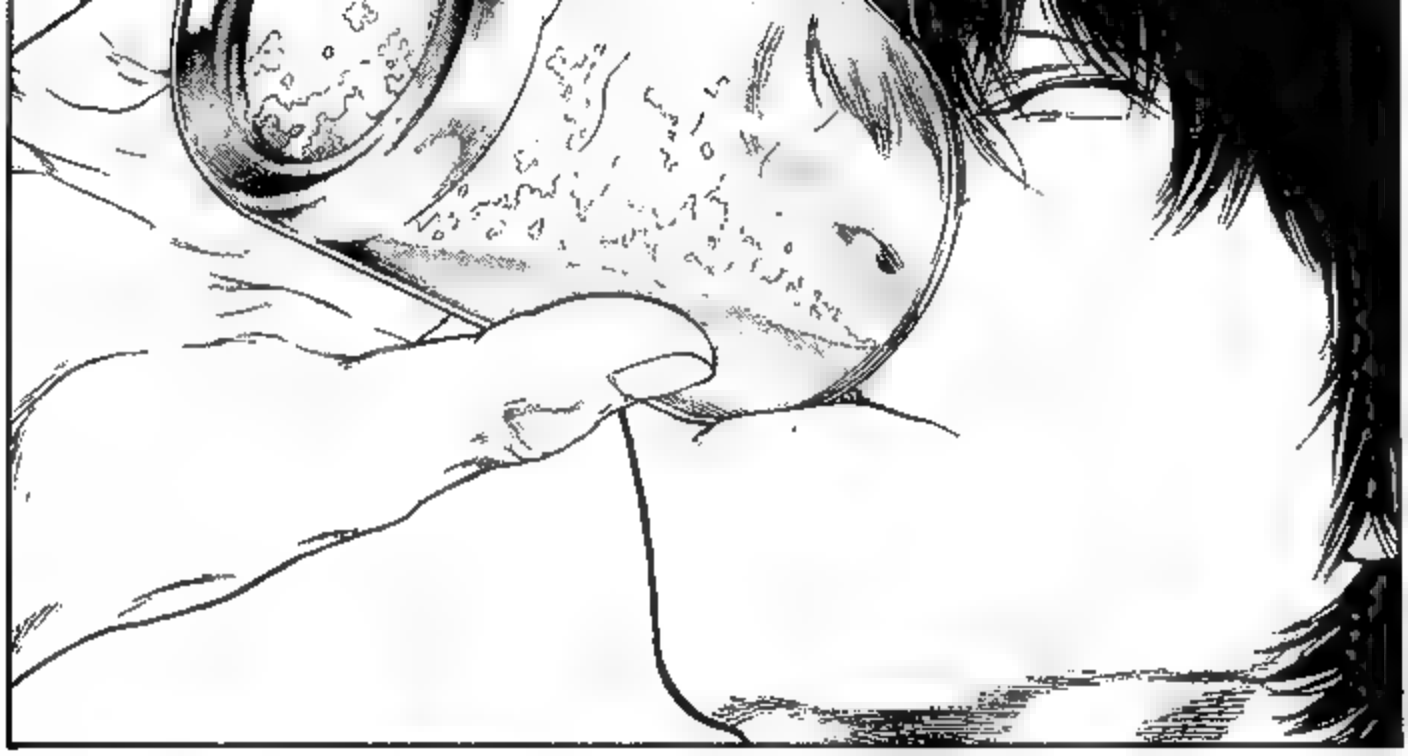
FOOD AND DRINK
126TH CLIMB - GREATEST TRIAL





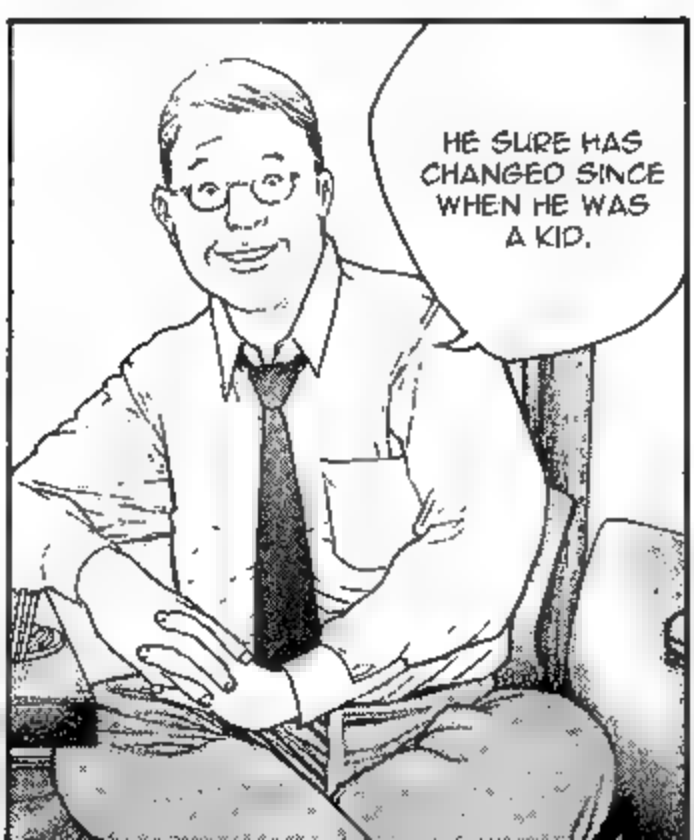
126TH CLIMB GREATEST TRIAL



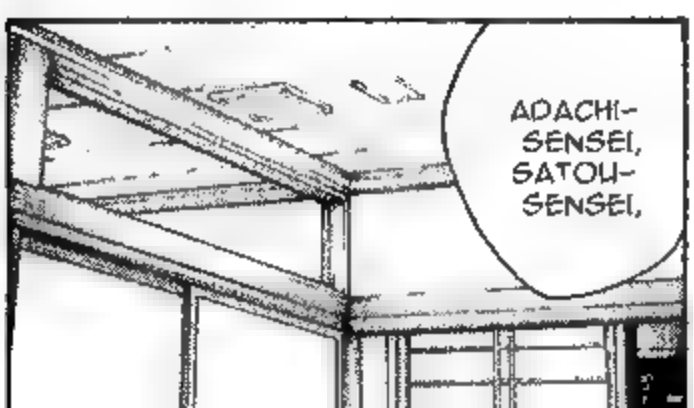
BUT I'M SURPRISED.

THAT KATOU-KUN IS DRINKING POURED ALCOHOL.
AND HE'S ACTU-ALLY FOOLING AROUND WITH FRIENDS...

YES.
HE HAS.



HE SURE HAS CHANGED SINCE WHEN HE WAS A KID.



ADACHI-SENSEI, SATOU-SENSEI,

FOR ALL OF YOU FROM THE LABORATORY COMING TO CELEBRATE MY CHILD'S BIRTH WITH ME,
THANK YOU SO MUCH.
IT WAS A GREAT MEAL!!

I FEEL LIKE I'M FINALLY A REAL ADULT NOW.

HOW'S IT FEEL TO BE A DAD?
MUST BE GOOD, EH?
IT REALLY IS.

BUT IN THE END, IS THIS CHANGE
REALLY A GOOD THING FOR HIM? OR A BAD THING?

THAT CONFI-
DENCE THAT
COULD BE SEEN
AS HUBRIS, AND
THAT DEDICA-
TION OF DEVOT-
ING EVERYTHING
TOWARD HIS
GOAL.
IF THOSE
THINGS HAVE
DIMINISHED.

I'LL SEE YOU TOMORROW AT THE LAB.
ADACHI-SENSEI.
I'LL BE TAKING MY LEAVE THEN, EXCUSE ME.
A... OKAY.
OF COURSE IT'S GOOD.
HIS FUTURE IS SURE TO BE MORE BRILLIANT THAN EVER.
IN
IF KATOU-KUN CAN FREELY TALK WITH ANYONE, SMILE, DRINK, AND TELL JOKES,

TOMORROW IS THE RESEARCH PUBLICAT ON, ISN'T IT?
I'LL WATCH ROKKA-CHAN STARTING AT NIGHT, WE'LL SWITCH... YEAH, SEE YOU SOON.
HELLO, HANA-CHAN? IT'S ME.
YEAH, I'LL BE THERE IN 30 MINUTES...

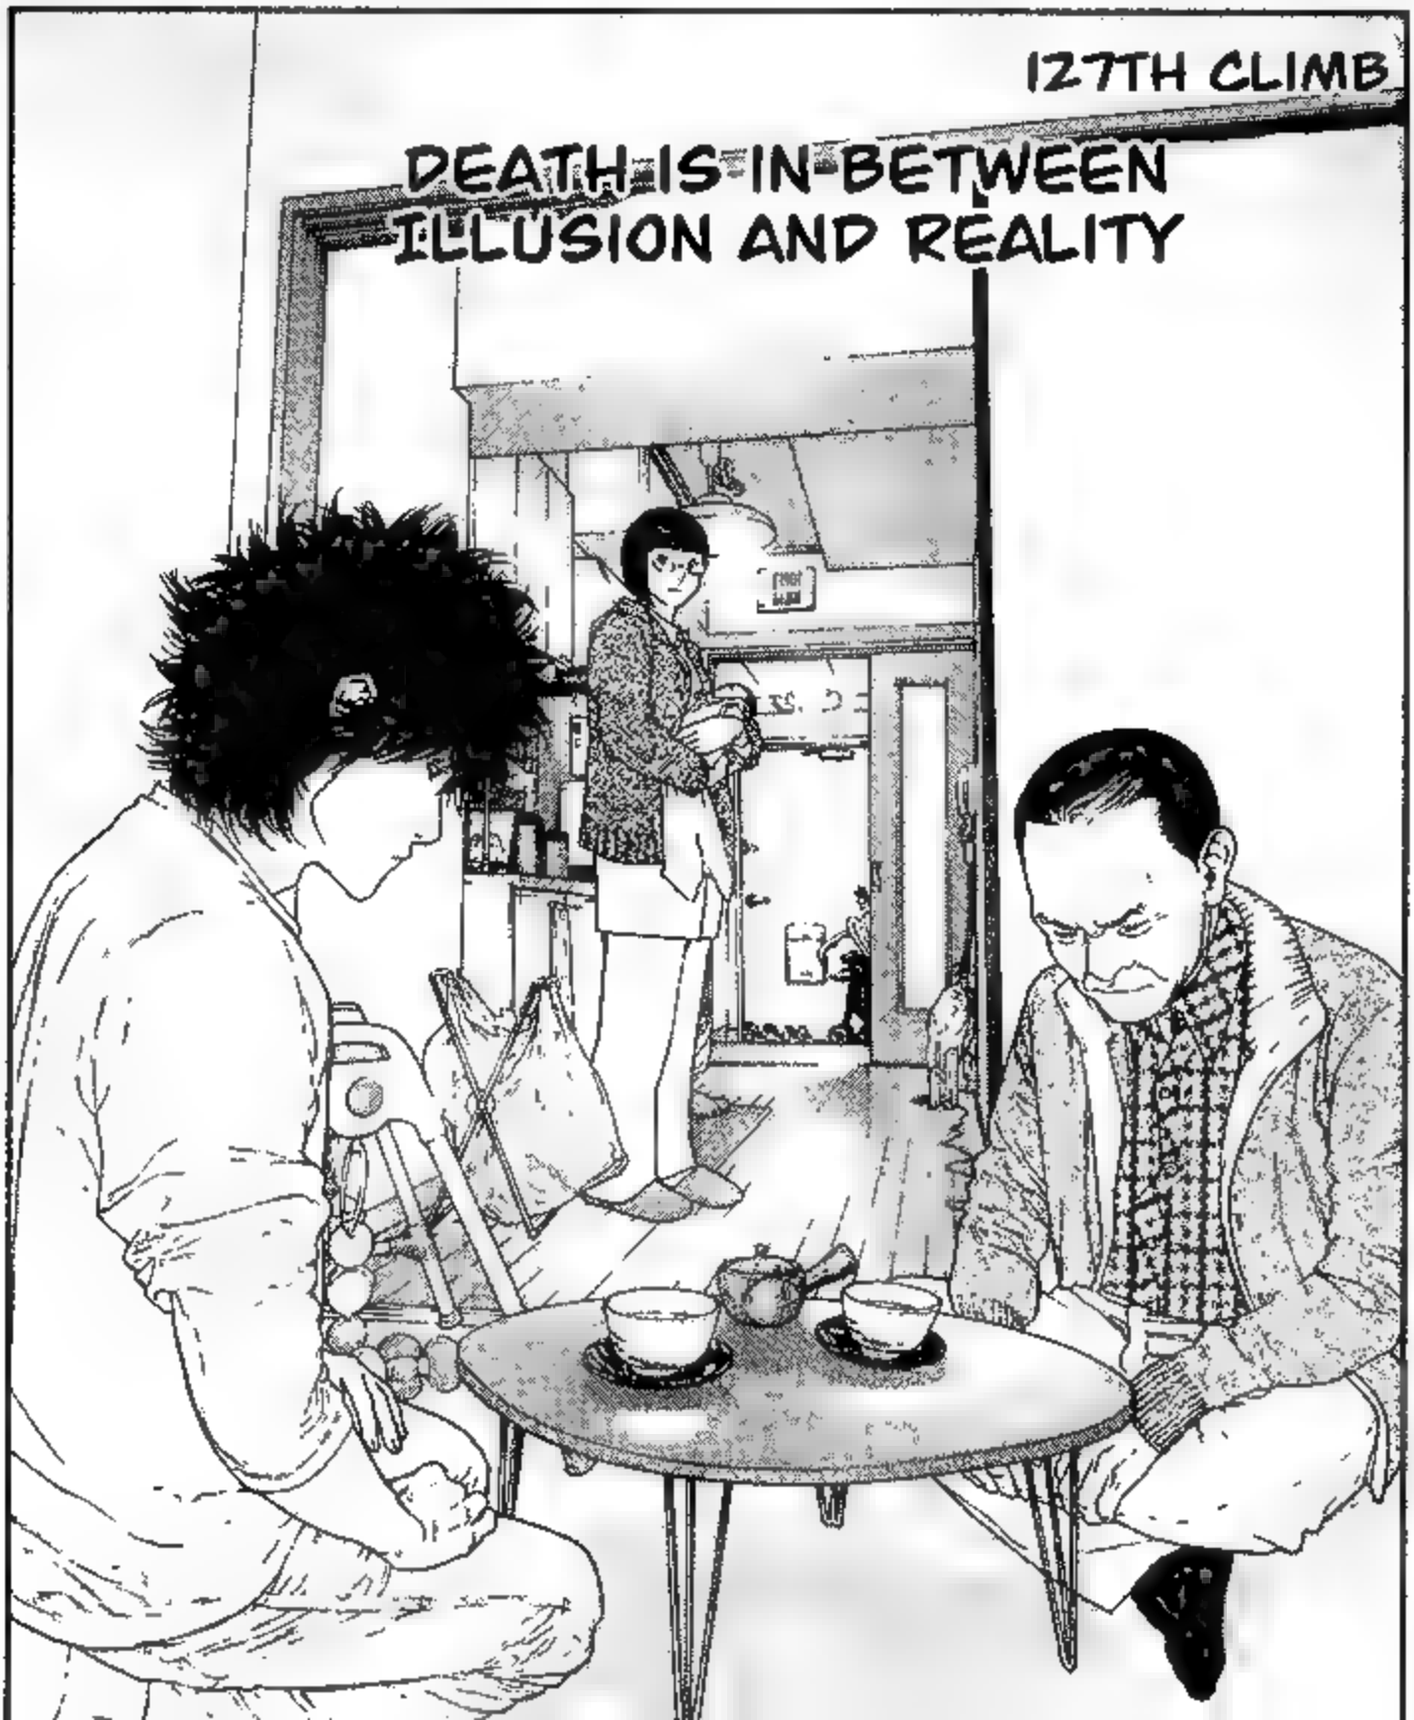
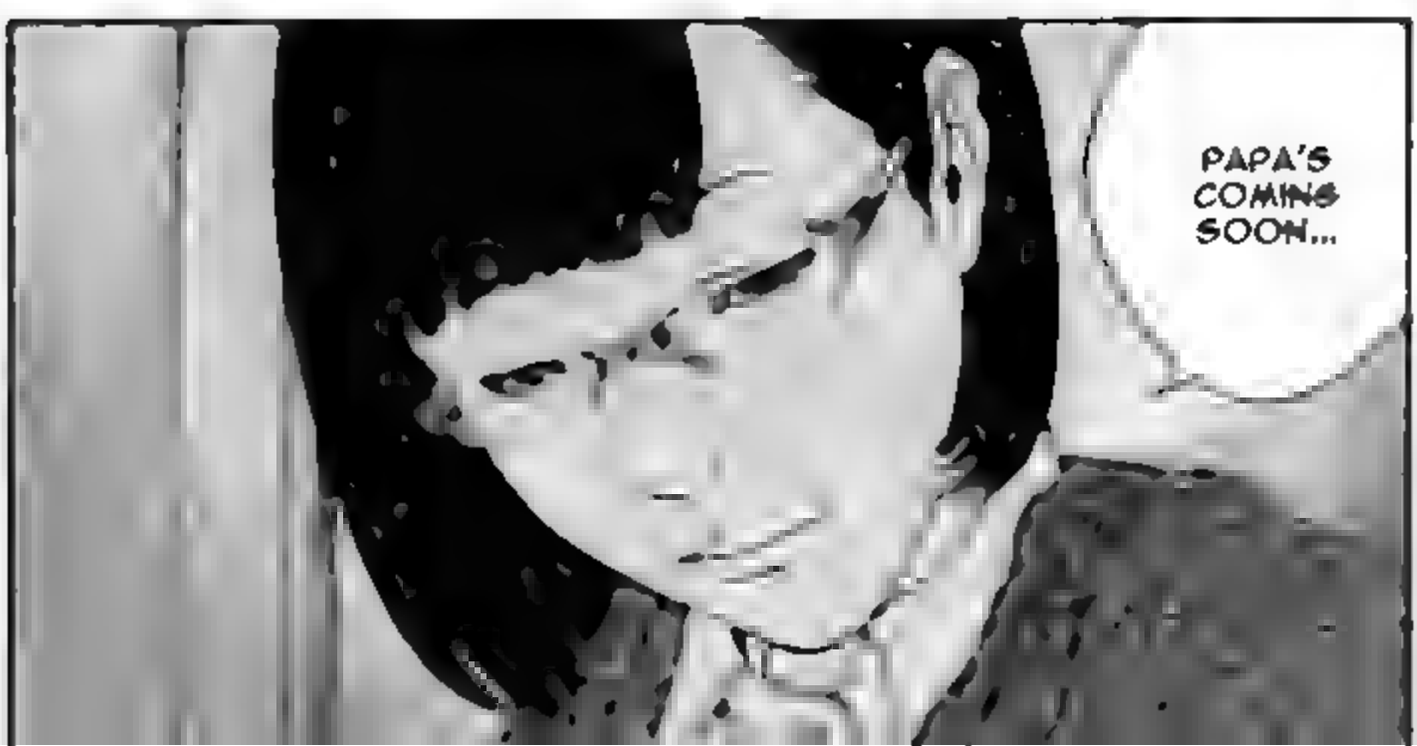
127TH CLIMB - DEATH IS IN BETWEEN
ILLUSION AND REALITY

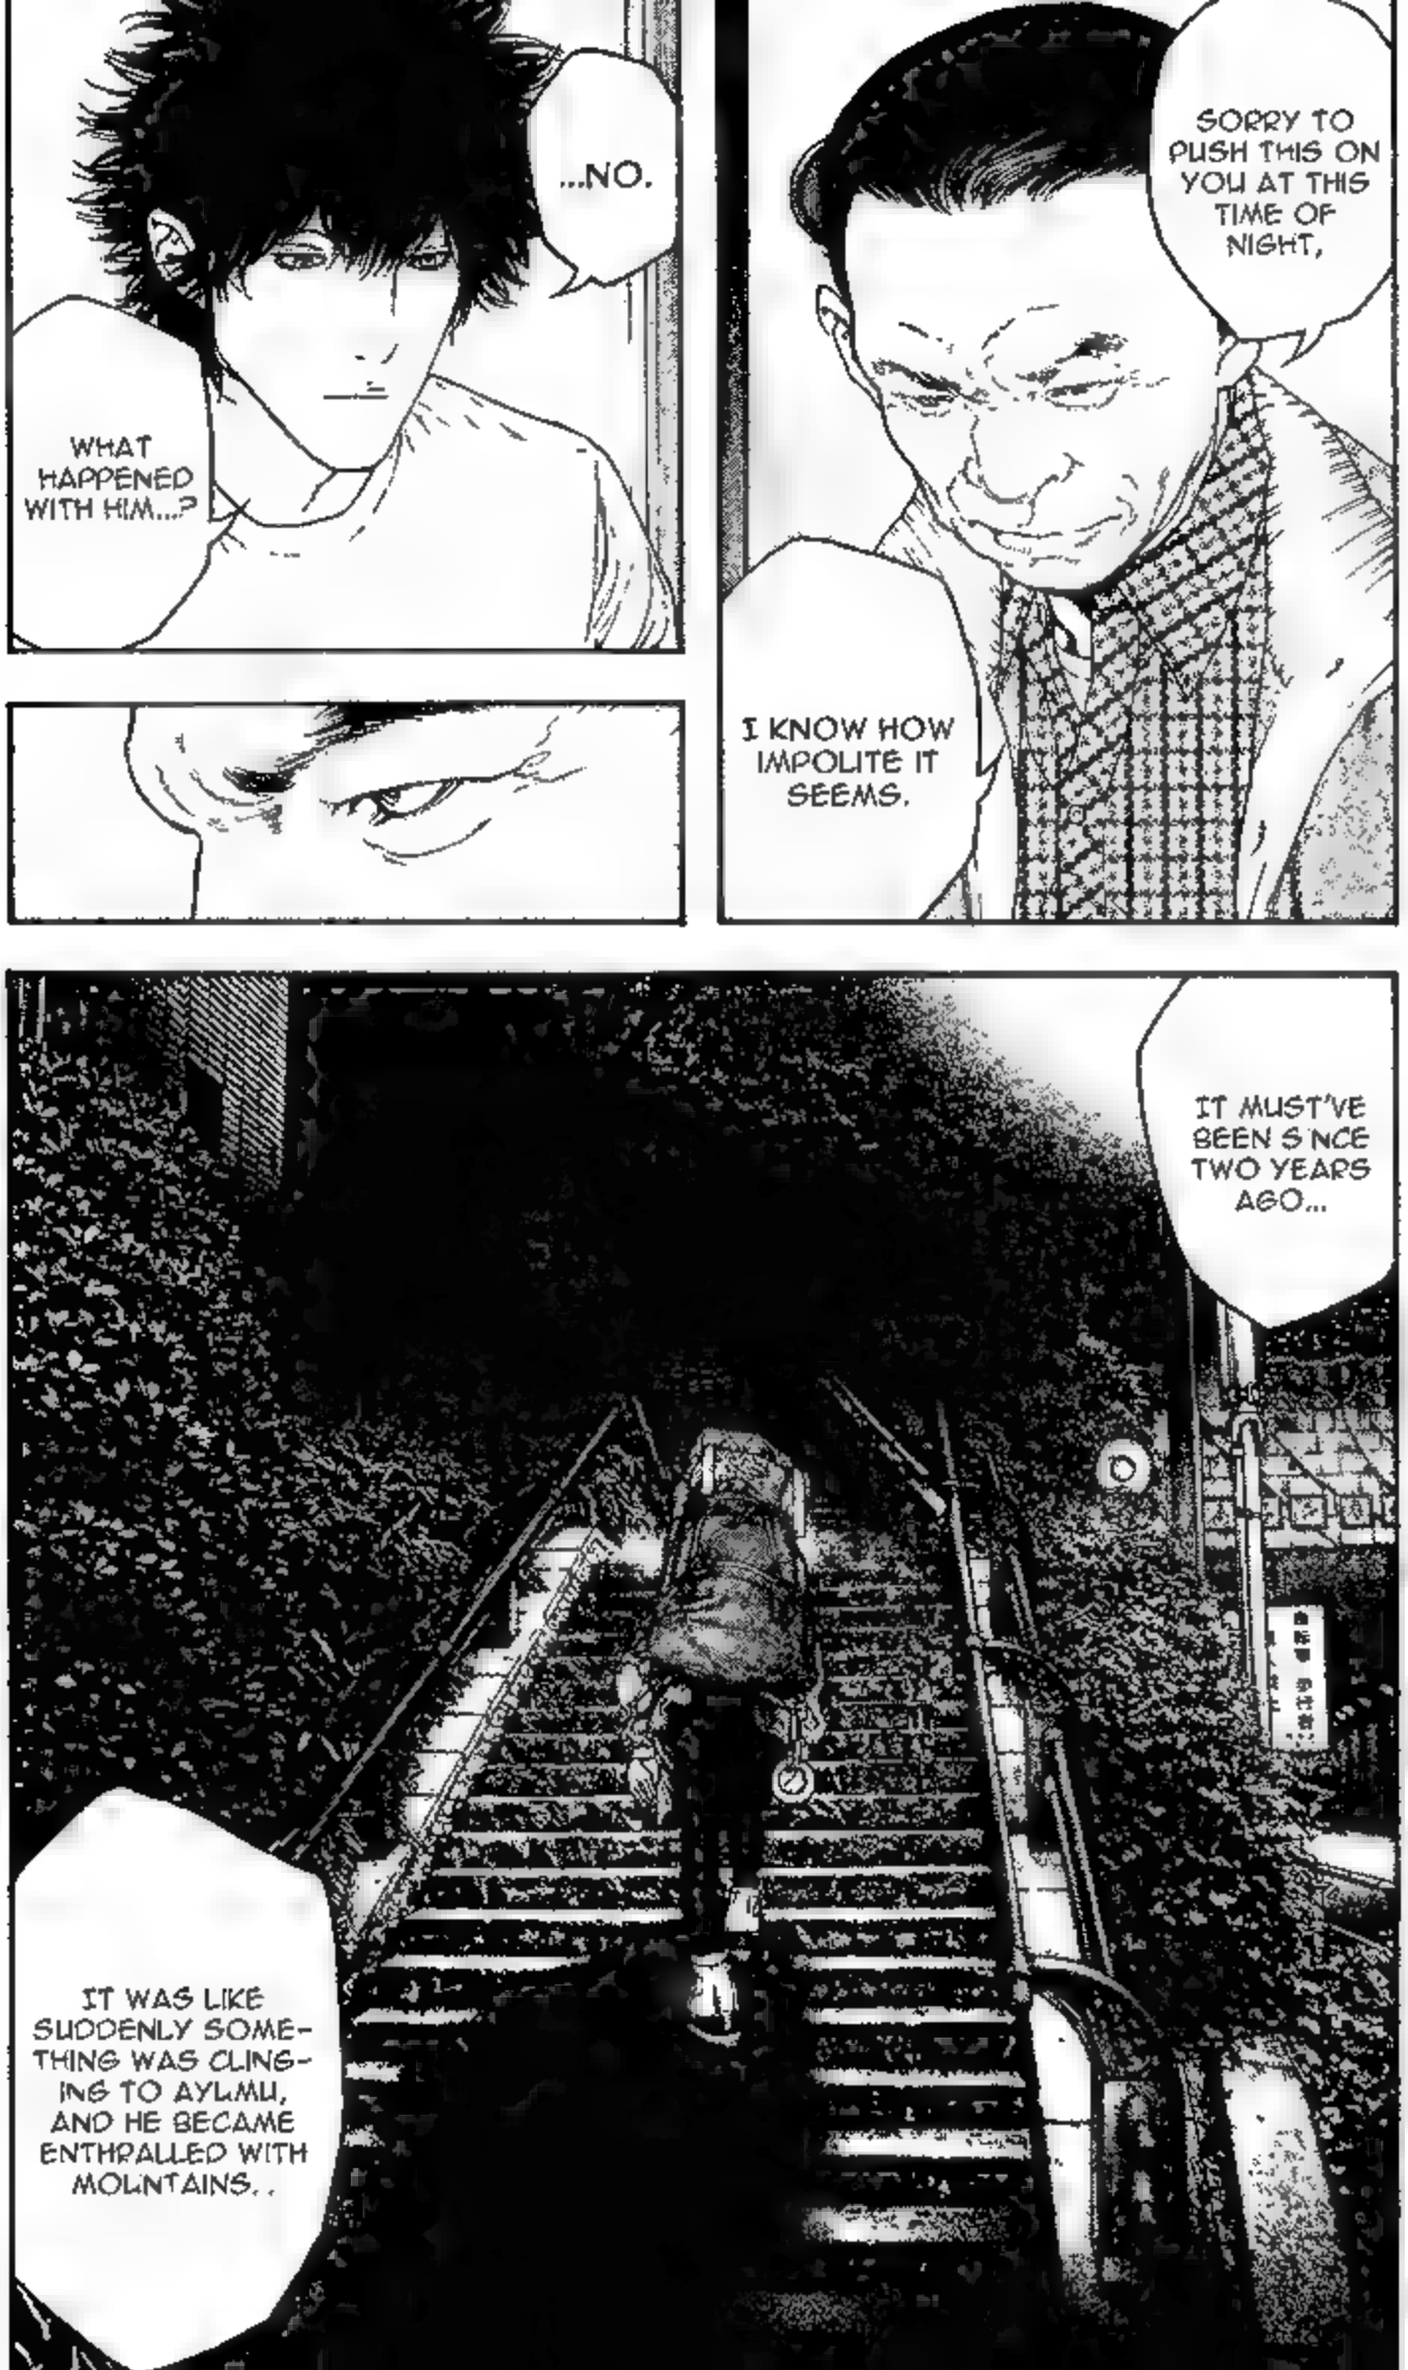


127TH CLIMB
DEATH IS IN-BETWEEN ILLUSION AND REALITY

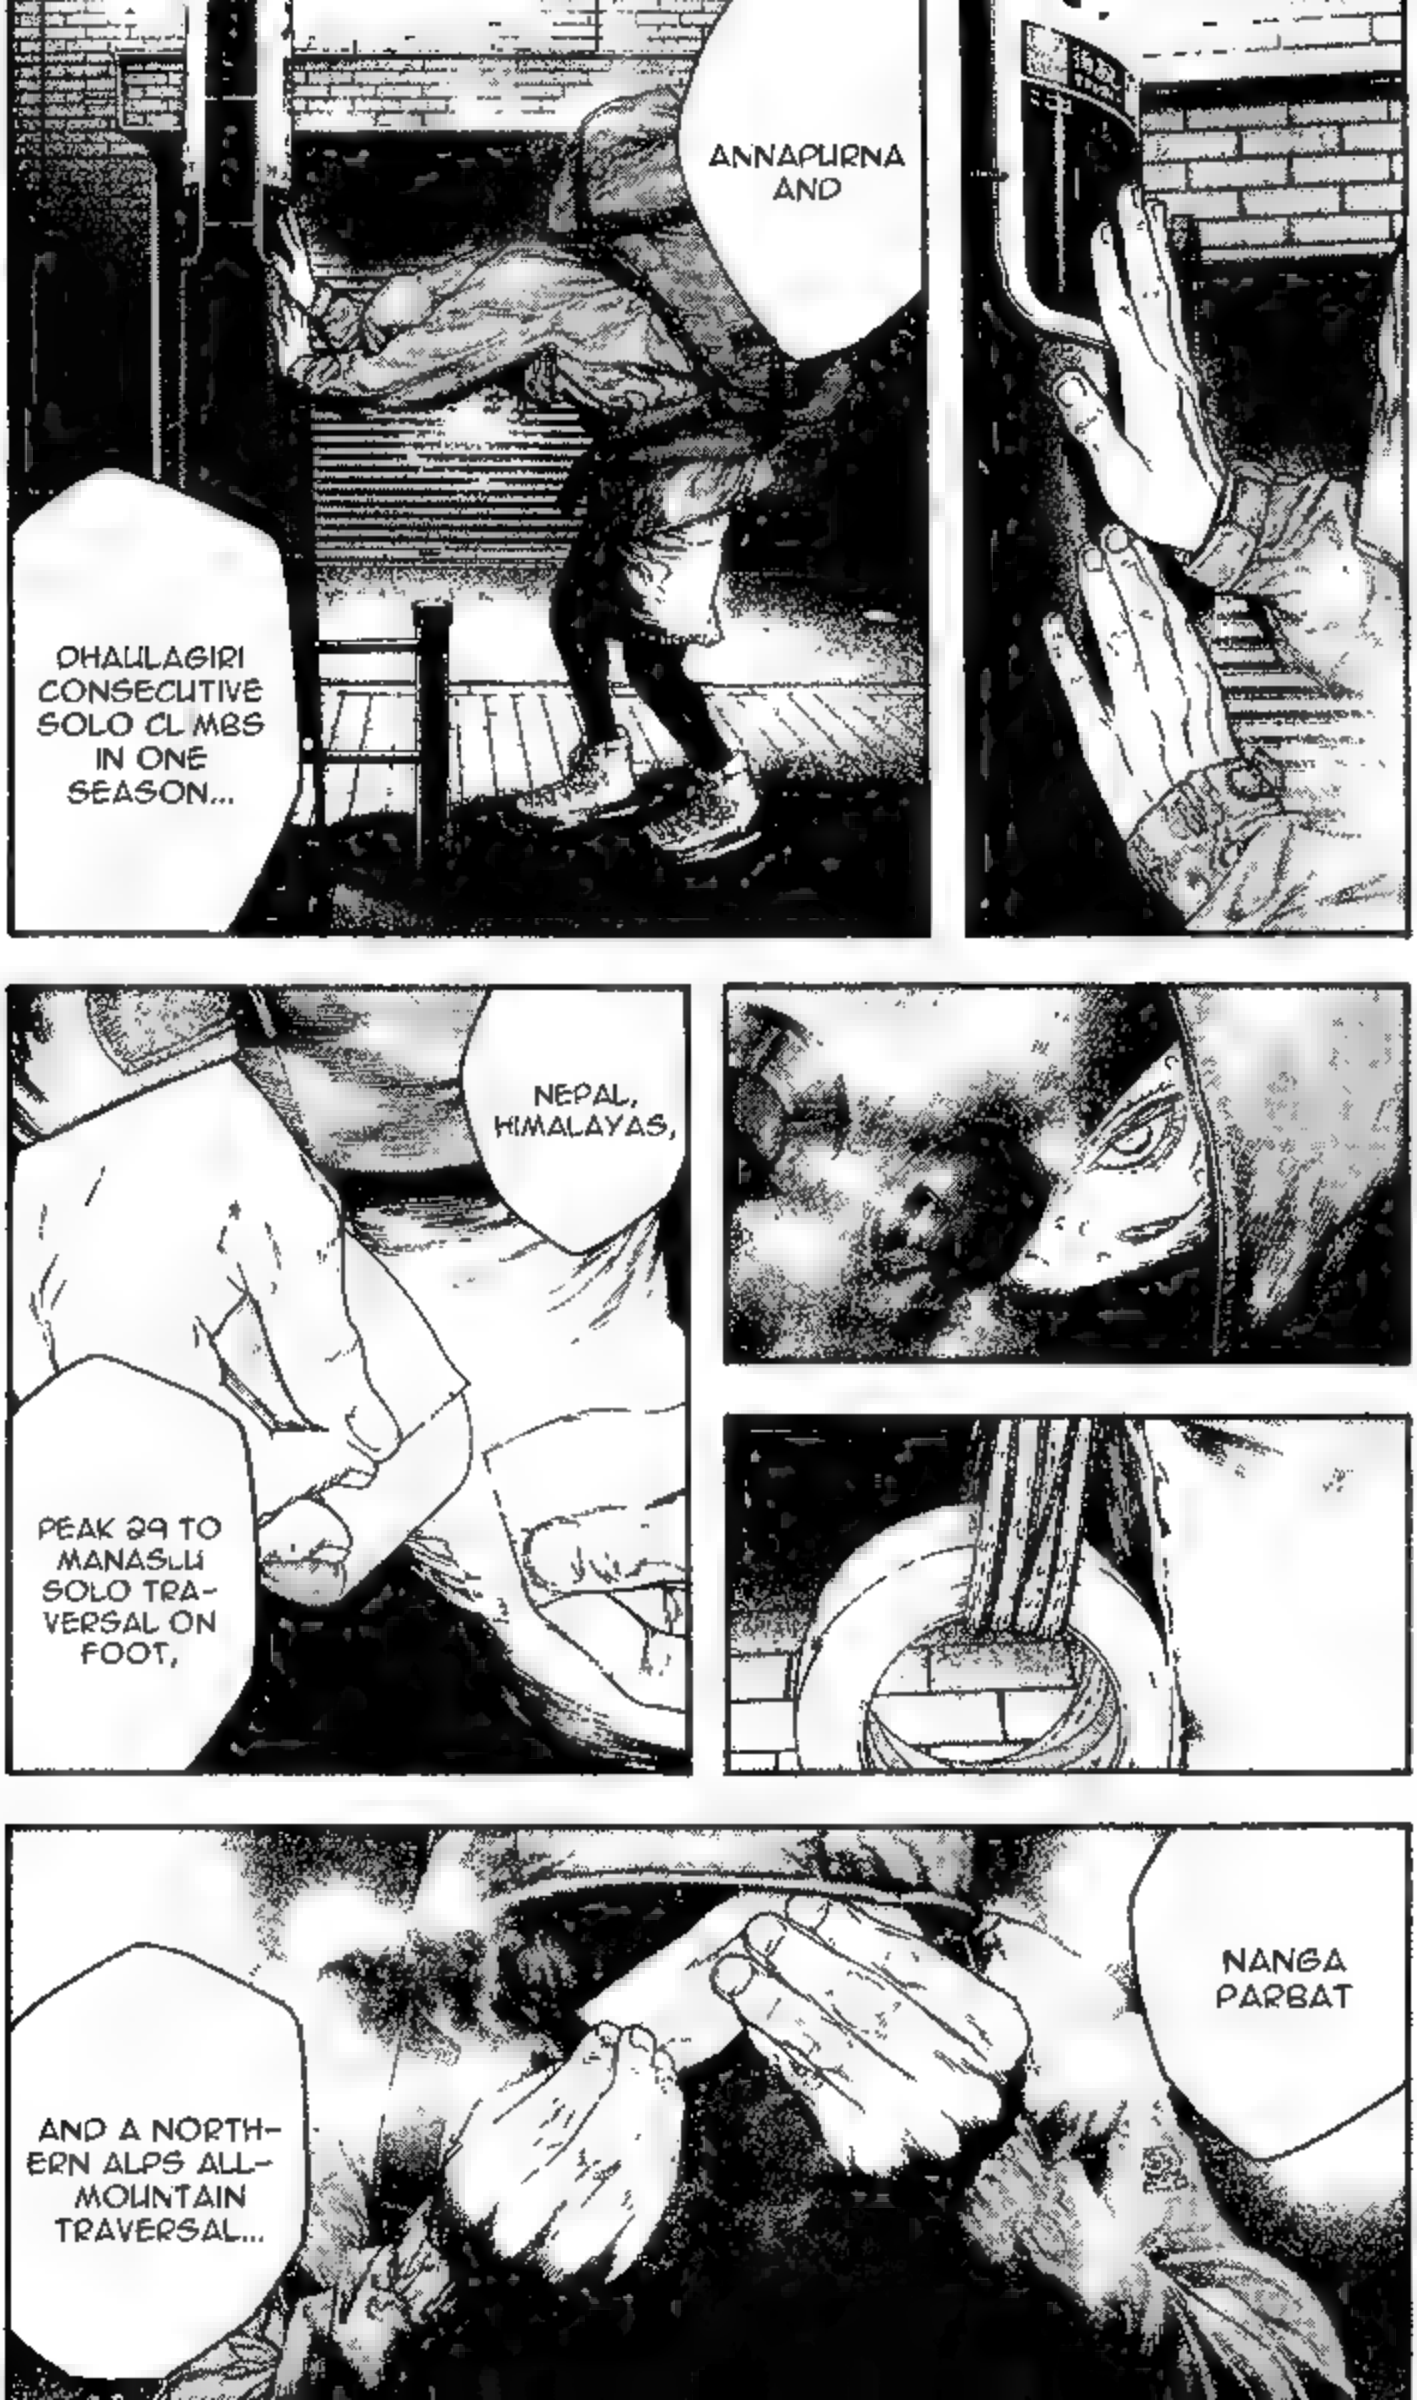
IT'S OKAY, IT'S OKAY...



PAPA'S COMING SOON...



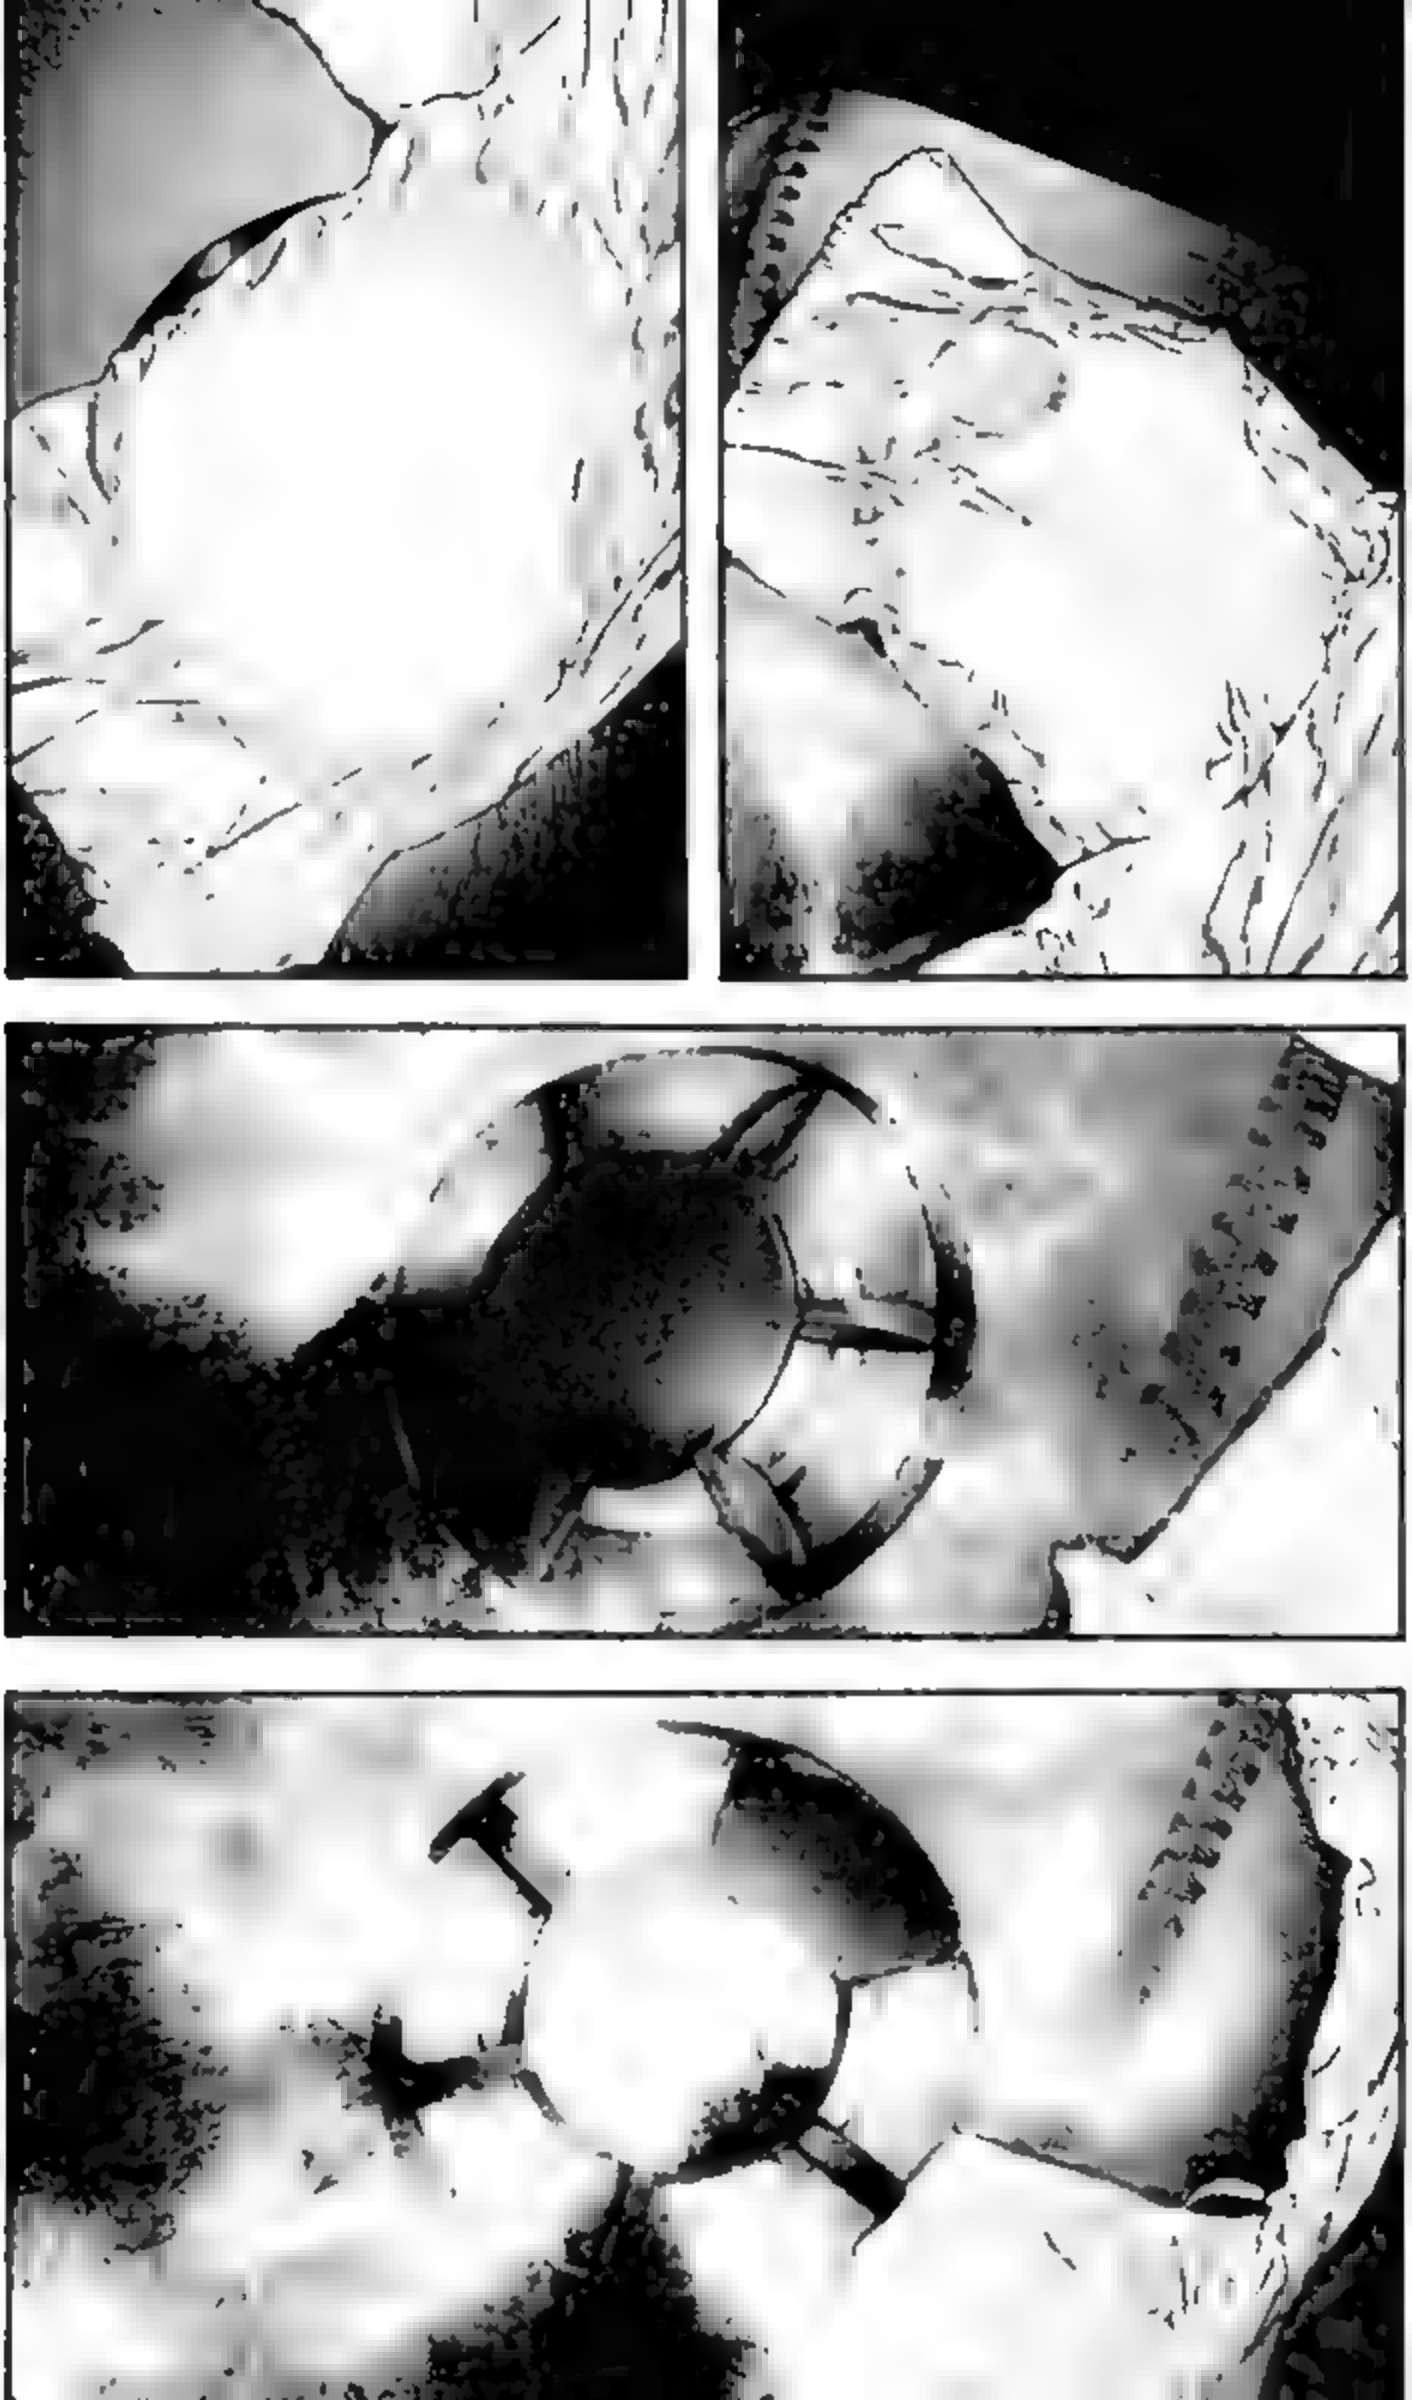
...NO.
WHAT HAPPENED WITH HIM...?
SORRY TO PUSH THIS ON YOU AT THIS TIME OF NIGHT,
I KNOW HOW IMPOLITE IT SEEMS.
IT MUST'VE BEEN SINCE TWO YEARS AGO...
IT WAS LIKE SUDDENLY SOMETHING WAS CLINGING TO AYUMU, AND HE BECAME ENTHRALLED WITH MOUNTAINS..



ANNAPURNA AND
DHAULAGIRI CONSECUTIVE SOLO CLIMBS IN ONE SEASON...
NEPAL, HIMALAYAS,
PEAK 29 TO MANASLU SOLO TRAVERSAL ON FOOT,
NANGA PARBAT
AND A NORTHERN ALPS ALL-MOUNTAIN TRAVERSAL...

BUT THE WAY HE CLIMBS IS TOO DANGER-OUS...
ALL THE MOUNTAIN CLIMBS
MIMICKED YOU.
HE PLUNGES ONTO 8000 METER PEAKS AND NOW HE'S FALL-ING TO THE VERGE OF HAVING A PULMONARY EDEMA OR BRAIN EDEMA...
WHEN HE'S ON SITE, WITHOUT TAKING HIS TIME TO ADAPT TO THE ALTITUDE,
AND WITHOUT DOING MUCH PRELIMINARY INVESTIGATION OR WEATHER PREDICTION,

AT THIS RATE, HE'S GOING TO DIE...!!!

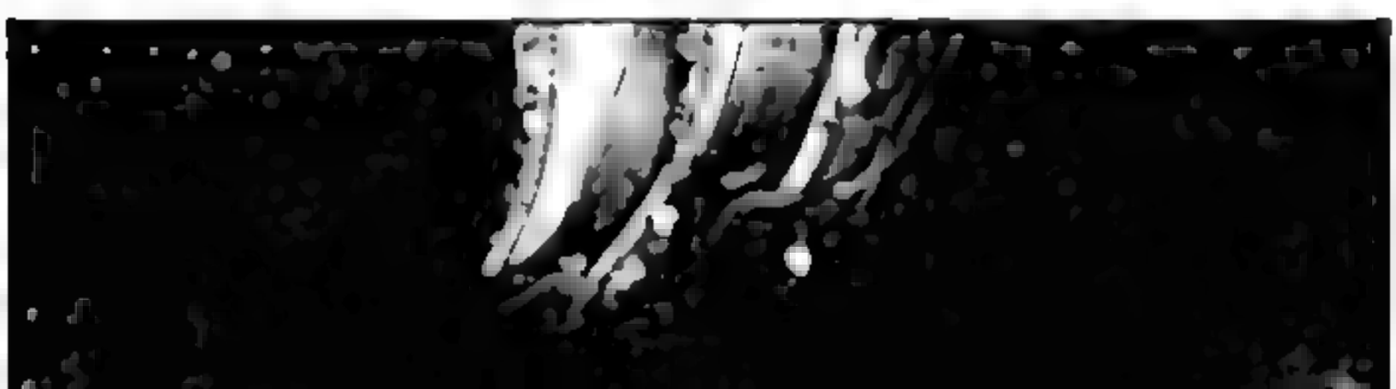


HE CAN CUT HIS OXYGEN CONCENTRATION TO 50%, AND BRING ON THE SENSATION OF BEING AT 6000M.
WHEN HE WEARS THIS MASK WITH RECONFIGURED VALVES

COVERING TWO VALVES,
IT'S LIKE 8000 METERS...

COVERING ONE VALVE,
高
ELEVATION 7000M

AND IF HE THEN COVERS A THIRD VALVE



ELEVATION
9000 METERS
000

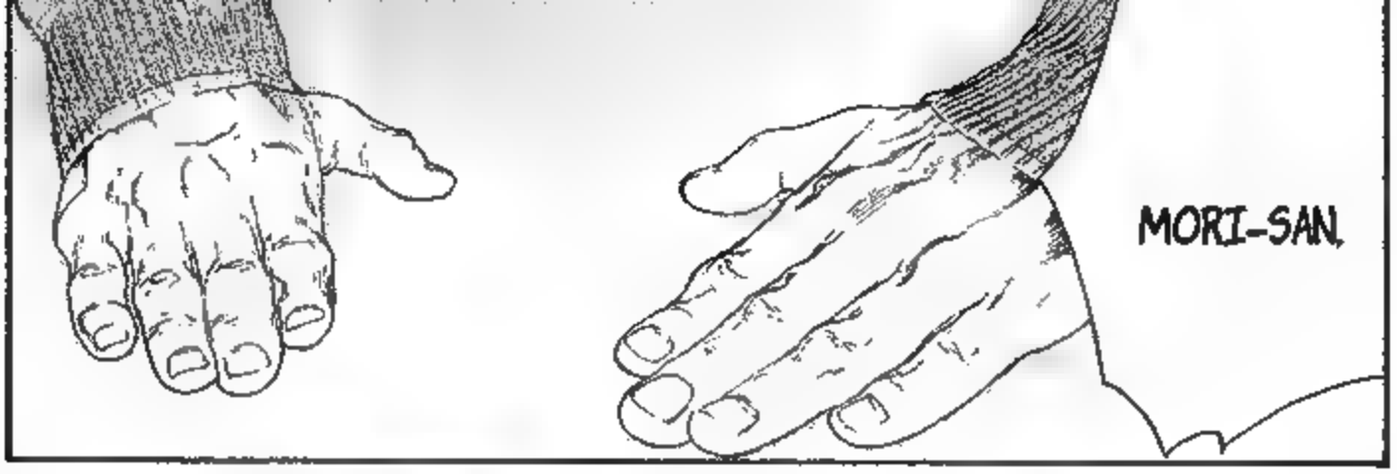
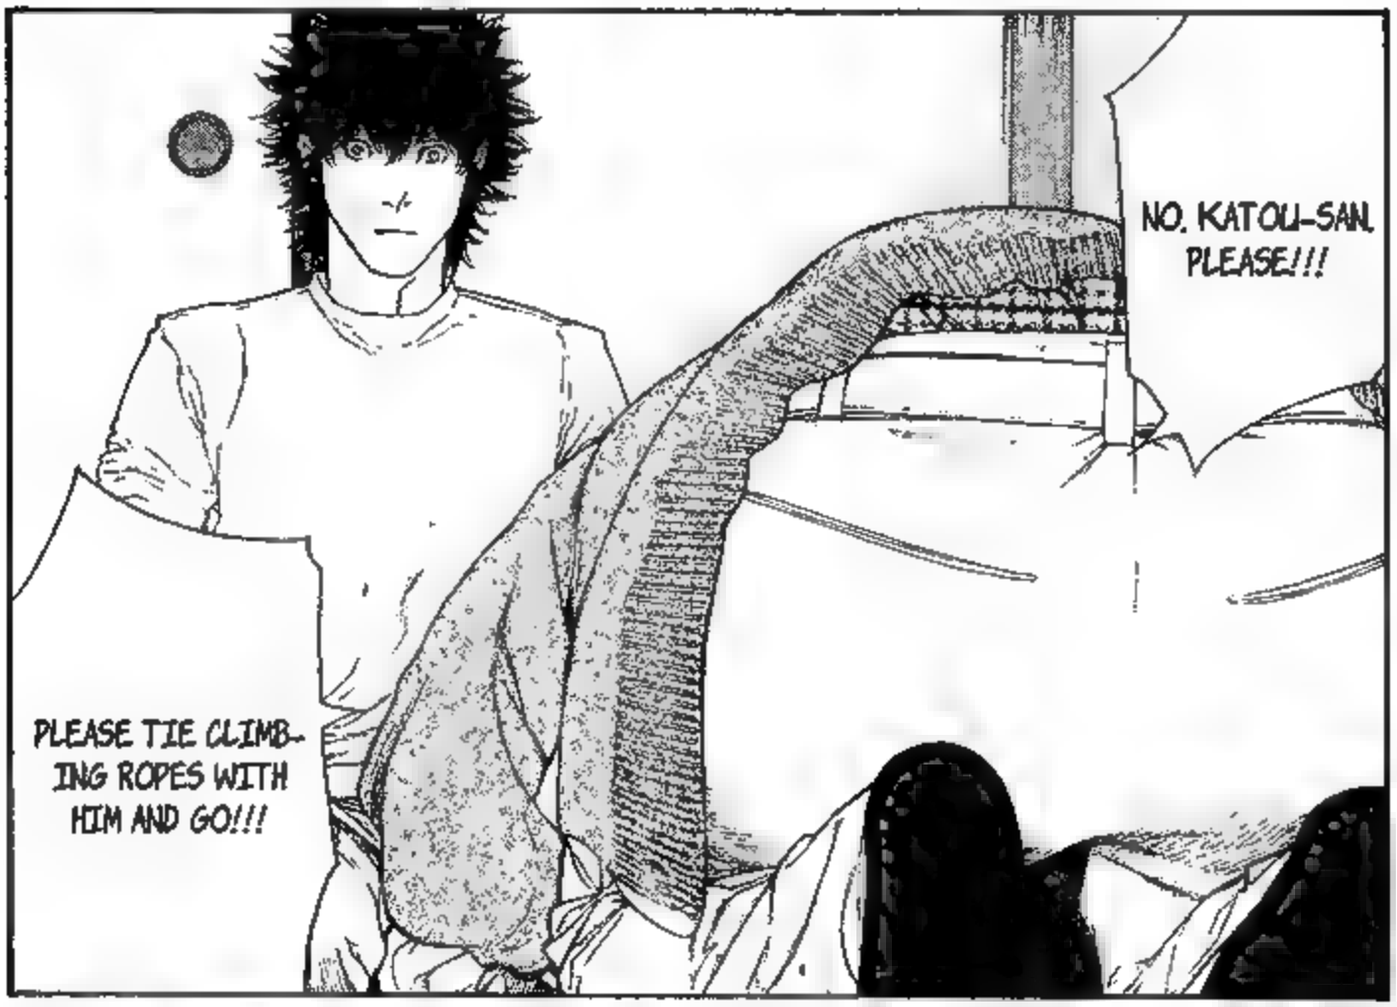
詳細
K2 east-face expedition AYUMU TAKEMURA
Dear Mr. Takemura,
Thank you for your contact to us.
We accept your plan for K2 east-face expedition on coming June-August. We are sure that we still have the joint available for K2 permission.
Let us just inform you of this matter, and send you our budget suggestion to each occupation immediately.
Talk to you soon.
Mohan Nadig
HE'S PROBABLY PLANNING TO GET TO THE K2 EAST-FACE THIS SUMMER.
AYUMU HAS ALREADY REQUESTED PERMISSION TO ENTER THE MOUNTAINS FROM THE PAKISTAN SIGHT-SEEING MINISTRY THROUGH AN AGENT



MORI-SAN.



NO. KATOU-SAN. PLEASE!!!
PLEASE TIE CLIMB-ING ROPES WITH HIM AND GO!!!

HE WON'T LISTEN TO ANYONE ANY-MORE!!!
HE'S ALREADY STARTED IN ON THE SHOP'S MONEY.
THE HOUSE, THE SHOP, THEY'RE ALL A MESS!!!

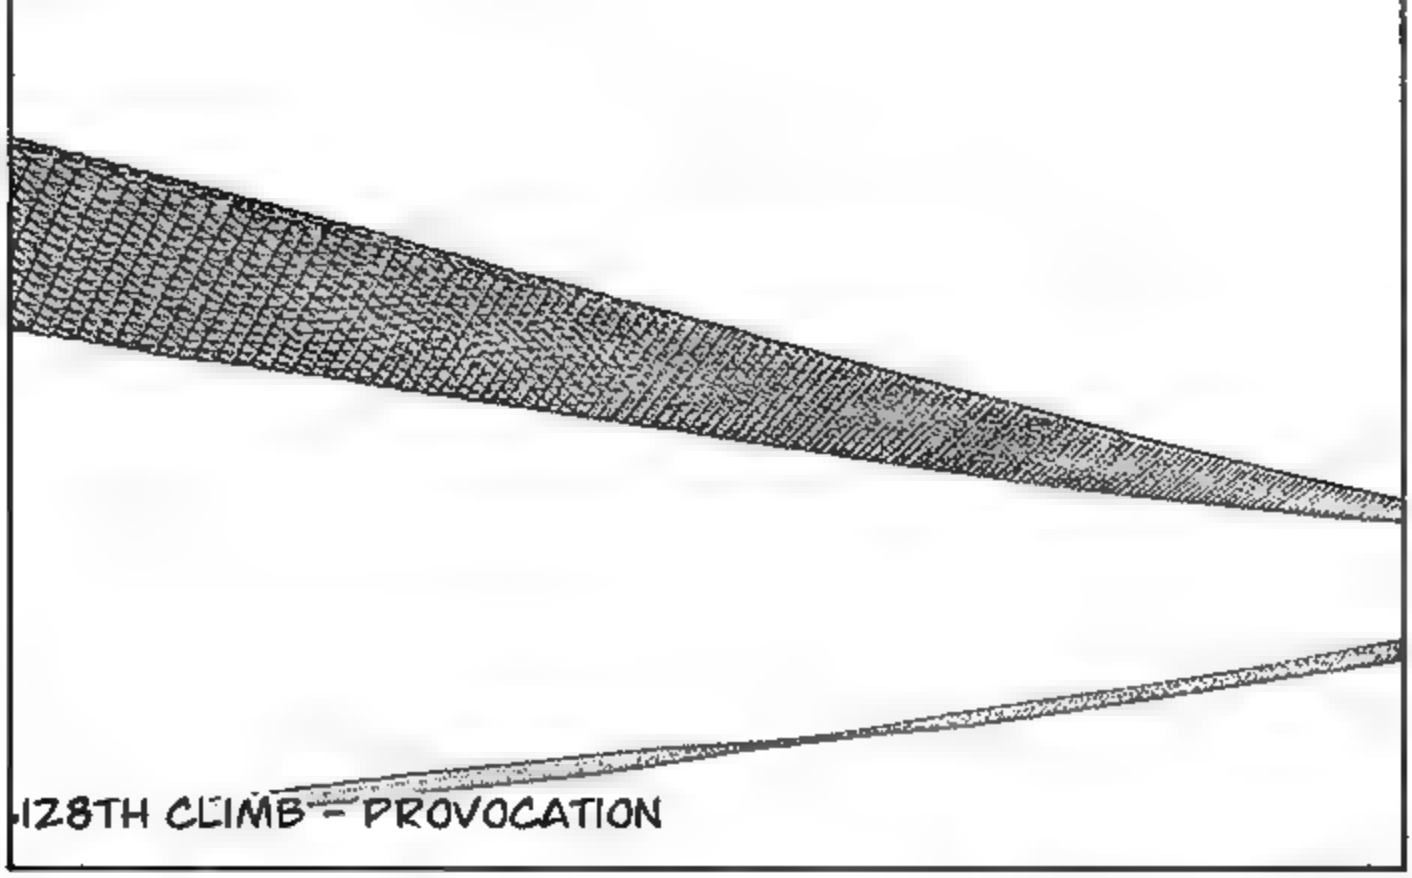
PLEASE!!!
KATOU-SAN!!!
AYUMU... MY SON. PLEASE GO WITH HIM AND TRY TO SAVE HIM...!!!
IF HE'S WITH SOME-ONE AS DISCRETE AS YOU, THEN I'M SURE HE WON'T GO OVERBOARD AND HE'LL COME BACK ALIVE!!!
I CAN'T.
!!!

I AM NOT ALONE ANYMORE.
THERE'S NOTH-ING I CAN DO TO SAVE HIM.

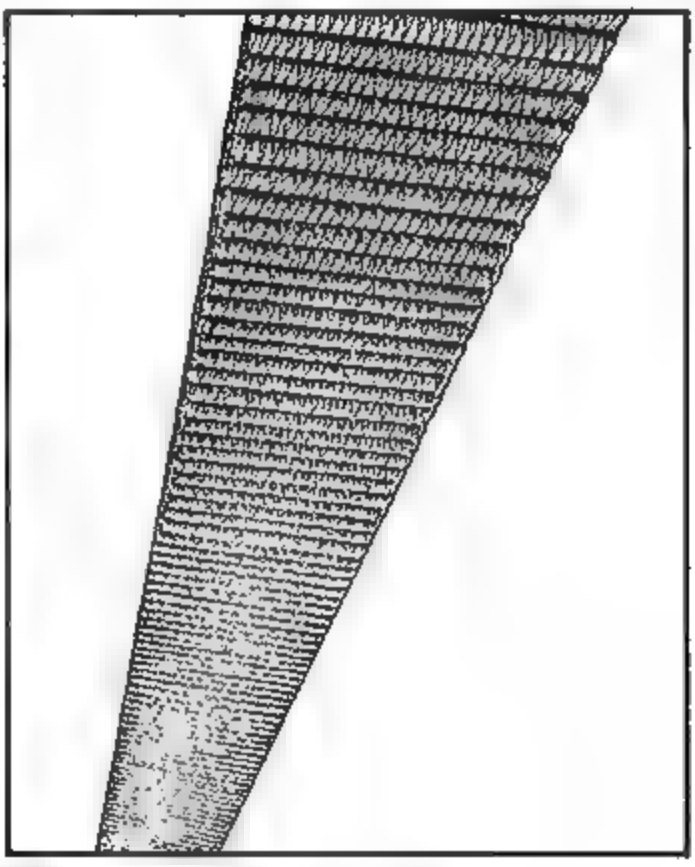
OMFGG*SCANS

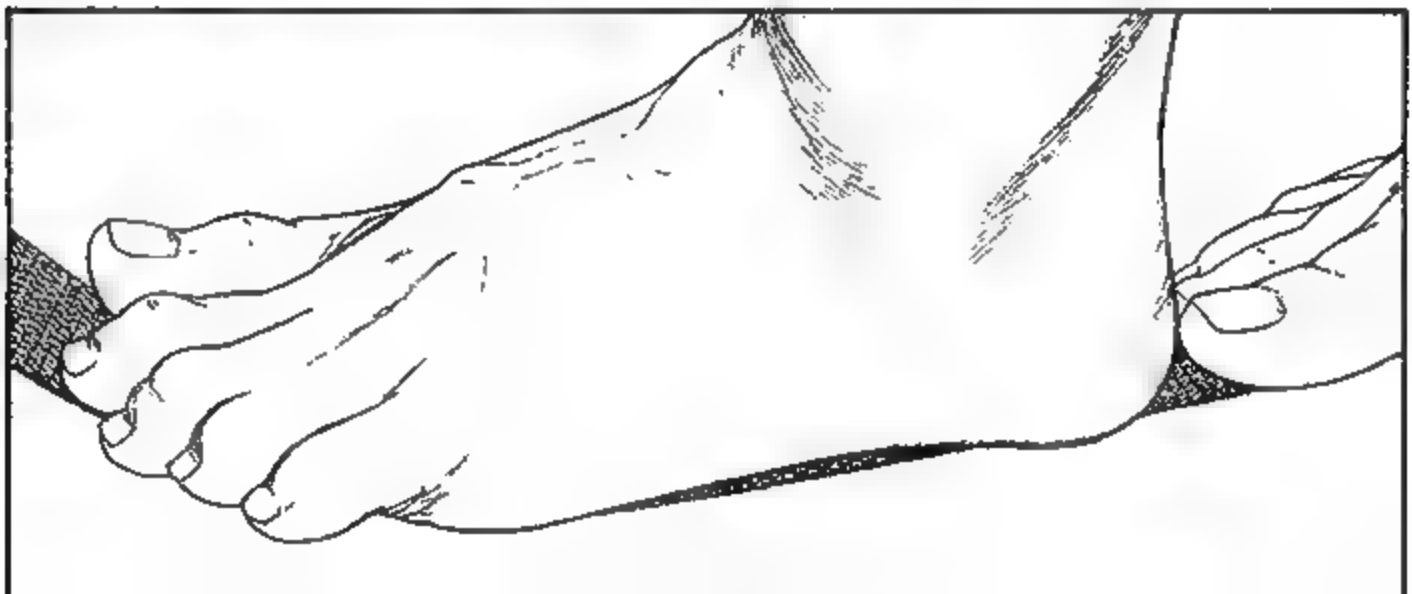
EDITOR: IIZRAYZ TRANS/RAW: KEWL0210 QC: IMATURDEL

omfggscans.com/#omfgg@irchighway.net

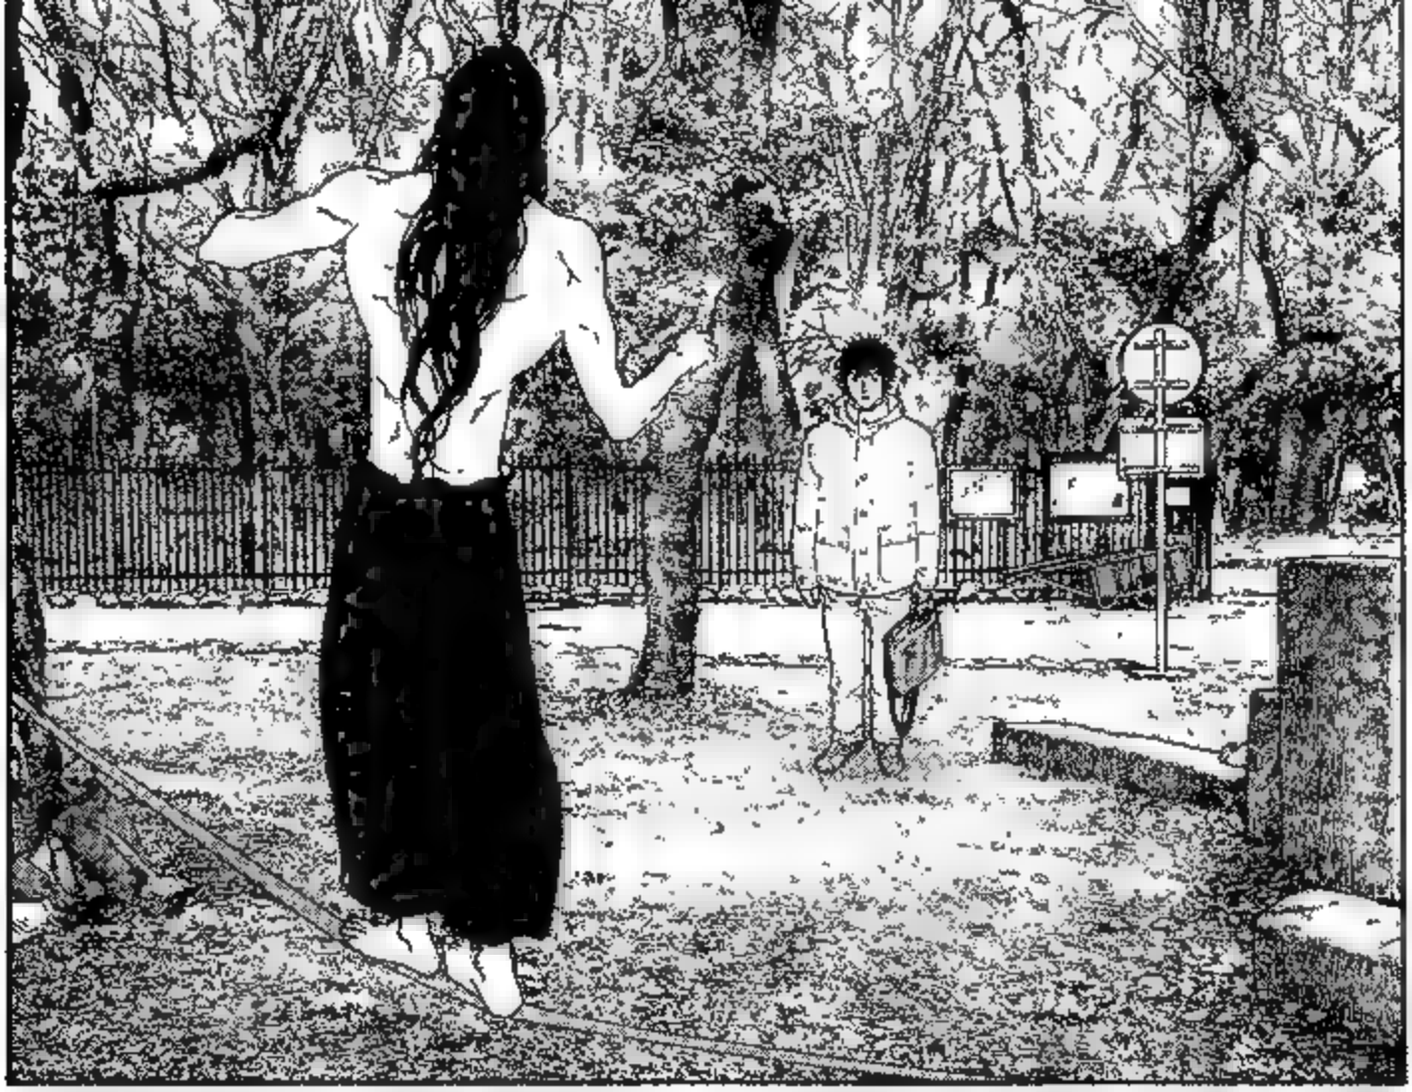


128TH CLIMB - PROVOCATION



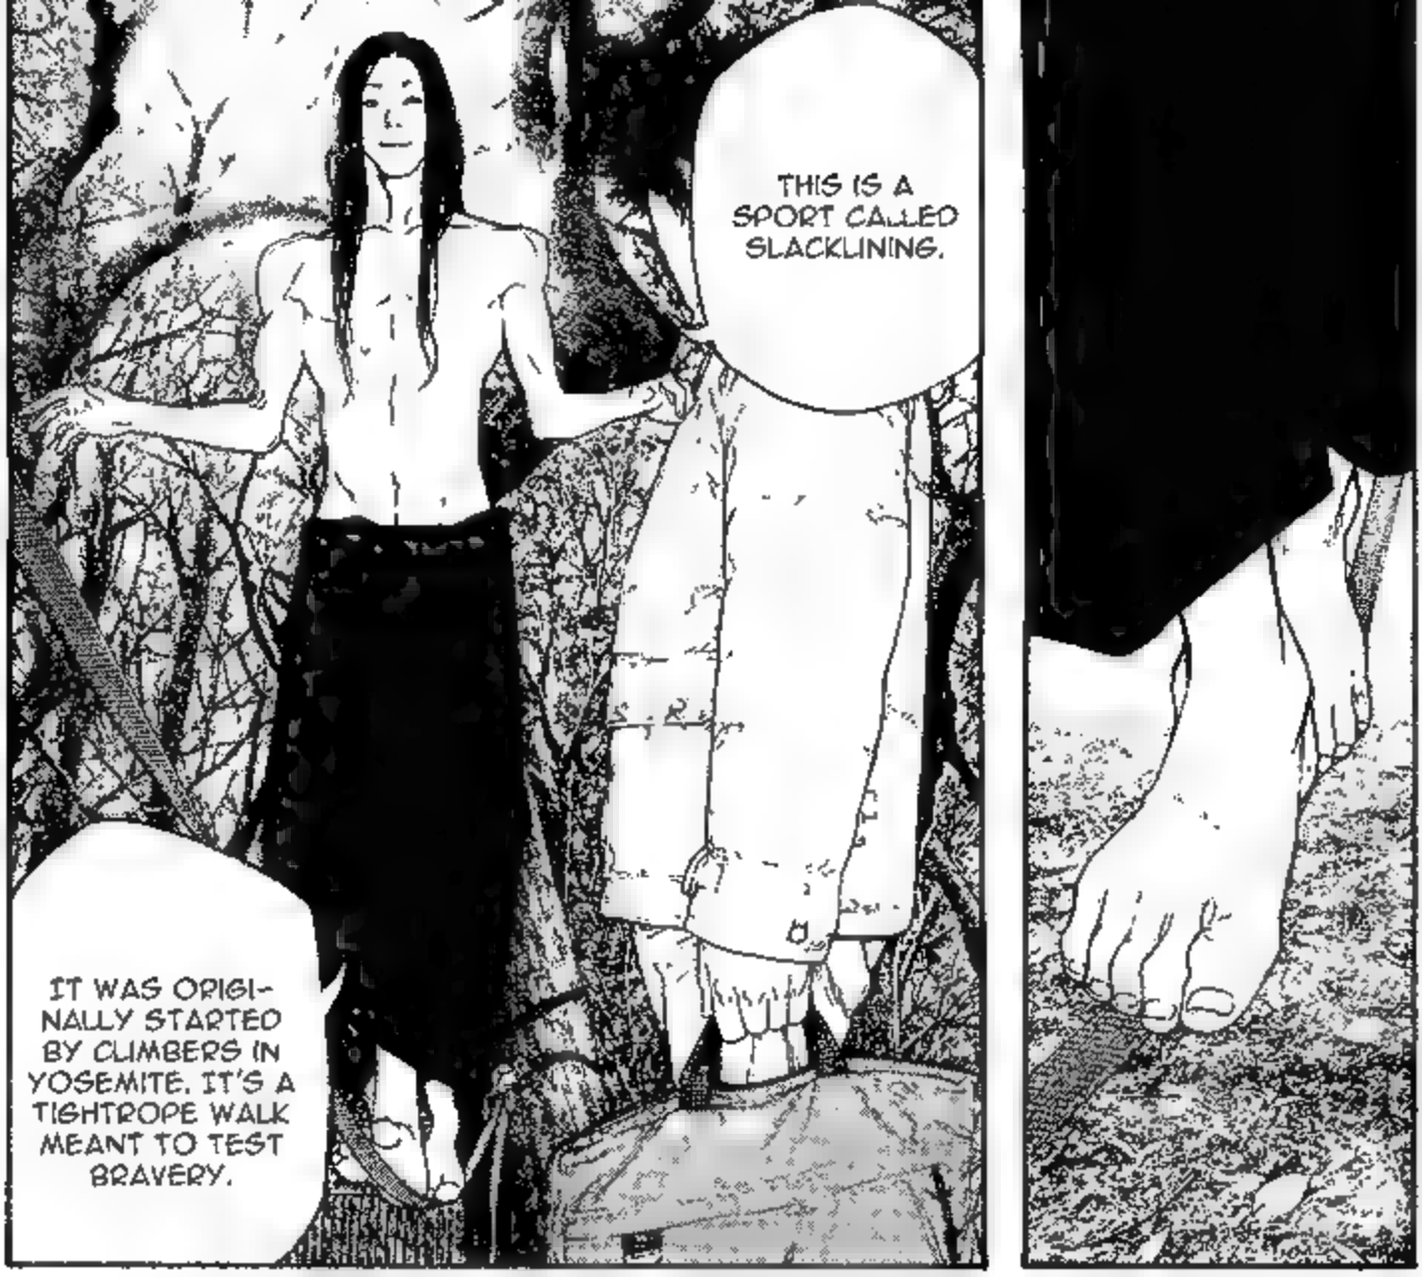


128TH CLIMB - PROVOCATION

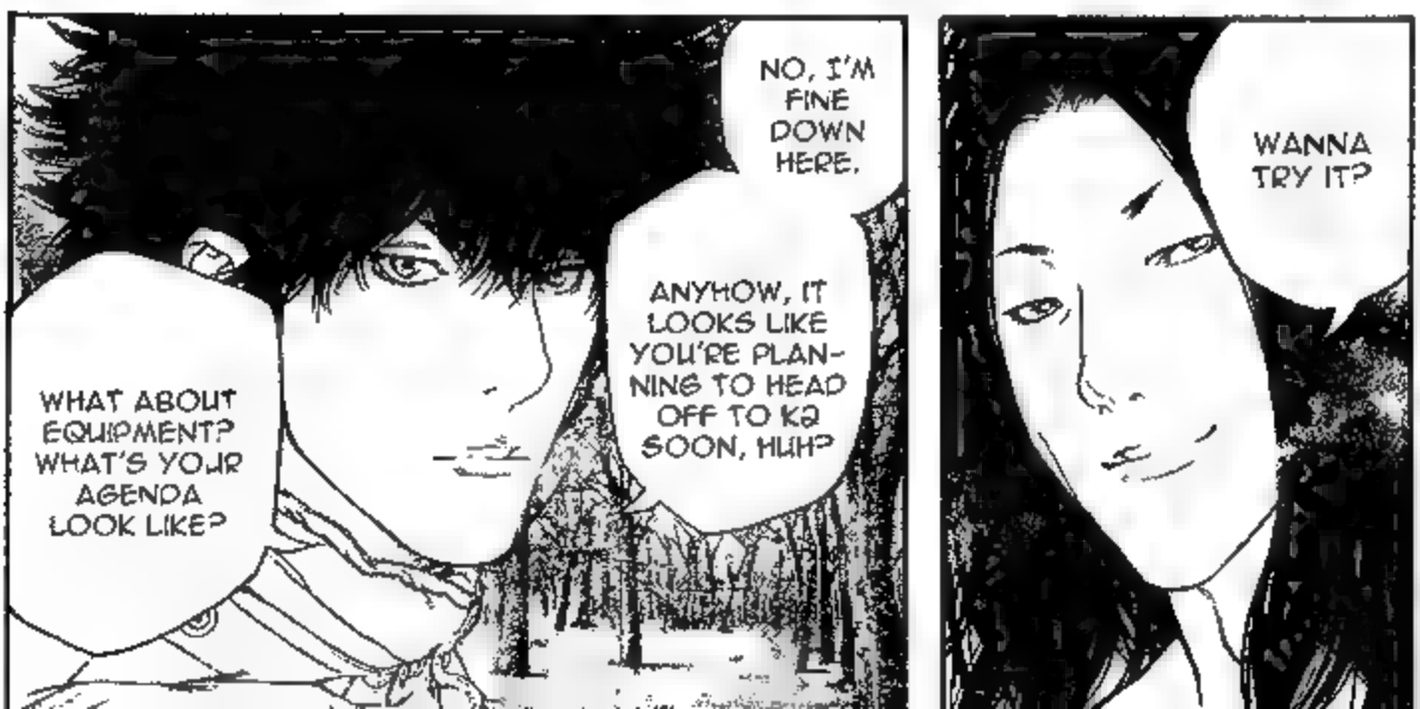


WELL I MUST SAY, I'M SURPRISED.
UM... BECAUSE MORI, NO, KATOU BUNTAROU-SAN, YOU HAVE A CELL PHONE.

A MEMBER OF SOCIETY NOW, AREN'T YOU?
.YOUR DAD WAS WORRIED ABOUT YOU.
IS IT TRUE YOU HAVEN'T BEEN HELPING OUT AT THE SHOP
HAVE YOU BEEN PLAYING AROUND DOING STUFF LIKE THIS EVERY DAY?



THIS IS A SPORT CALLED SLACKLINING.
IT WAS ORIGINALLY STARTED BY CLIMBERS IN YOSEMITE. IT'S A TIGHTROPE WALK MEANT TO TEST BRAVERY.



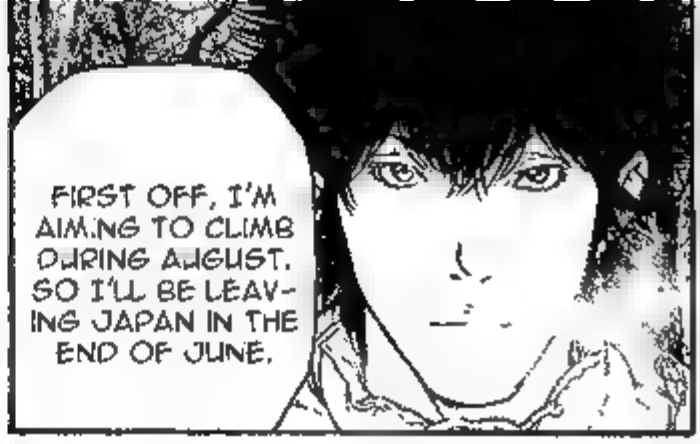
NO, I'M FINE DOWN HERE.
ANYHOW, IT LOOKS LIKE YOU'RE PLANNING TO HEAD OFF TO K2 SOON, HUH?
WHAT ABOUT EQUIPMENT? WHAT'S YOUR AGENDA LOOK LIKE?
WANNA TRY IT?

THERE ARE FREQUENT AVALANCHES ON THE RIDGE ON THE K2 EAST-FACE.
IN ORDER TO LOWER RISK, SPEED IS ESSENTIAL.

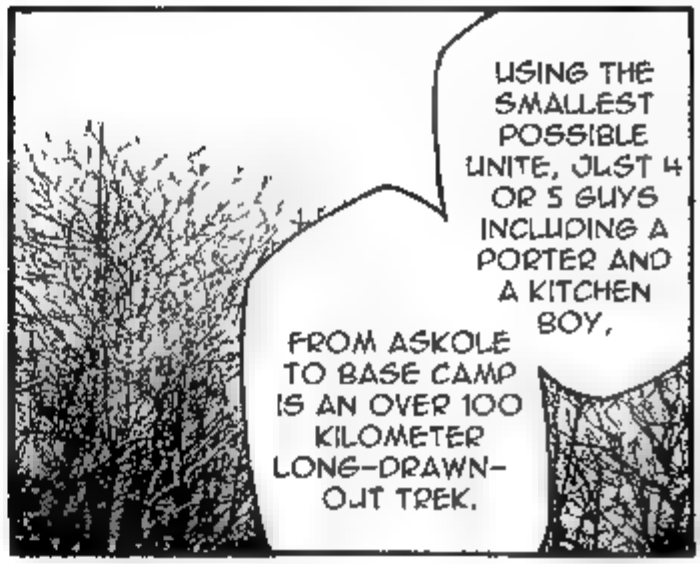
HEAVY EQUIPMENT IS JUST WASTE OF STAMINA...
A GIANT STEEP ICE WALL NEAR THE PEAK...
MAKING DEEP PATHS IN THE SNOW FIELDS OF THE UPPER SECTION.

IS THE ULTIMATE LIGHT AND FAST.
THE STRATEGY I FIND IDEAL

TWO WEEKS FROM ARRIVING AT BASE CAMP, I'LL MAKE ONE LONG BURST ALL THE WAY TO THE PEAK!!



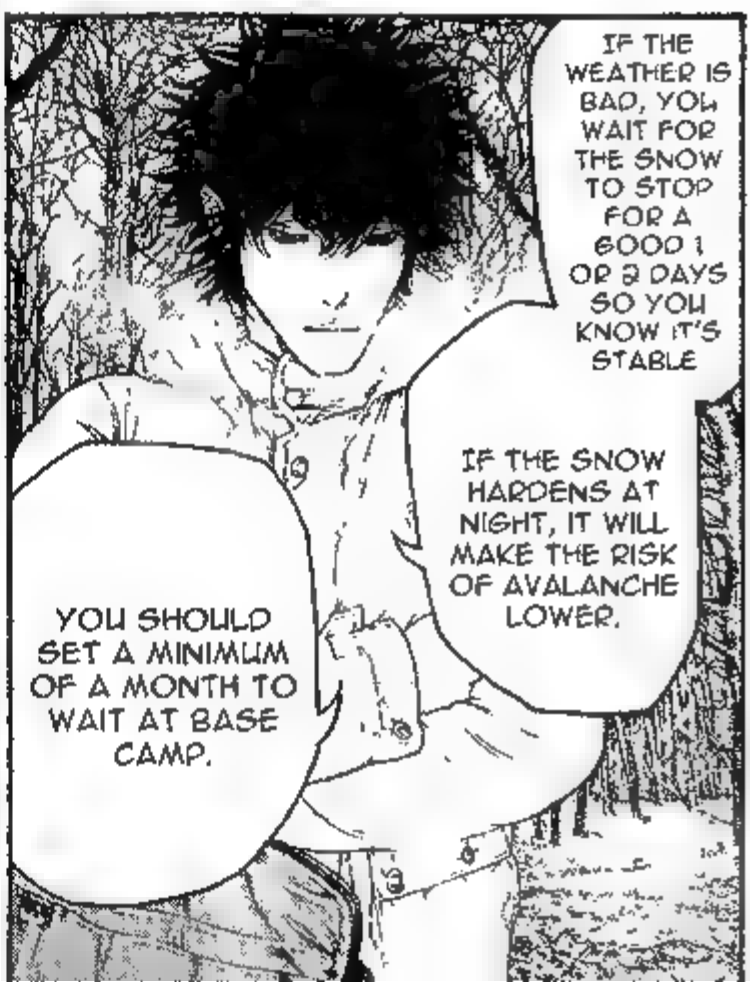
FIRST OFF, I'M AIMING TO CLIMB DURING AUGUST. SO I'LL BE LEAVING JAPAN IN THE END OF JUNE.



USING THE SMALLEST POSSIBLE UNITE, JUST 4 OR 5 GUYS INCLUDING A PORTER AND A KITCHEN BOY,
FROM ASKOLE TO BASE CAMP IS AN OVER 100 KILOMETER LONG-DRAWN-OUT TREK.

OF COURSE, THAT'S ONLY IF IT'S POSSIBLE BASED ON WEATHER CONDITIONS.

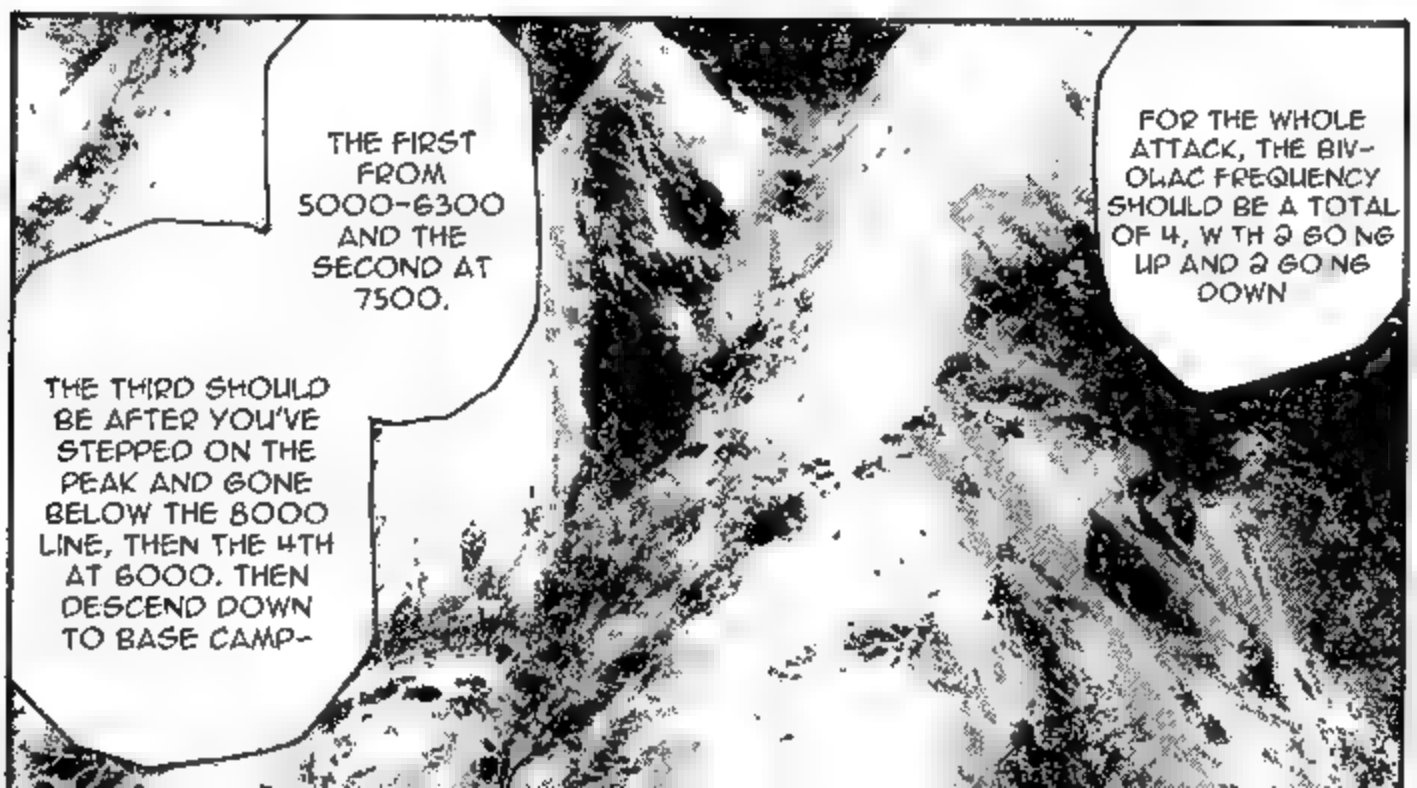
WITH MY STAMINA IN THE CONDITION IT'S AT NOW, A BIVOUAC AT 7000 METERS WILL BE PLENTY
I'LL SHOW THAT I CAN CONQUER TO THE SUMMIT IN ONE BURST!



IF THE WEATHER IS BAD, YOU WAIT FOR THE SNOW TO STOP FOR A GOOD 1 OR 2 DAYS SO YOU KNOW IT'S STABLE
IF THE SNOW HARDENS AT NIGHT, IT WILL MAKE THE RISK OF AVALANCHE LOWER.
YOU SHOULD SET A MINIMUM OF A MONTH TO WAIT AT BASE CAMP.

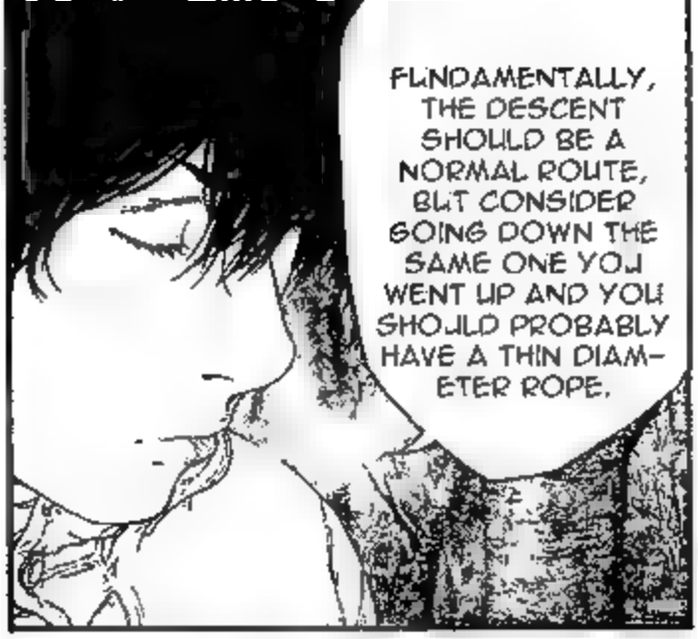
AND YOU'LL BE IN 8500M UNTRODDEN TERRITORY.
YOU NEED TO ACCLIMATE WITH THE ALTITUDE, TOO. YOU'LL NEED TO MAKE ROOM FOR THAT AS WELL.
TAKE-MURA...
NATURE DOES NOT MOVE ACCORDING TO HOW YOU THINK IT WILL.

IN ORDER TO STAVE OFF STAMINA DEPLE-TION AT 7000M, YOU NEED TO MAKE AN AREA TO ACCLIMATE TO THE ELEVATION.
AS YOU ASCERTAIN THE WEATHER AT THE 6500~7000M LEVEL, YOU ALSO NEED TO USE THAT TIME TO SCOUT OUT YOUR ROUTE.



THE FIRST FROM 5000-6300 AND THE SECOND AT 7500.
FOR THE WHOLE ATTACK, THE BIV-OUAC FREQUENCY SHOULD BE A TOTAL OF 4, WITH 2 GOING UP AND 2 GOING DOWN
THE THIRD SHOULD BE AFTER YOU'VE STEPPED ON THE PEAK AND GONE BELOW THE 8000 LINE, THEN THE 4TH AT 6000. THEN DESCEND DOWN TO BASE CAMP-

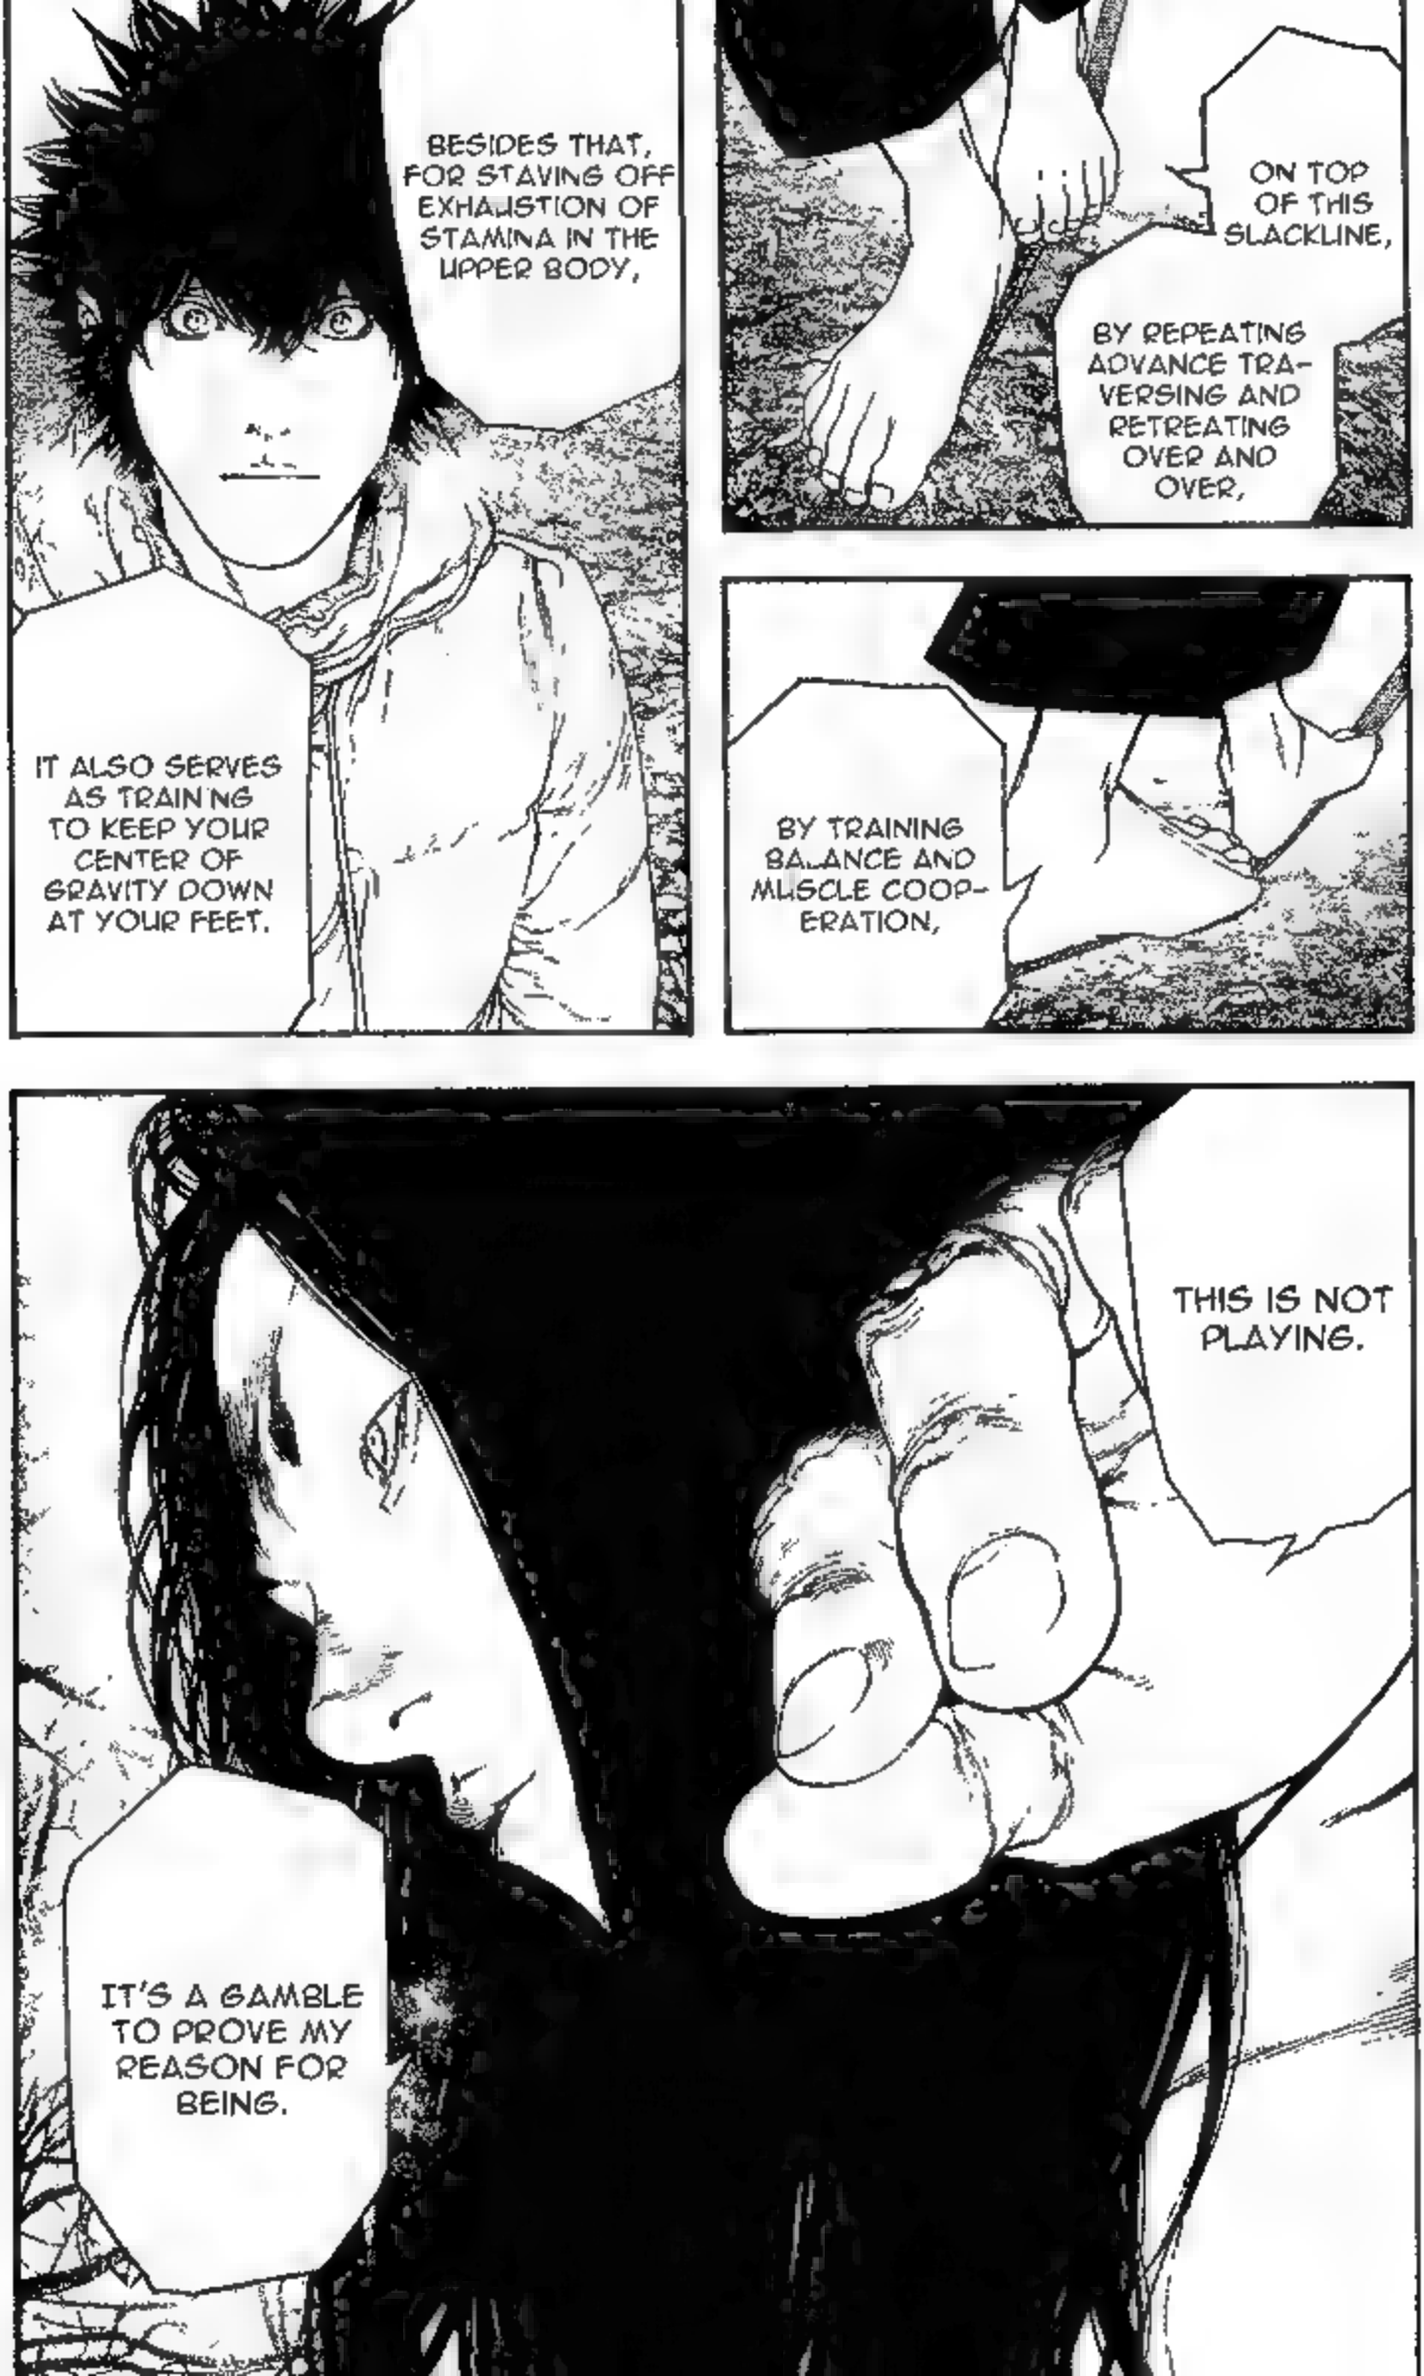
ALSO A THREAD HOOK...
IN CASE OF AN EMERGENCY DESCENT, THE CLIMBING TOOLS YOU'LL NEED WILL BE ONE 50M LONG 6MM DIAMETER ROPE, THREE SCREWS, THREE HOOKS, THREE CAMS, AND THREE SLINGS.



FUNDAMENTALLY, THE DESCENT SHOULD BE A NORMAL ROUTE, BUT CONSIDER GOING DOWN THE SAME ONE YOU WENT UP AND YOU SHOULD PROBABLY HAVE A THIN DIAMETER ROPE.

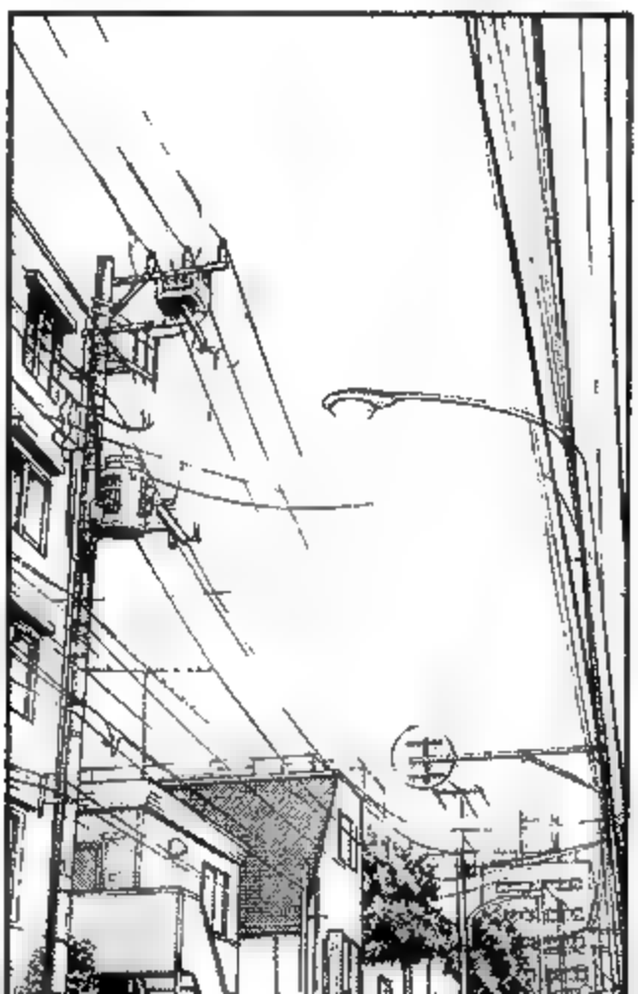
GETTING YOURSELF BACK ALIVE TO WHERE THERE ARE OTHER PEOPLE ARE IS WHAT'S IMPORTANT.
RATHER THAN JUST RUSH IN RECKLESSLY TO CLAIM THE PEAK,

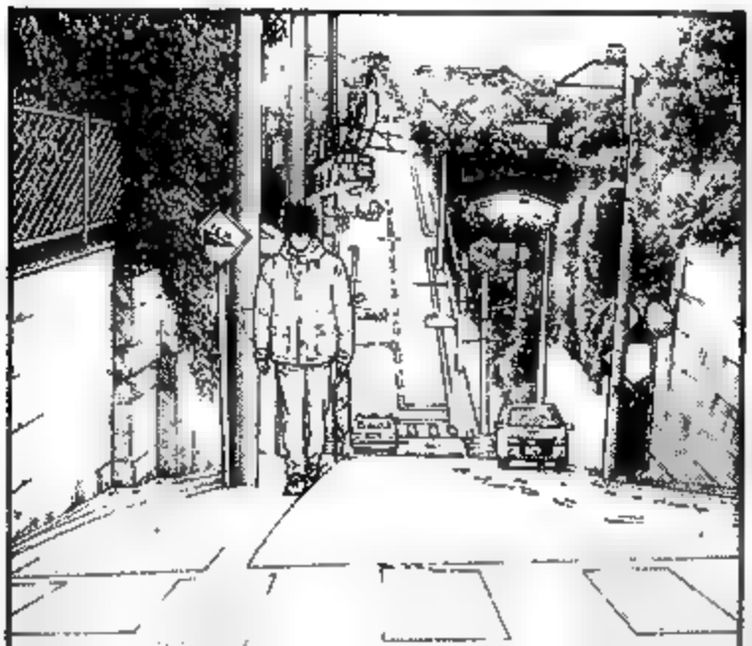
!?
IF YOU DON'T SET FOOT ON THE PEAK, THEN JUST WHAT IS MOUNTAIN CLIMBING?
THIS IS A STEEP KNIFE RIDGE SO NARROW THAT YOU CAN'T EVEN RELIABLY FIND A PLACE TO SET YOUR FEET.
IF YOU MAKE ONE FALSE STEP, YOU'LL TUMBLE DOWN 1000 METERS

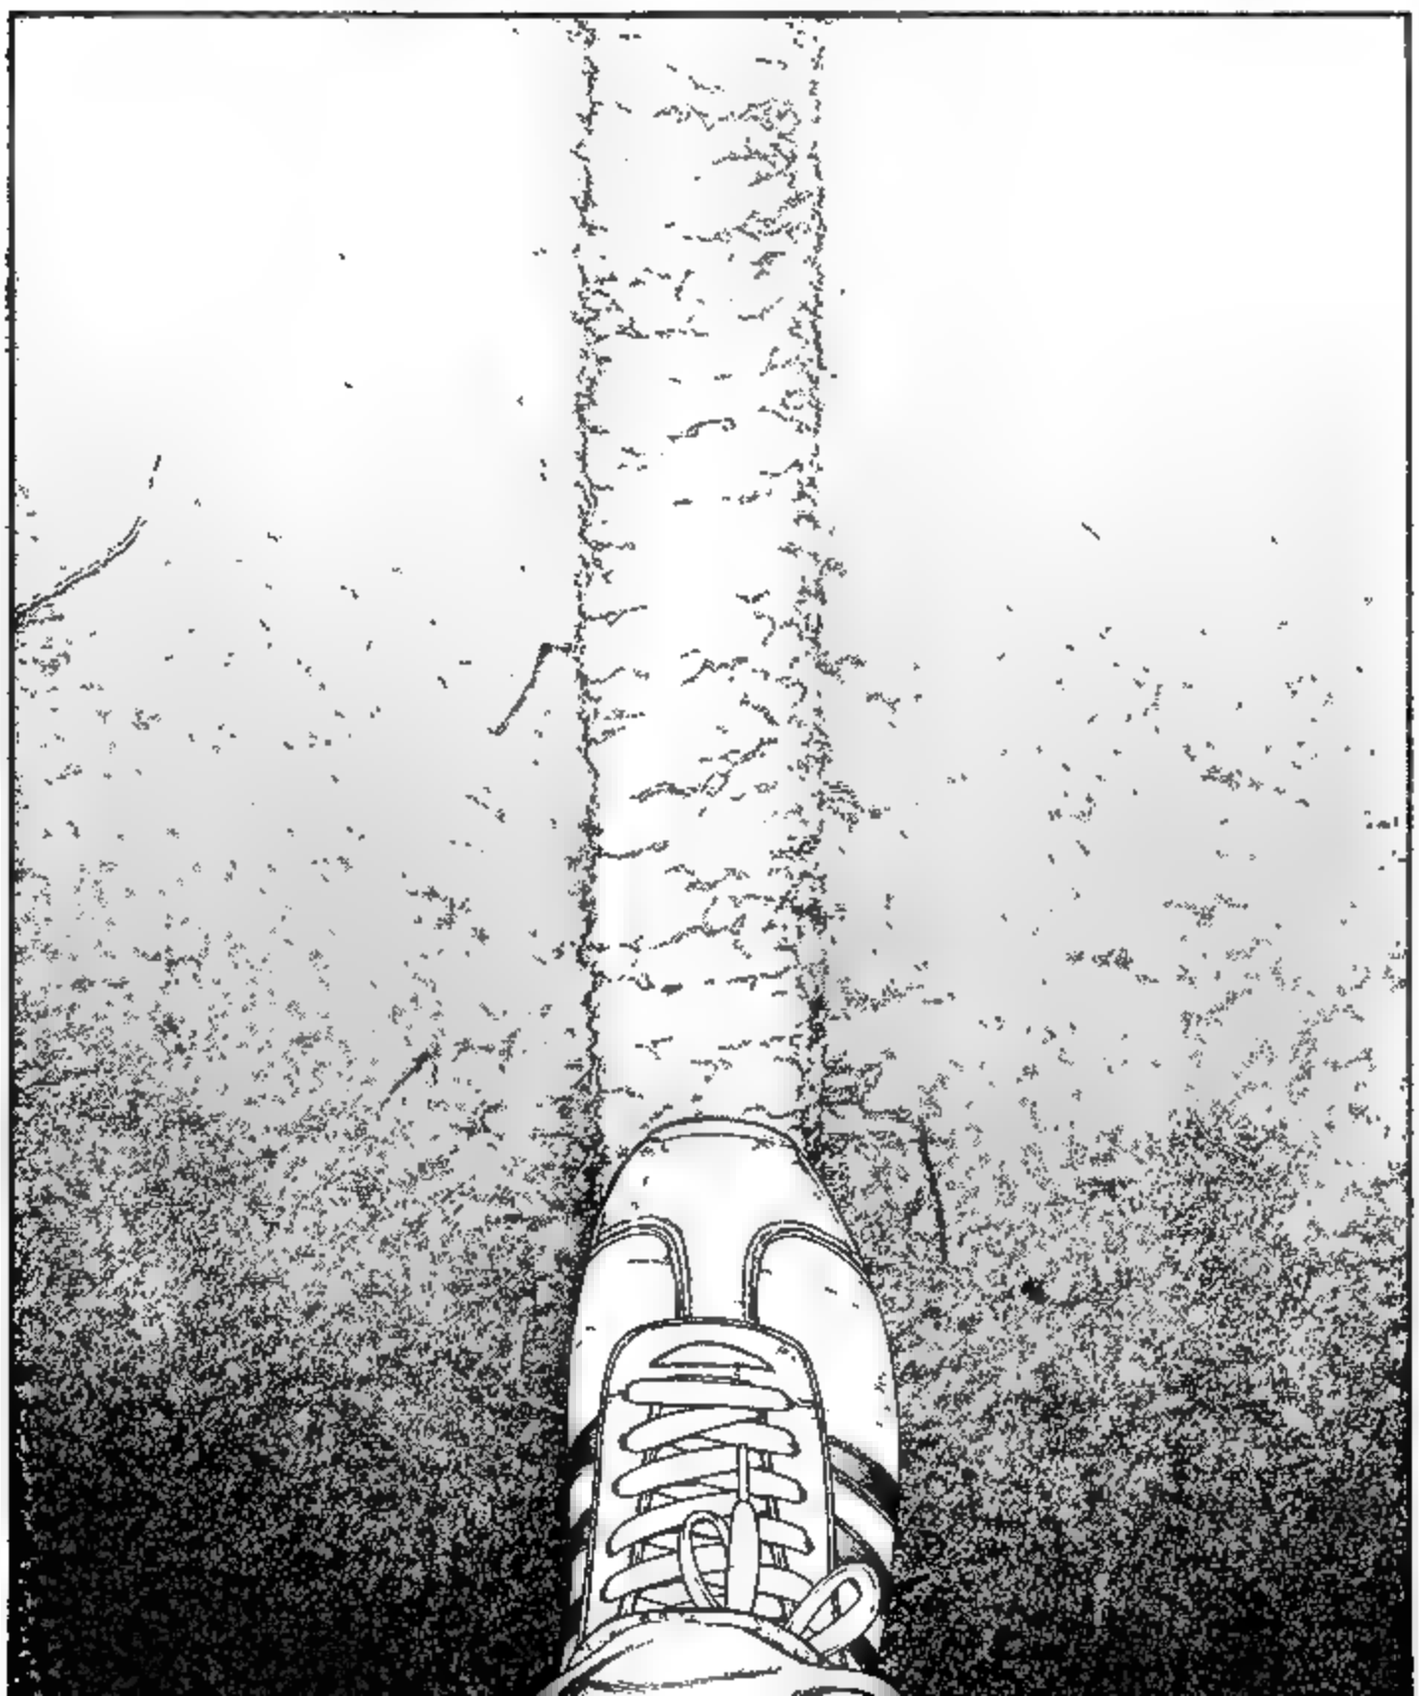


BESIDES THAT, FOR STAVING OFF EXHAUSTION OF STAMINA IN THE UPPER BODY,
IT ALSO SERVES AS TRAINING TO KEEP YOUR CENTER OF GRAVITY DOWN AT YOUR FEET.
ON TOP OF THIS SLACKLINE,
BY REPEATING ADVANCE TRAVERSING AND RETREATING OVER AND OVER,
BY TRAINING BALANCE AND MUSCLE COOPERATION,
THIS IS NOT PLAYING.
IT'S A GAMBLE TO PROVE MY REASON FOR BEING.

IN OTHER WORDS, "SOLO CLIMB KATOU BUN-TAROU"
IS GONE AND DONE WITH.
INCLUDING THIS PAST YEAR WHERE YOU'VE BEEN INFATUATED WITH YOUR FAMILY,
I'VE BEEN PROGRESS-ING IN CLIMB-ING TECH-NIQUES AND TRAINING METHODS EVERY DAY.







OMFGG*SCANS

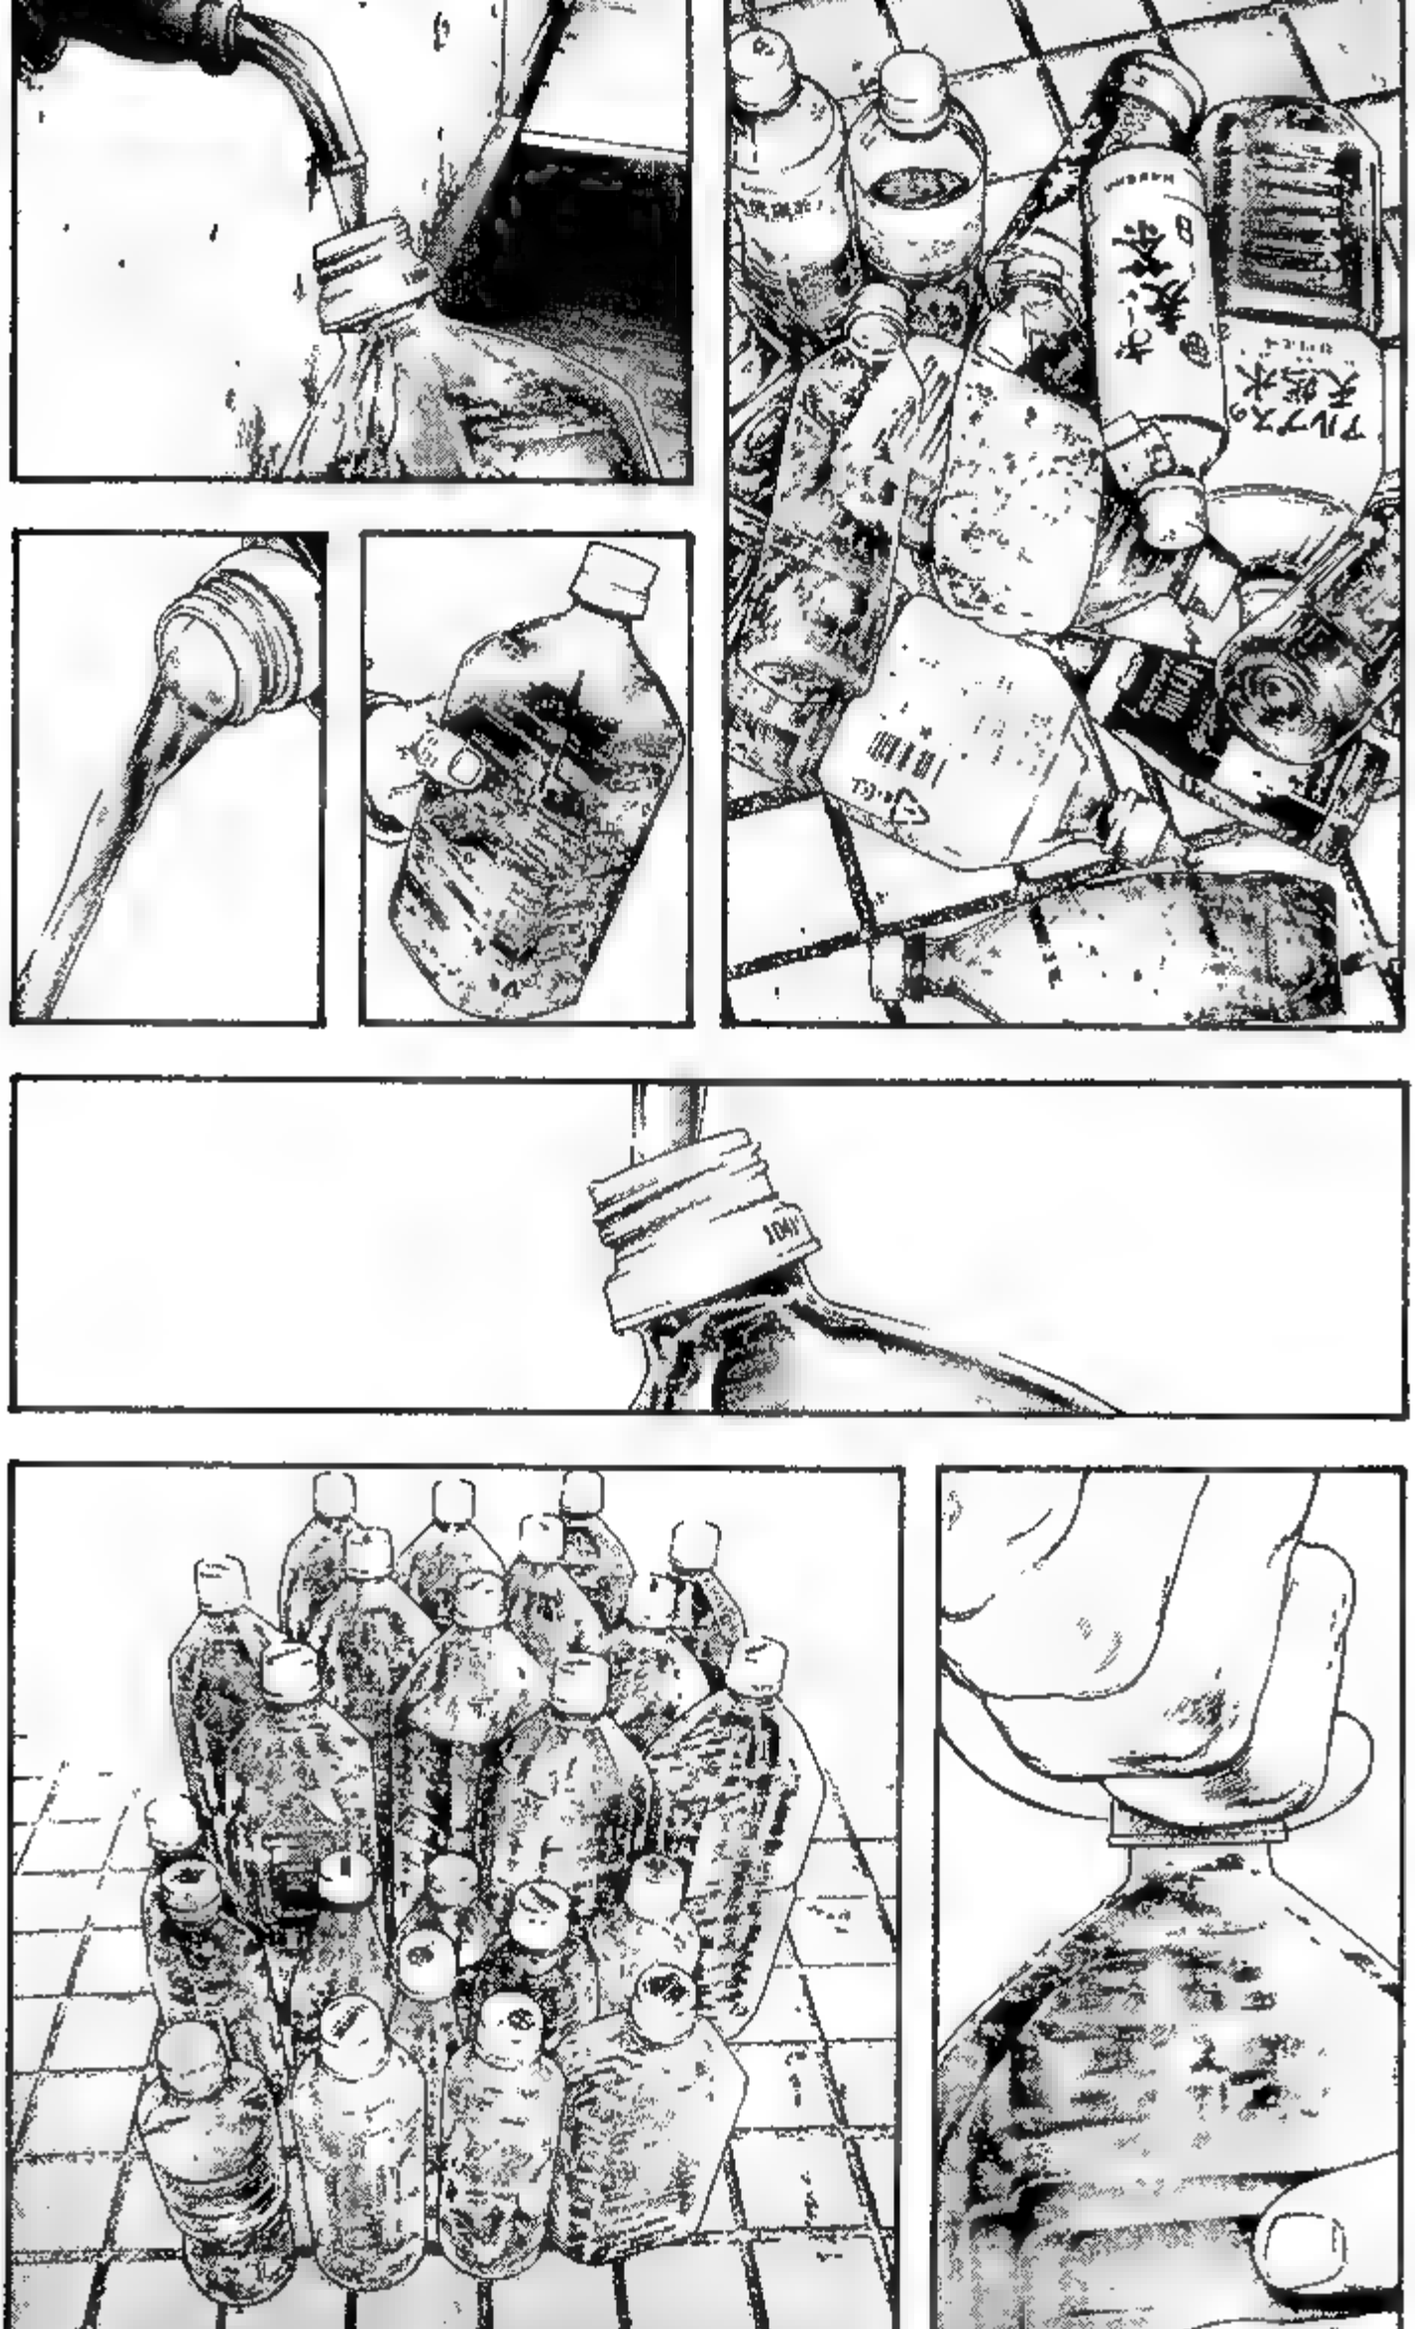
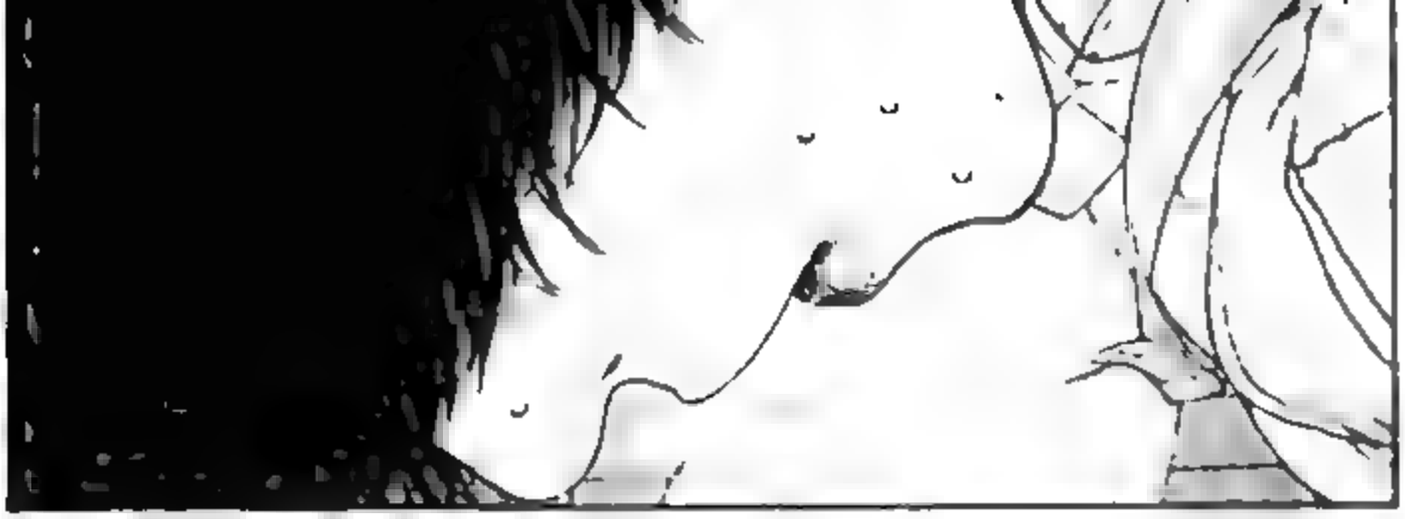
SAVE THE EARTH
SAVE THE EARTH





WH... WHAT'S GOING ON!?
COMING HOME WEARING A RUCKSACK LIKE THAT...?
I'M BACK...
WELCOME BACK.
EH?
I GAINED A LITTLE WEIGHT OVER NEW YEARS, SO I'M DIETING...
AND IT DOESN'T FEEL LIKE ENOUGH JUST WALKING NORMAL...

MY FRIEND?
DID. SOME-ONE COME?
YES, TO CELEBRATE ROKKA.
HE SAID HE'S YOUR FRIEND, BUN-CHAN.
SHE SURE IS LIGHT.

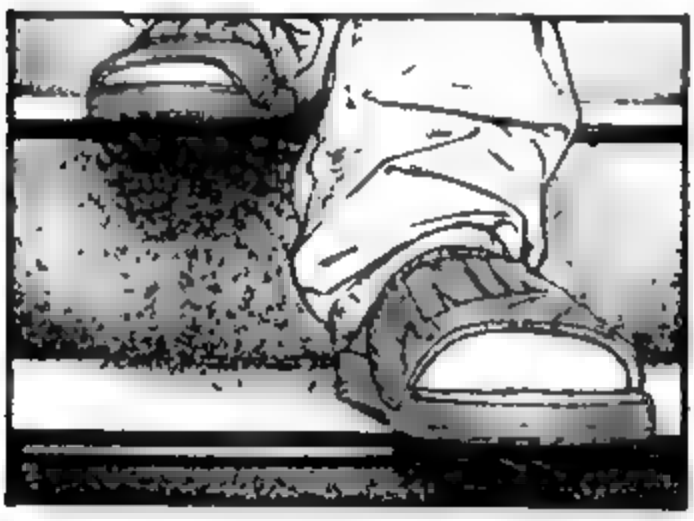
AH .. SENPAI.

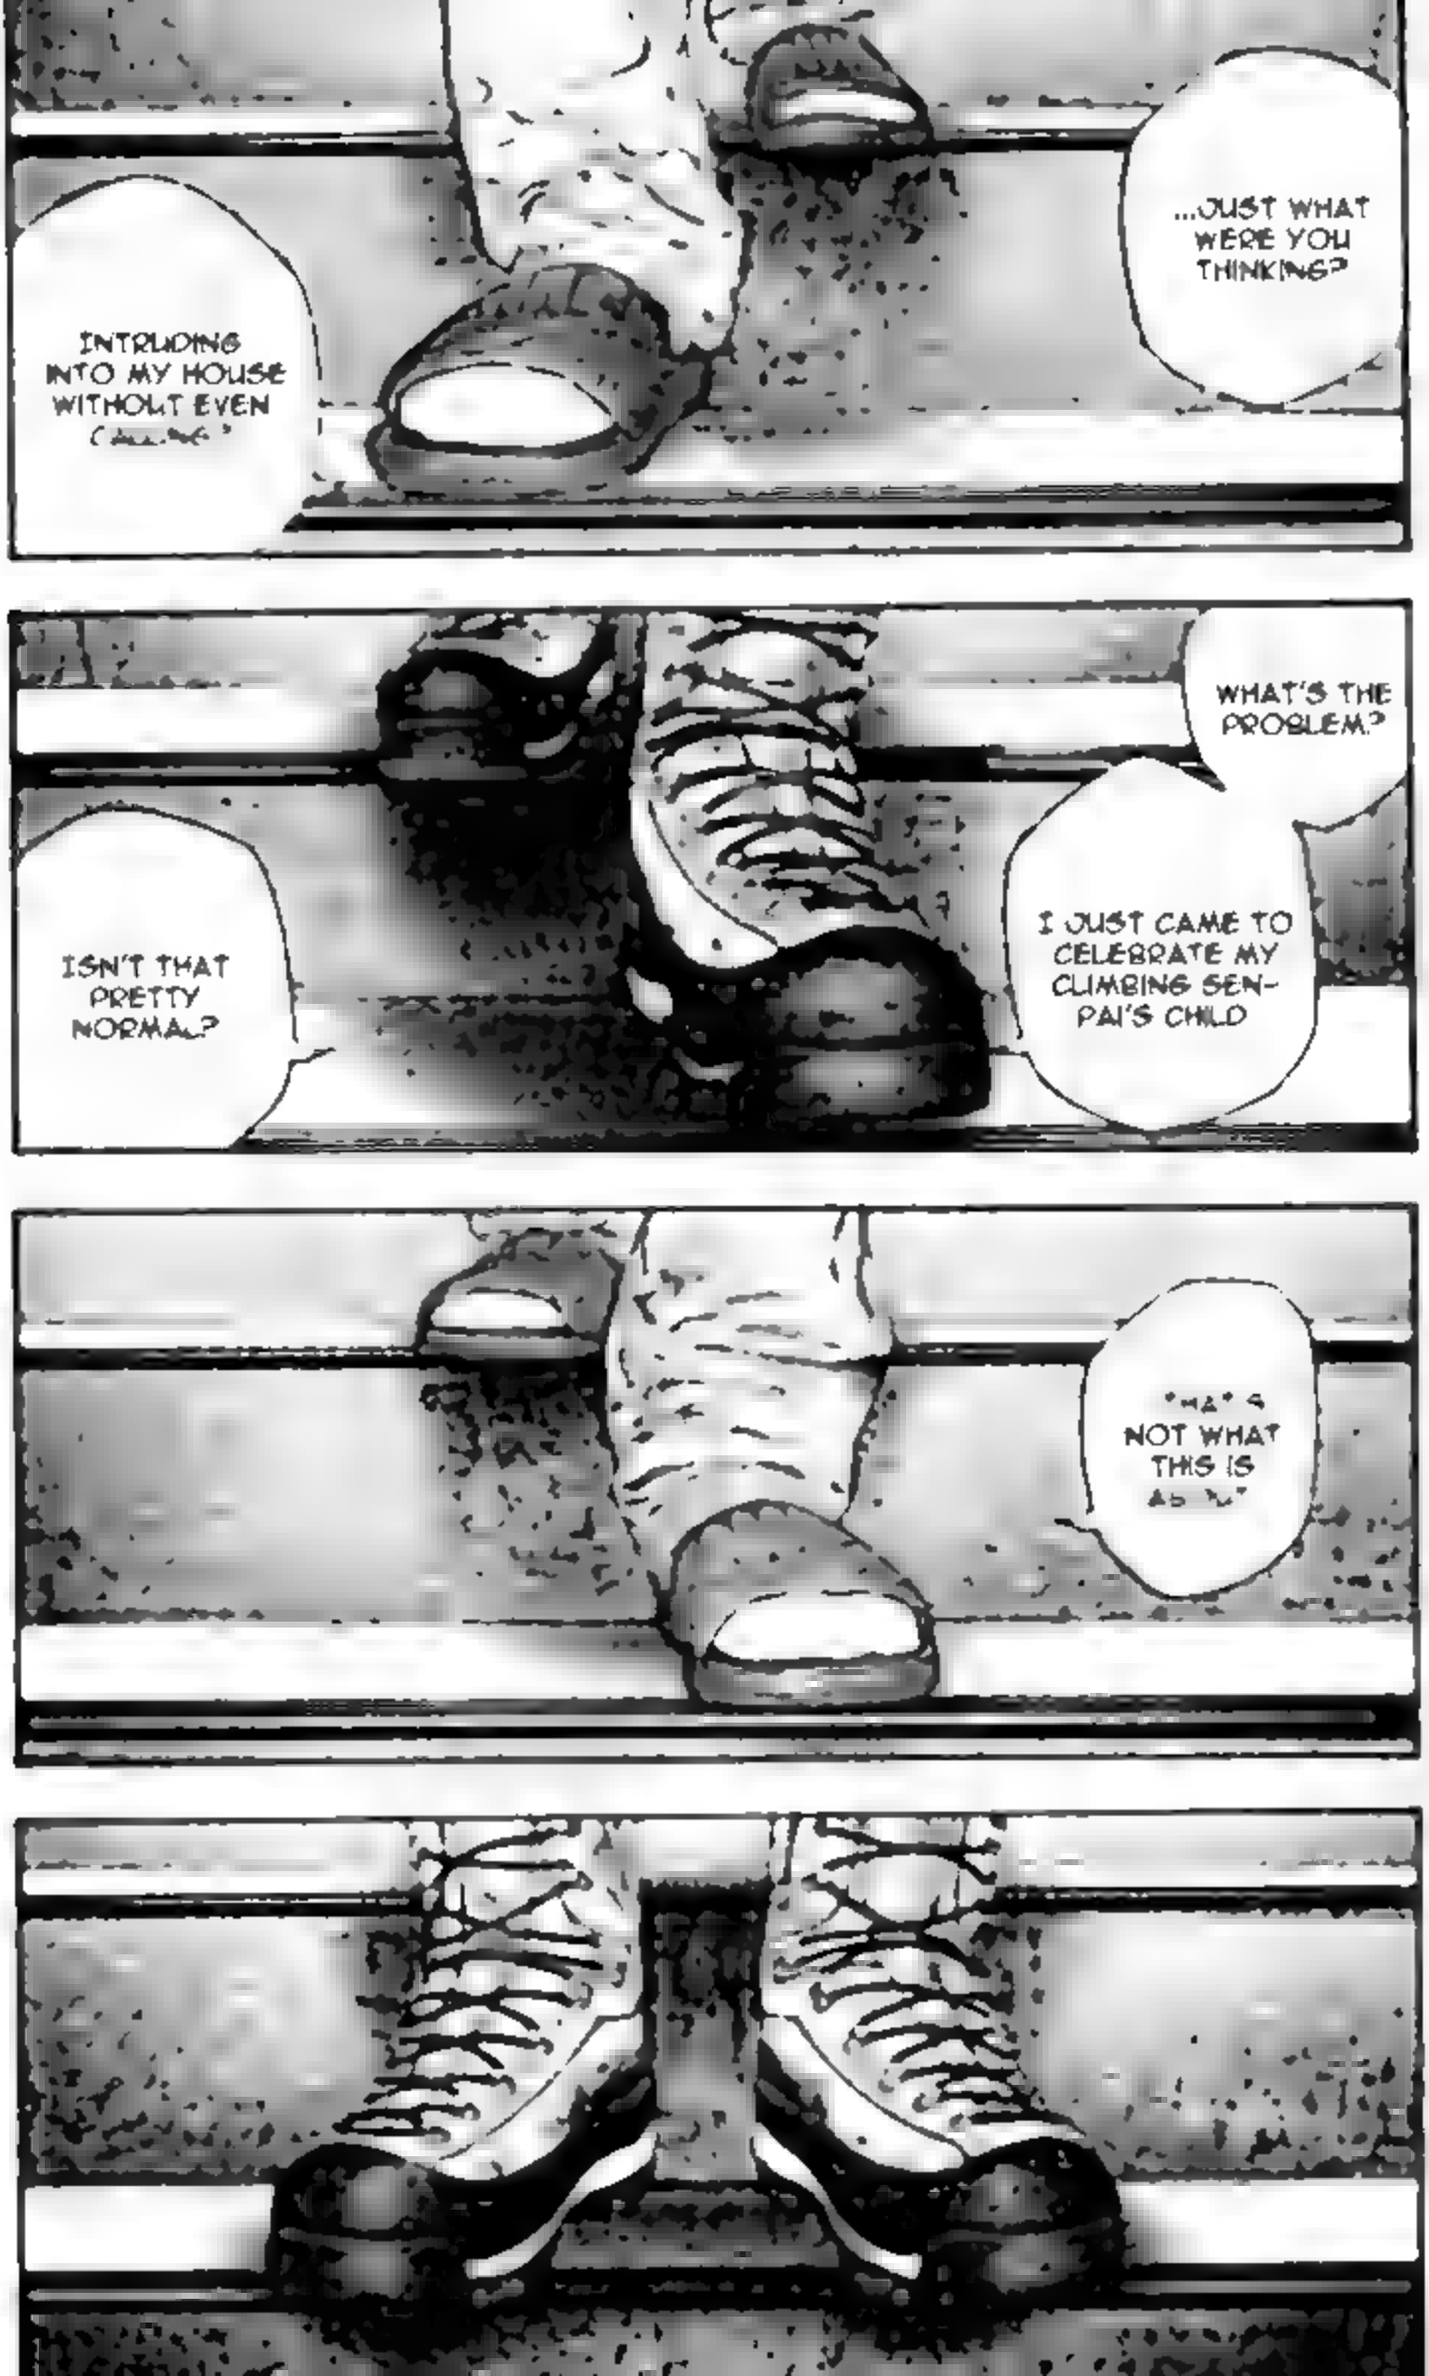
GOING AL-READY?
I DON'T WANT TO STAY OVER LONG AND TROUBLE YOU,
SO I'LL BE TAKING ME LEAVE.

SO LONG M'AM, SORRY FOR THE INTRUS ON

COME BACK ANY TIME

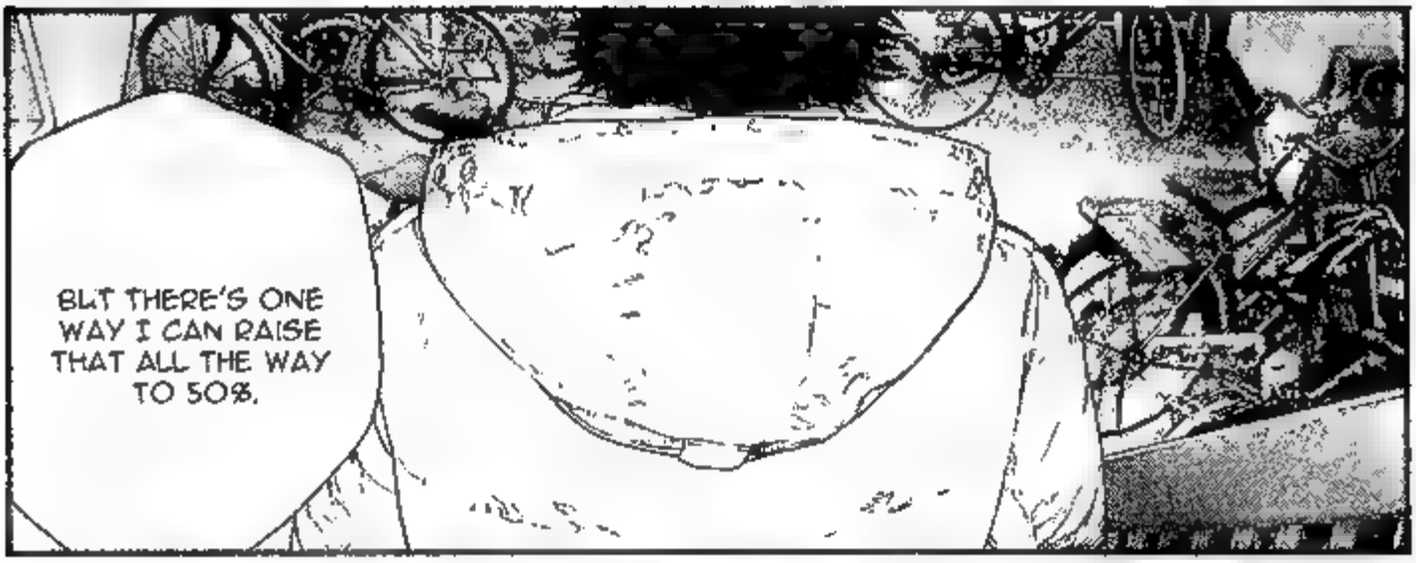
I'M JUST GOING TO GO SEE HIM DOWN.





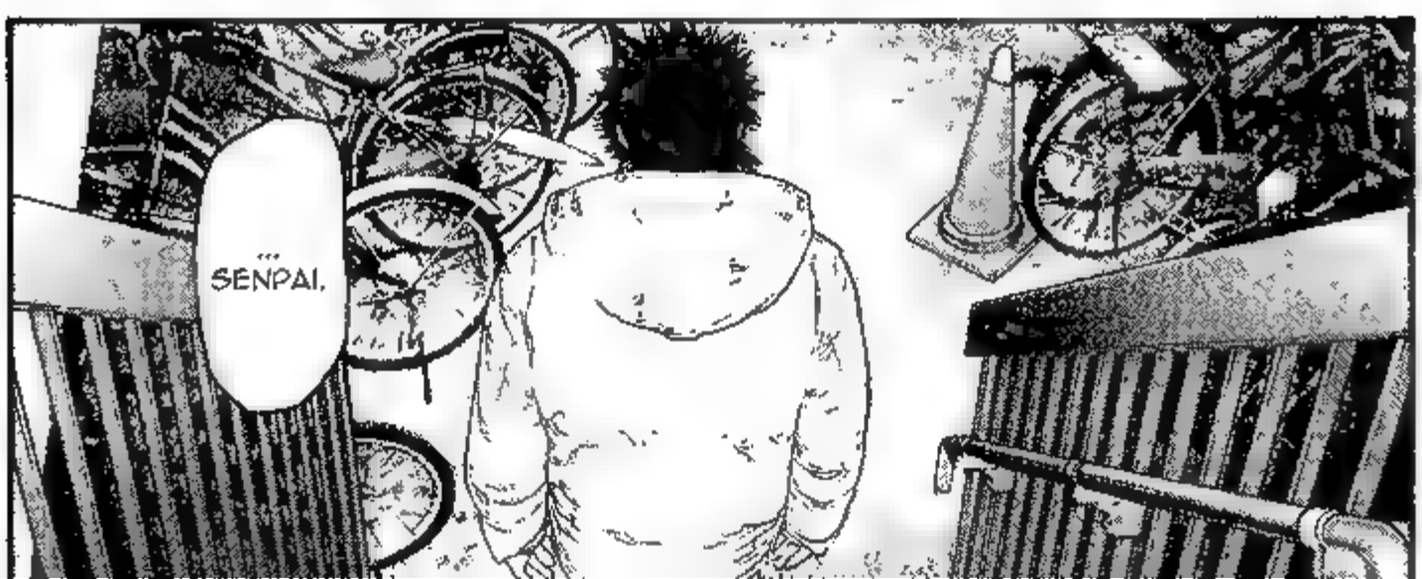
INTRUDING INTO MY HOUSE WITHOUT EVEN
...JUST WHAT WERE YOU THINKING?
ISN'T THAT PRETTY NORMAL?
I JUST CAME TO CELEBRATE MY CLIMBING SEN-PAI'S CHILD
WHAT'S THE PROBLEM?
NOT WHAT THIS IS

...I WAS THINKING SINCE THEN.
FOR A SOLO CLIMB OF K2, YOUR TACTICS CERTAINLY MAKE SENSE, SENPAI.
WITH MY METHODS THE SUCCESS RATE WOULD PROBABLY ONLY BE AROUND 20~30%.



BUT THERE'S ONE WAY I CAN RAISE THAT ALL THE WAY TO 50%.

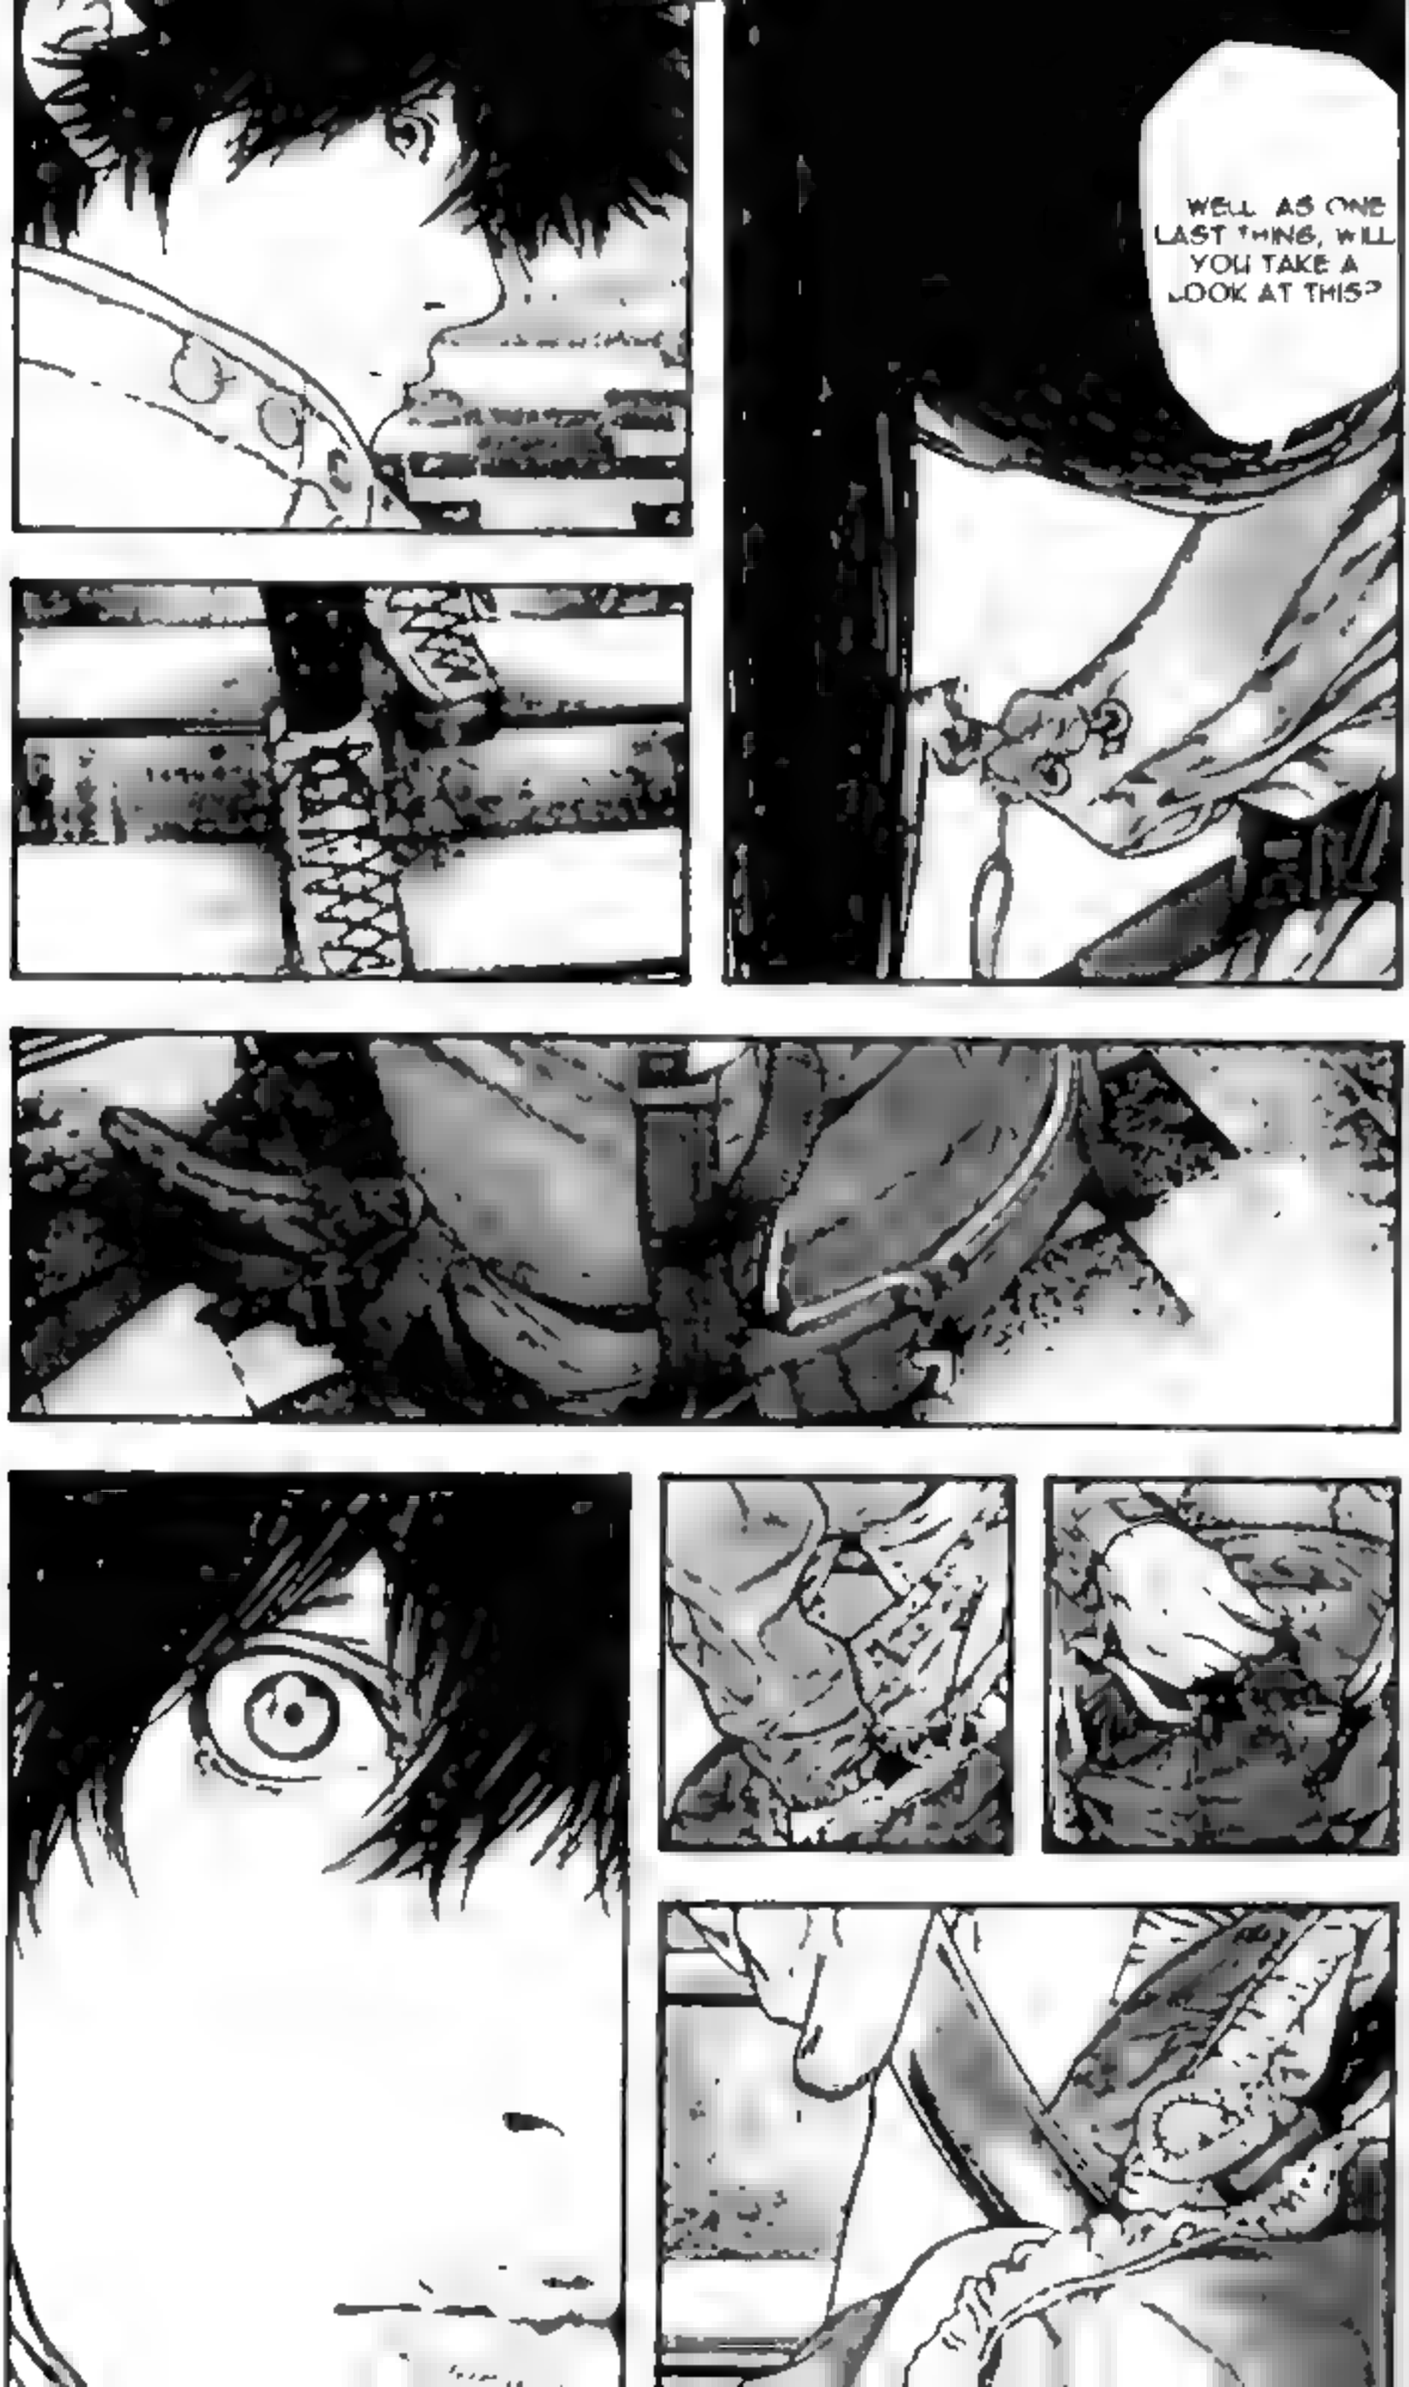
AND THAT WAY IS UN-SUITABLE TO GOING SOLO.
FOR THE LARGE AMOUNT OF STAMINA NEEDED TO CLEAR THE VERY LONG CONTINUING A SNOW PATH ON THE K2 EAST-FACE,
AND TO HAVE ENOUGH TO MAKE A V-THREAD DURING THE DANGEROUS CLIMB DOWN-...



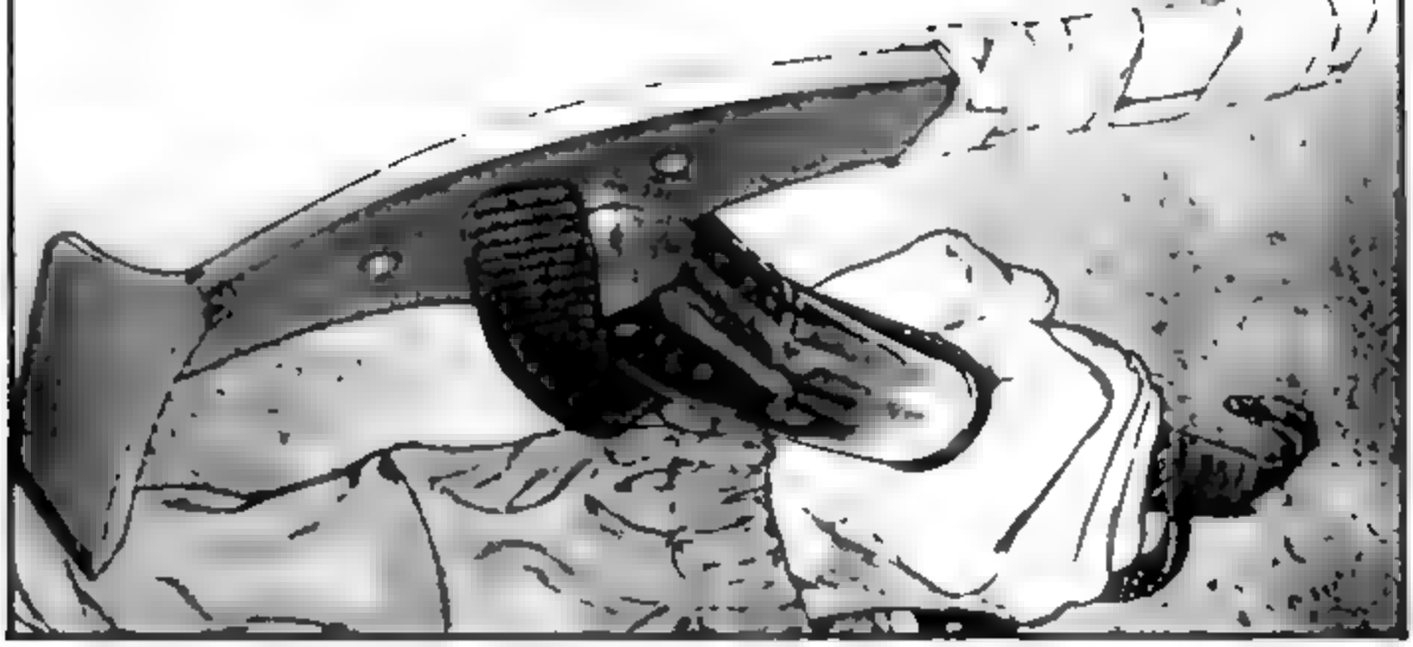
...
SENPAI.

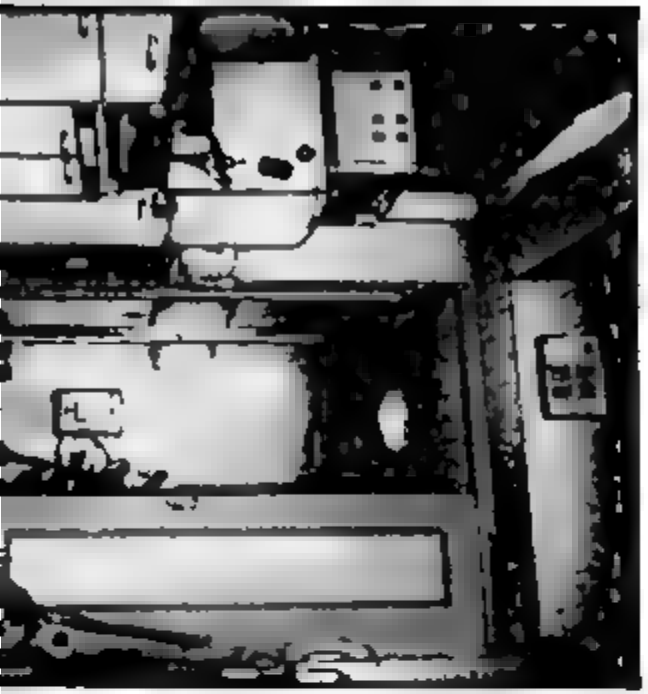
WON'T YOU GO WITH ME
TO THE K2 EAST-FACE?

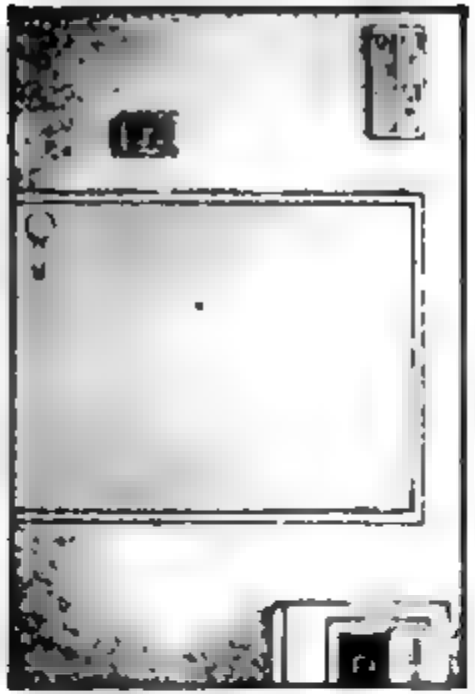
AND RIGHT NOW, I DON' FEEL DOING SOMETHING LIKE THAT

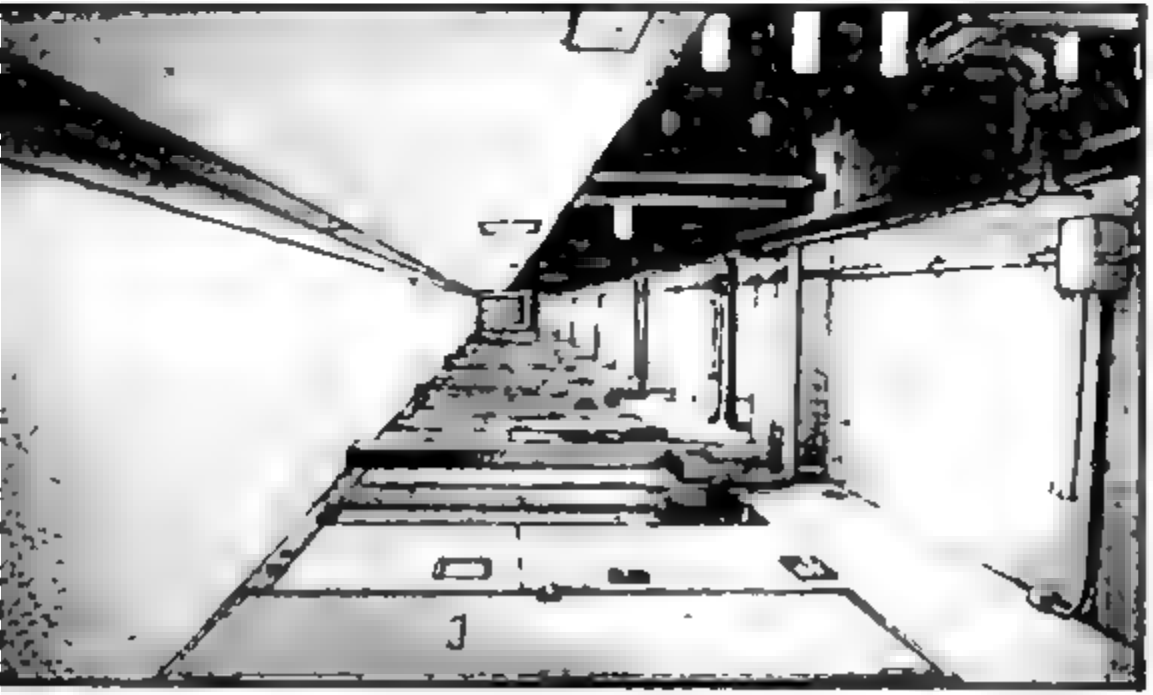


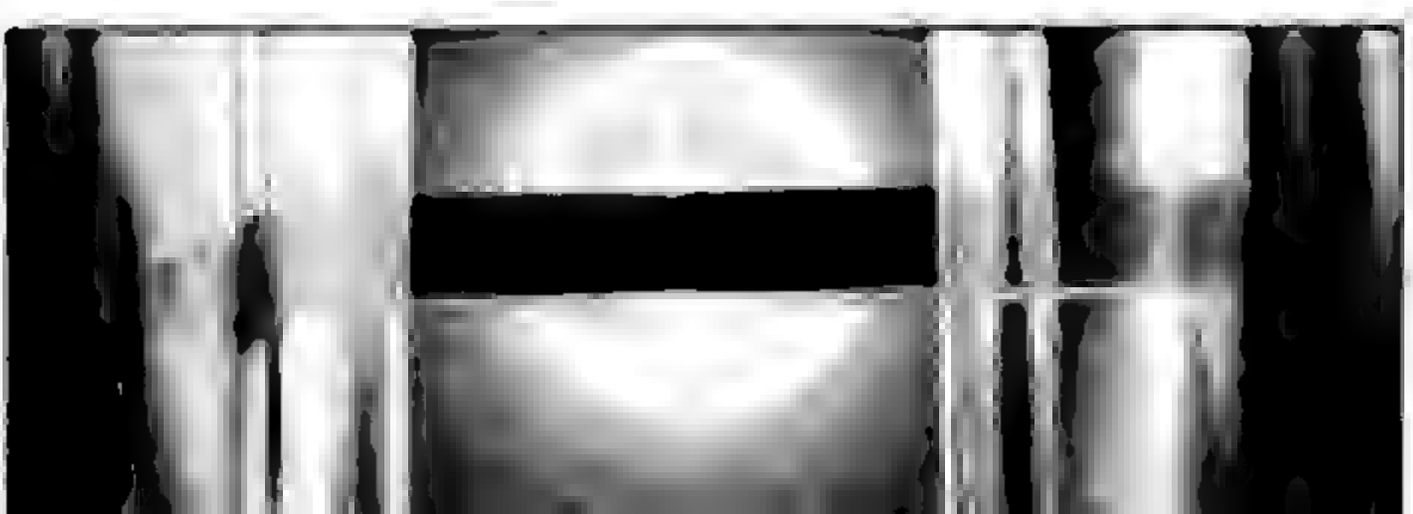
WELL AS ONE LAST THING, WILL YOU TAKE A LOOK AT THIS?





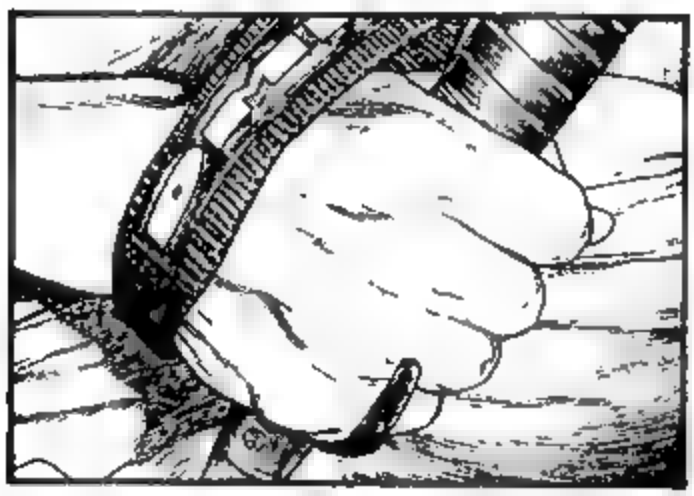






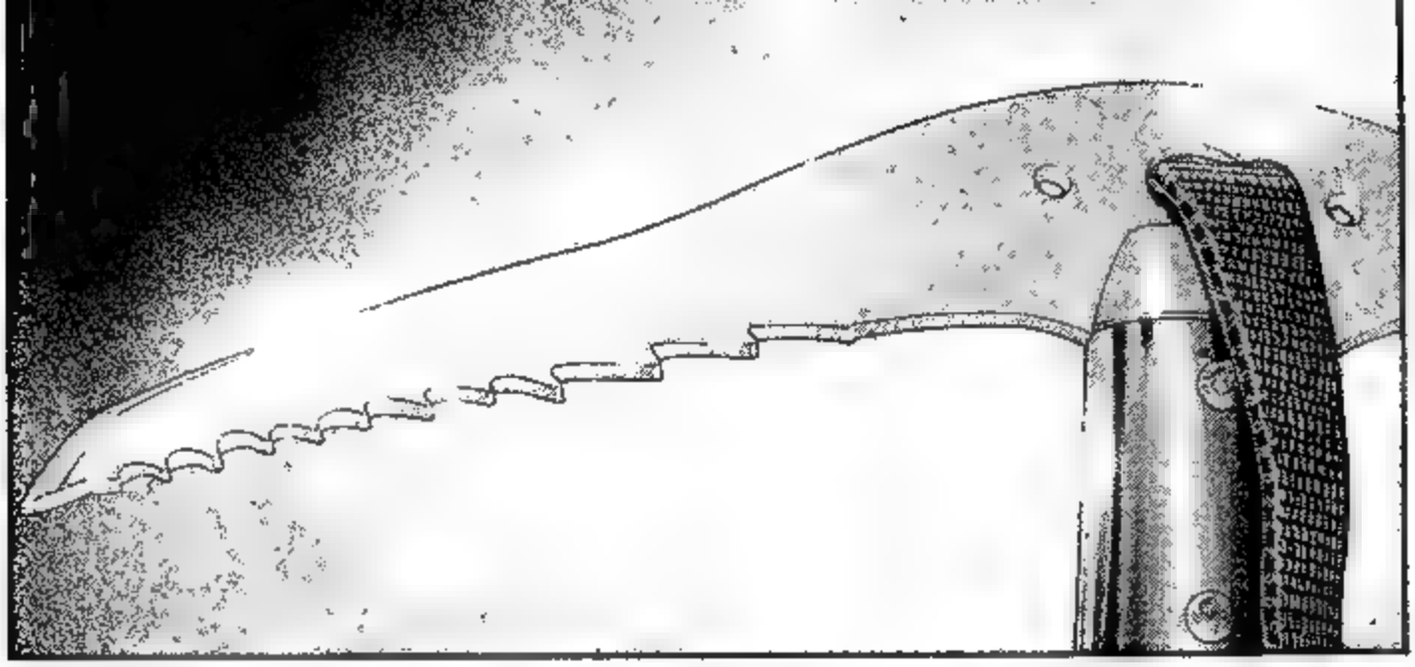
TITANIUM HAS LOW THERMAL CONDUCTIVITY, SO IT LOWERS RISK OF FROSTBITE.
A SUPER-LIGHT-WEIGHT TITANIUM AXE.

THIS IS A SPECIALLY MADE PRO-TOTYPE.
ESPECIALLY FOR THIS K2 EAST-FACE CLIMB.

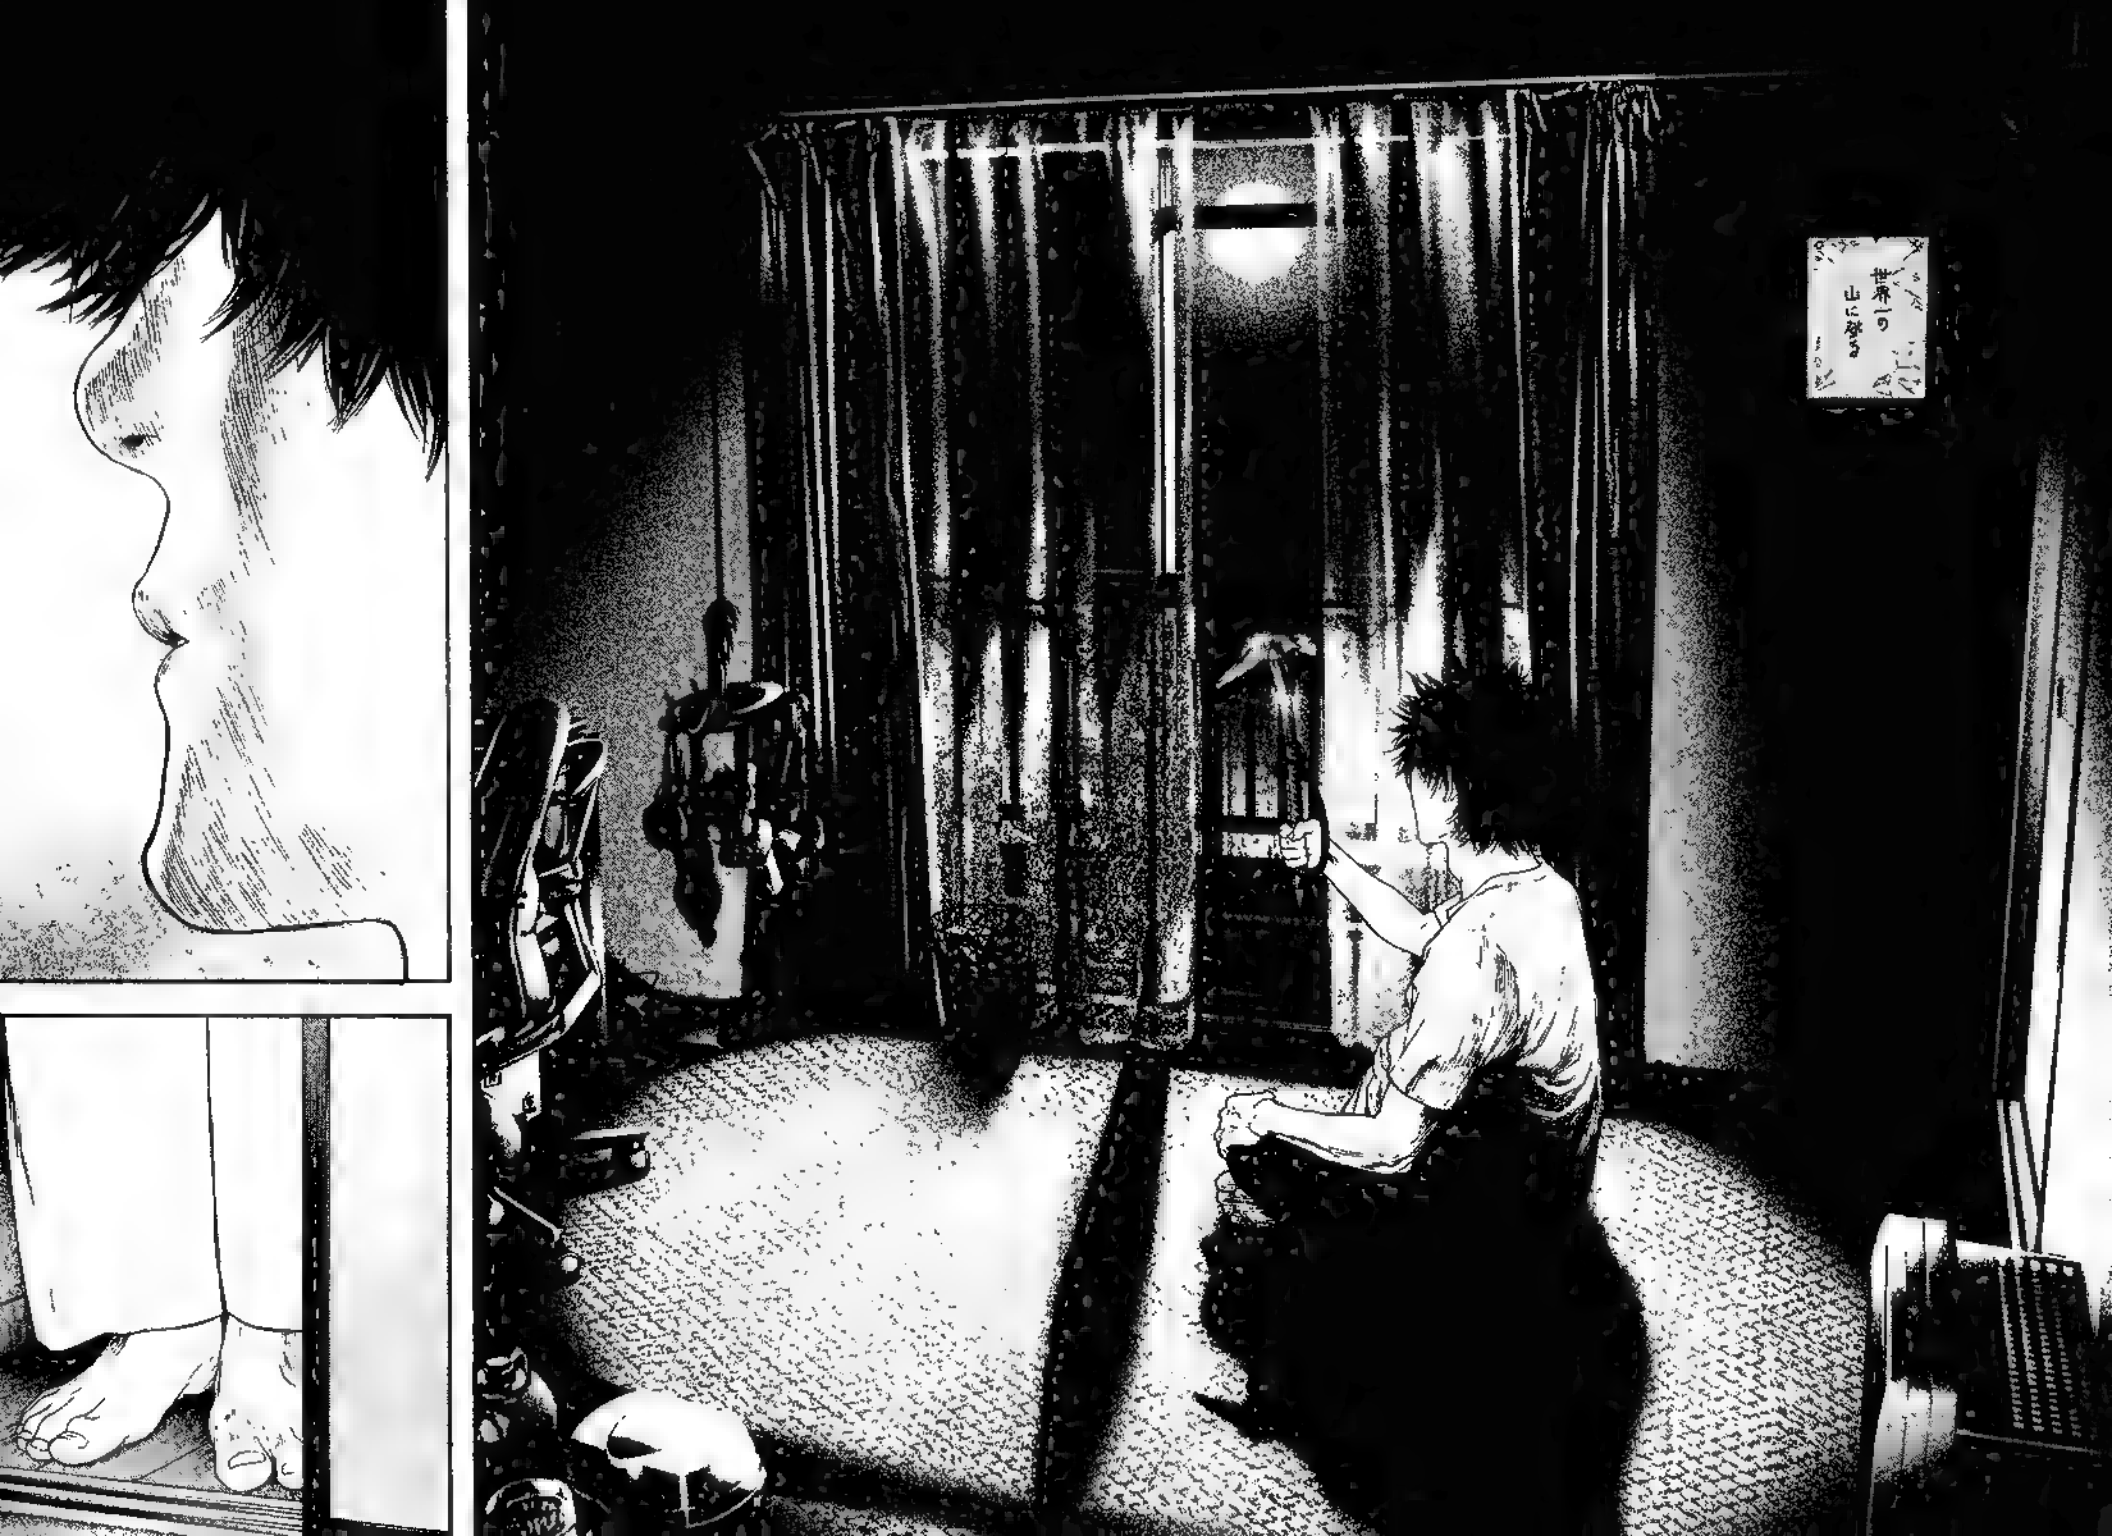


FOR DIFFICULT CLIMBS, THEY HAVE A SPECIAL ORDER BENT SHAFT VERSION.
MIZOU TITA-NIUM AXES HAVE A STRAIGHT SHAFT, BUT

WHAT DO YOU THINK, SENPAI?



EVEN IF I DON'T LIKE IT, YOUR PULSE QUICKENS, DOESN'T IT-...



世界一の
山に登る

OMFGG*SCANS

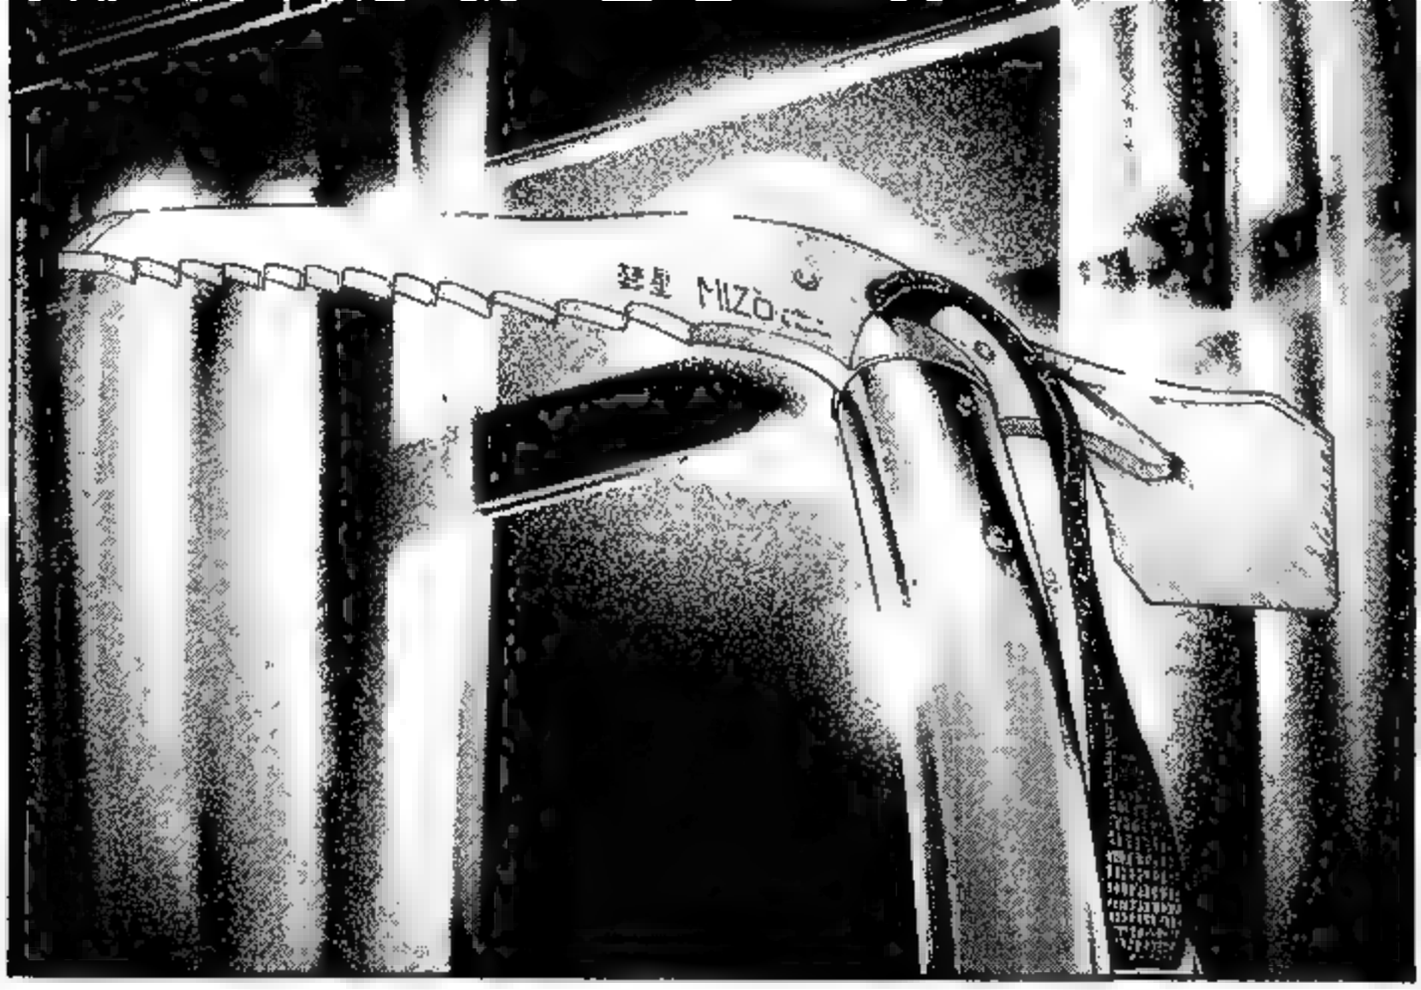
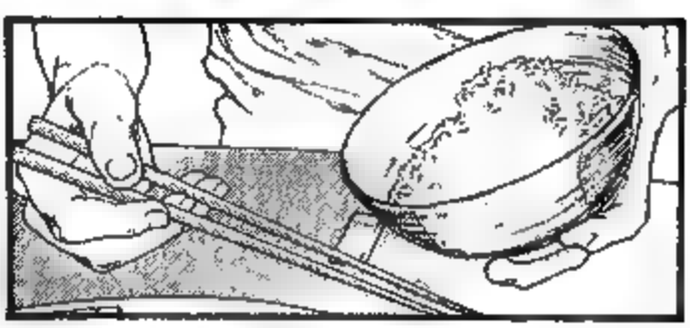
omfggscans.com/#omfgg@irchighway.net

130TH CLIMB - IMPULSE THAT CAN BE SILENT



MIZO



YOUR MOM AND THE OTHERS WANT TO MEET ROKKA
THEY SAID TO COME OVER IN THE SUMMER, BUT... WHAT DO YOU THINK?

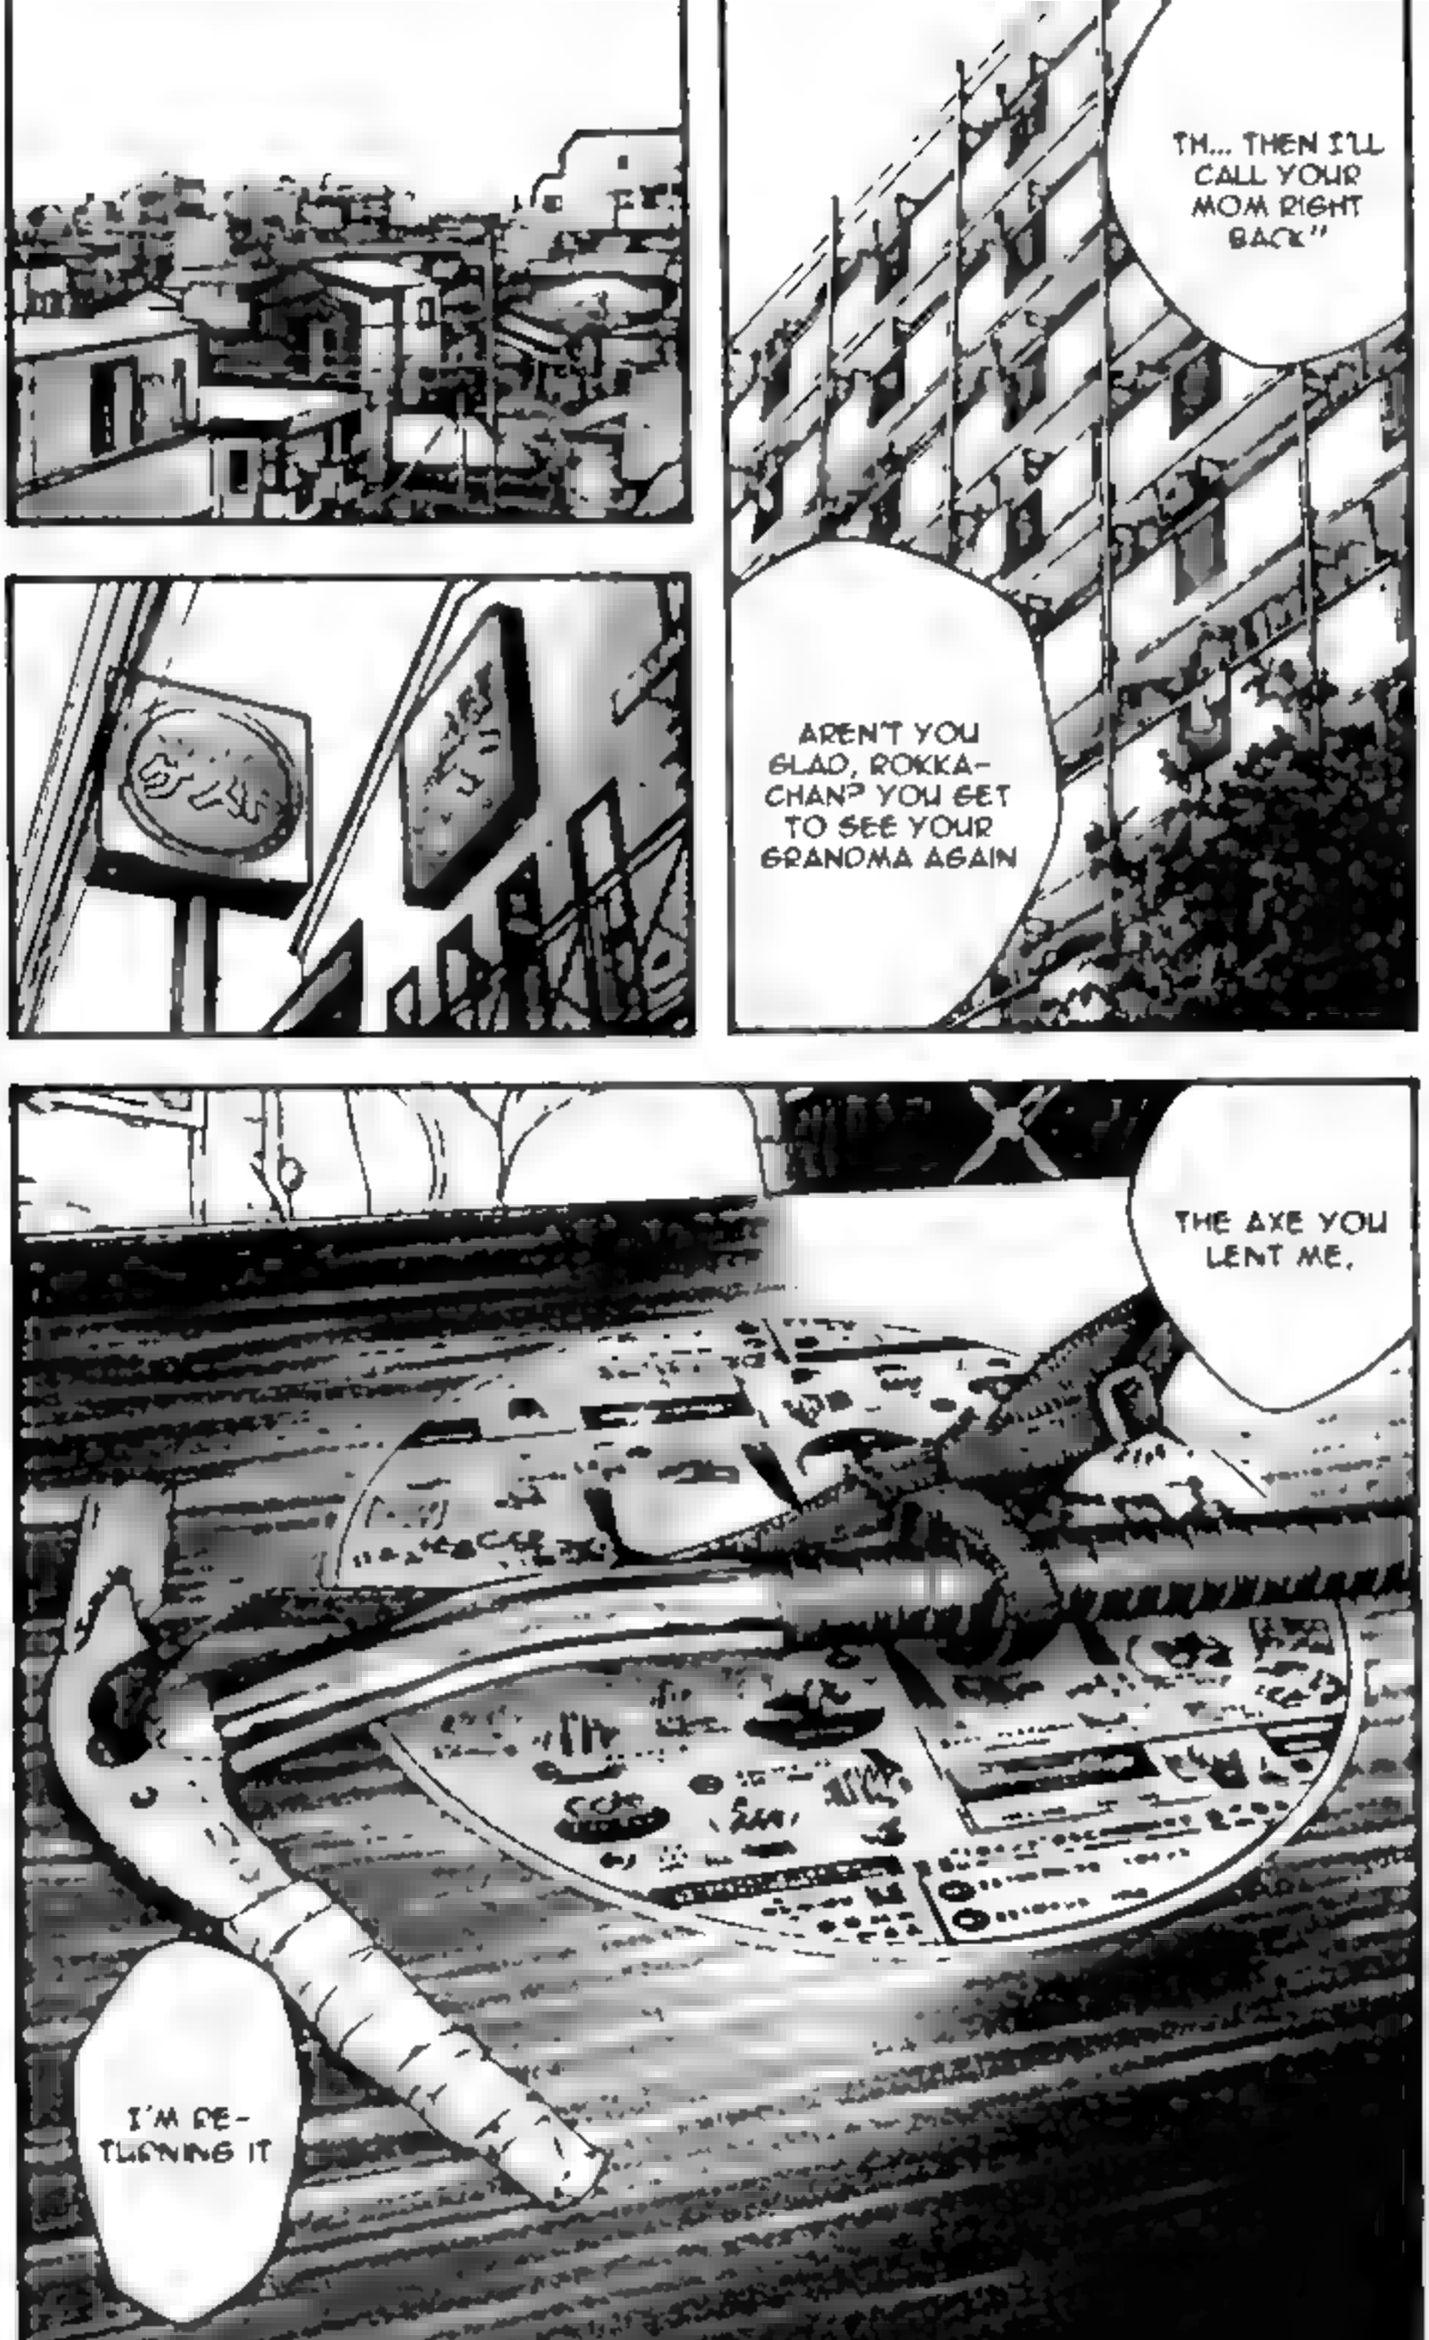
THERE WAS A CALL FROM HAMASAKA YESTERDAY.

EH?

IF YOU'RE GOING TO COME WITH ME,
THEN WE'RE SET TO LEAVE JAPAN IN MID-JUNE.
SO PLEASE MAKE SURE YOU KEEP ALL OF AUGUST OPEN.

LET'S GO DOWN TO THE HAMASAKA BEACH THIS SUMMER.
YEAH, SOUNDS FINE.

YOU WANT ME TO TAKE YOU TO THE UTSUNO SHRINE
I LISTENED REALLY CLOSELY TO WHAT YOU SAID, HANA-



TH... THEN I'LL CALL YOUR MOM RIGHT BACK"
AREN'T YOU GLAD, ROKKA-CHAN? YOU GET TO SEE YOUR GRANDMA AGAIN
THE AXE YOU LENT ME.
I'M RE-TURNING IT

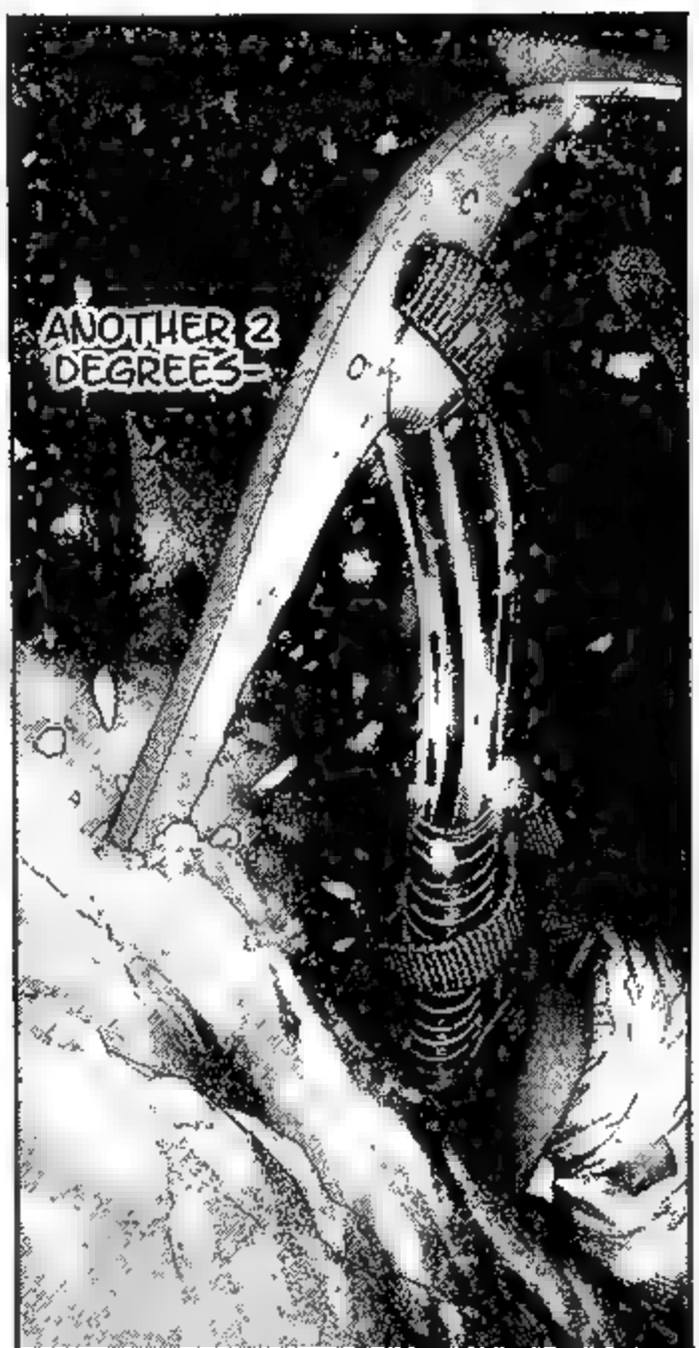
LIKE I'D THOUGHT,
I'M NOT GOING TO K2.

TITA-NIUM, HUH.
IT SURE IS LIGHT

I THOUGHT OF 2 OR 3 WAYS TO IMPROVE THE AXE.
SO I THOUGHT AT LEAST I'D GIVE YOU CONSULTA-TION FOR WHEN YOU GO TO K2...

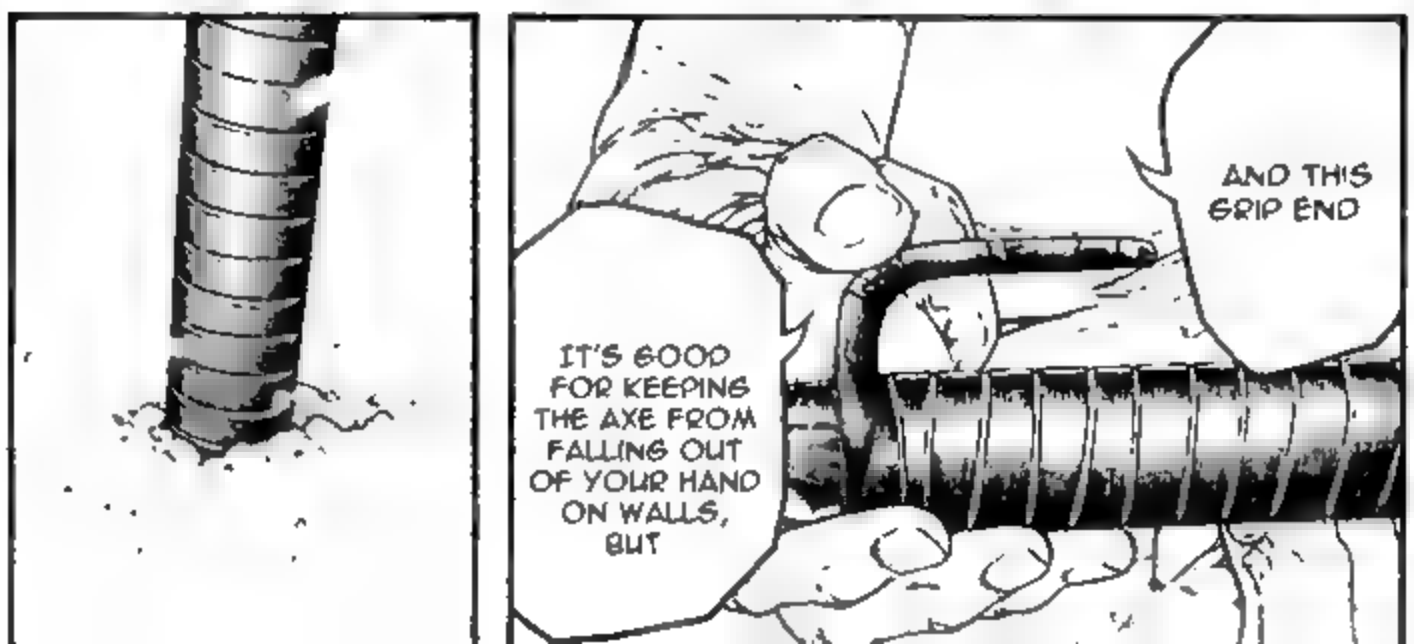
THOUGH A TITANIUM ALLOY MIXED WITH SOMETHING LIKE ALUMINUM OR VANADIUM,
THAT'S USED FOR PARTS IN THINGS LIKE JET ENGINES AND SPACE ROCKETS.
WOULD HAVE A STRENGTH TWICE THAT OF IRON.
TITANIUM'S SPECIFIC WEIGHT IS 60% THAT OF IRON.
THEY SAY IT'S HARD TO MANUFACTURE BECAUSE OF IT'S STRENGTH.
FOR THE IMPORTANCE IN STAMINA OF THE K2 EAST FACE, THERE'S NO RAW MATERIAL THIS EFFECTIVE...

NO, AT LEAST ANOTHER 1.5 DEGREES-...

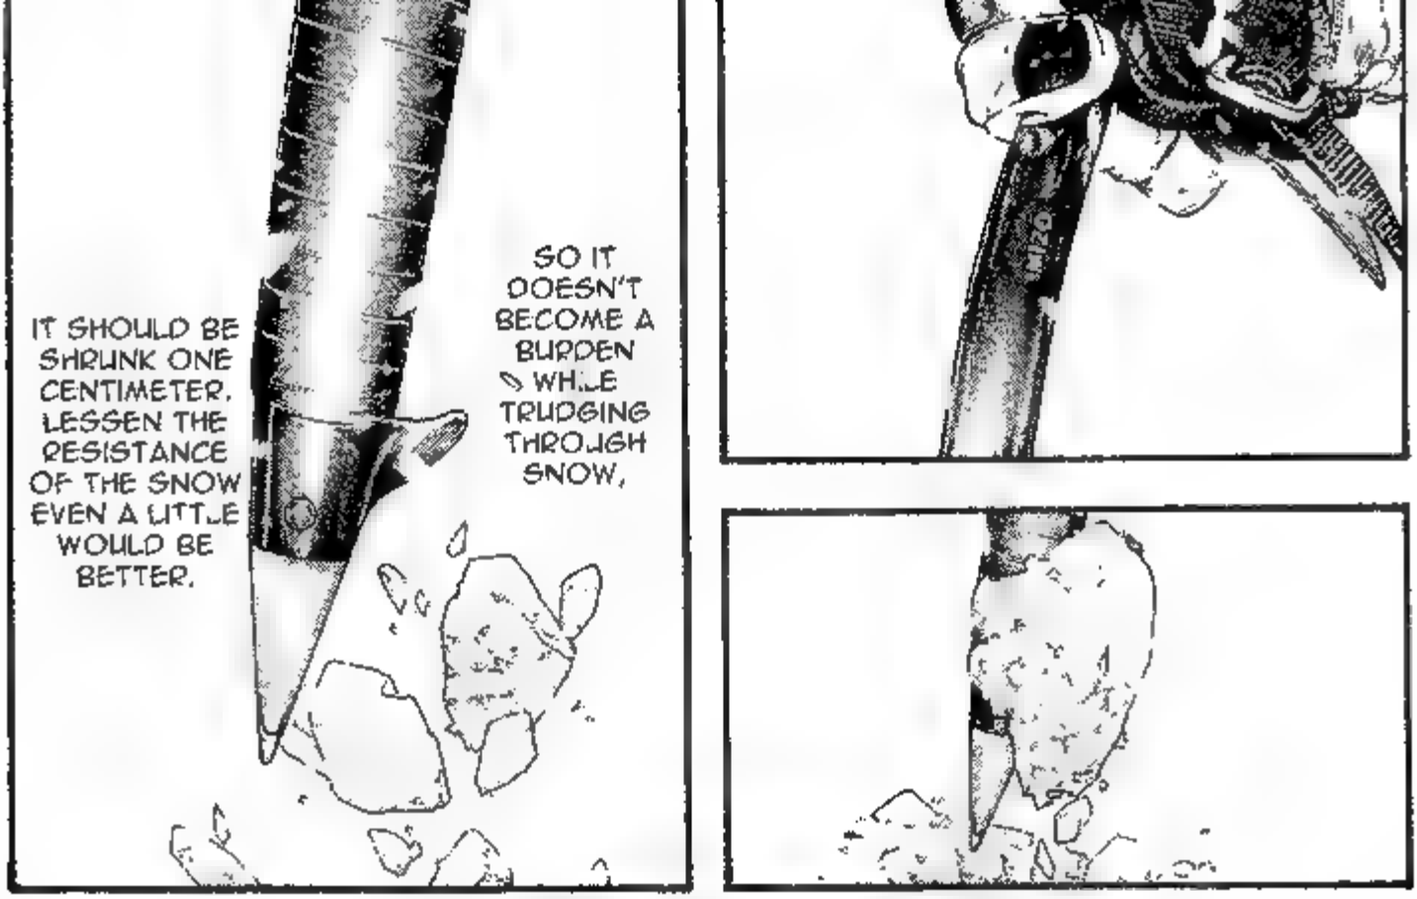


ANOTHER 2 DEGREES-

IF THE SHAFT WERE BENT JUST ANOTHER 15 DEGREES
YOU COULD GRAB THE ICE MORE RELIABLE AND HARDER TO GET OUT, MAKING A STABLER CLIMB POSSIBLE

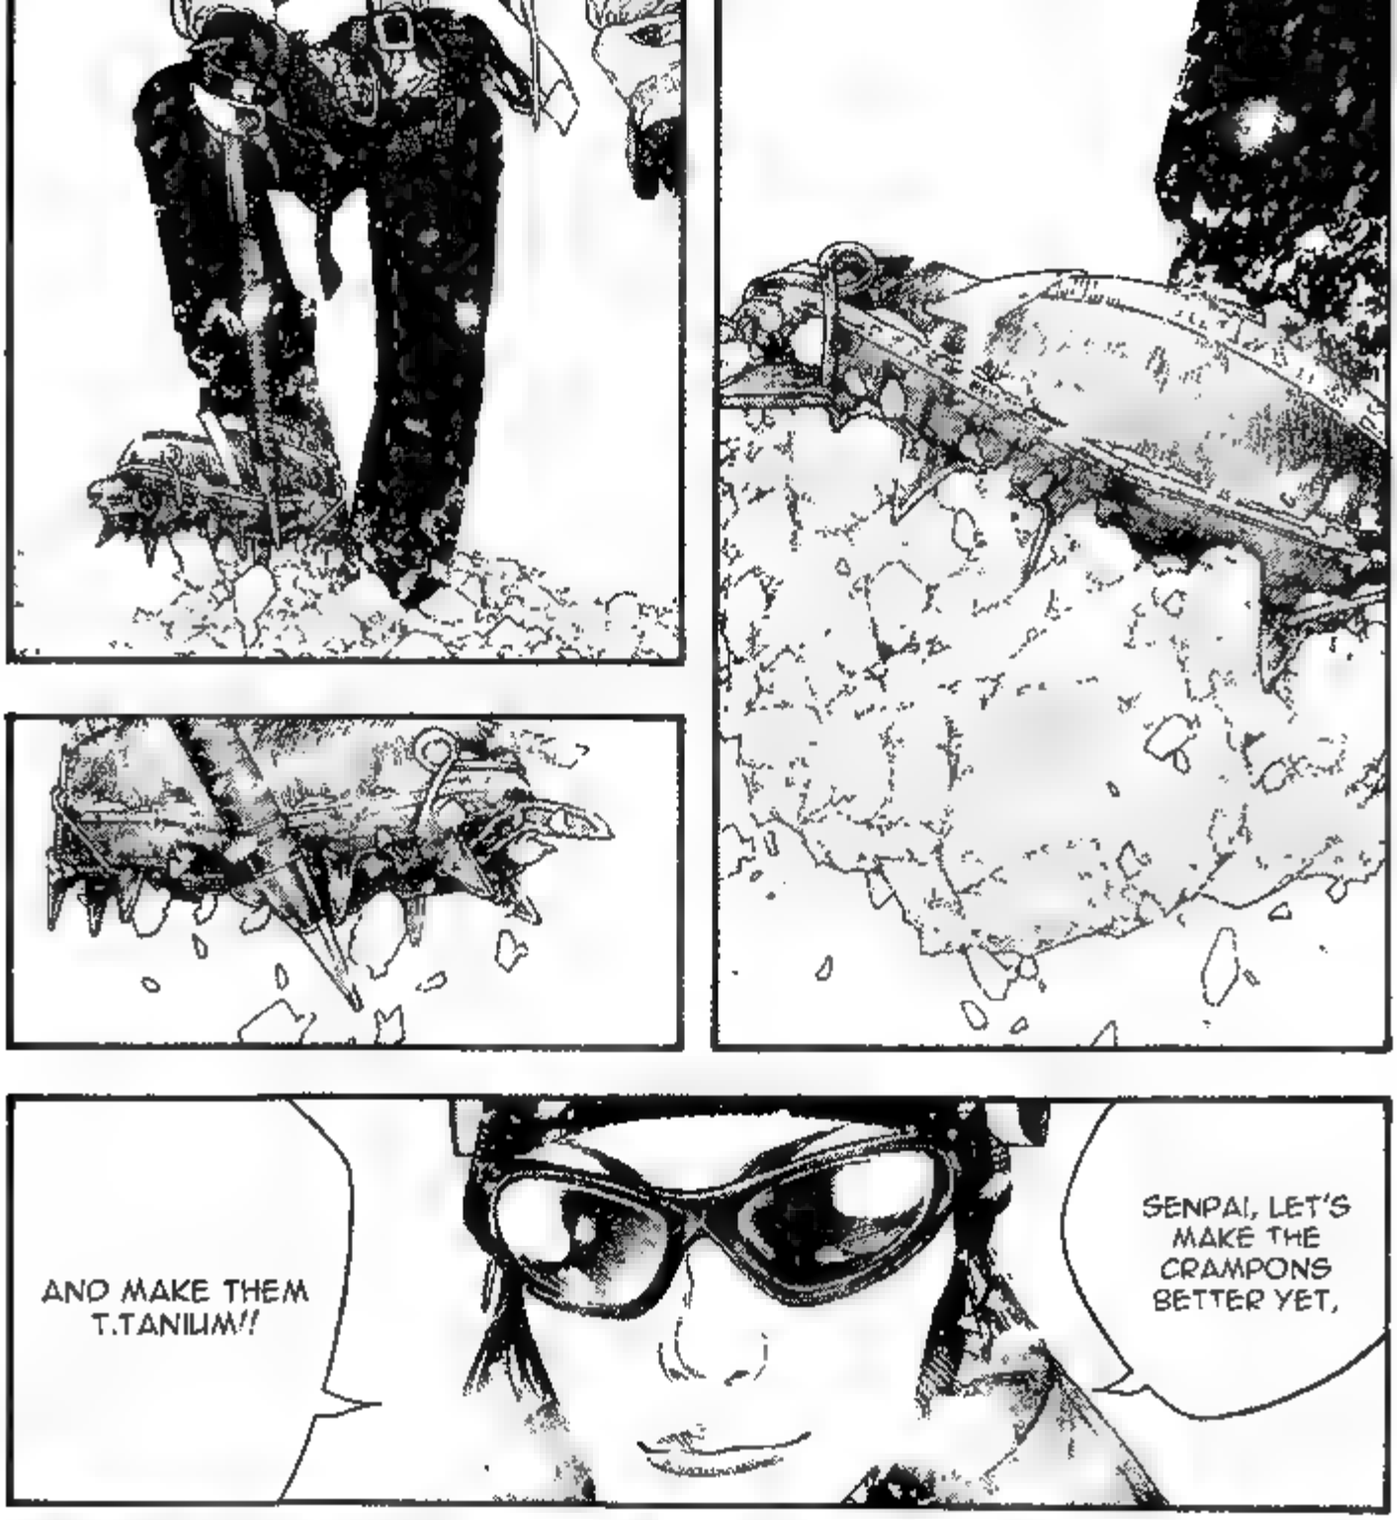


AND THIS GRIP END
IT'S GOOD FOR KEEPING THE AXE FROM FALLING OUT OF YOUR HAND ON WALLS, BUT



IT SHOULD BE SHRUNK ONE CENTIMETER. LESSEN THE RESISTANCE OF THE SNOW EVEN A LITTLE WOULD BE BETTER.
SO IT DOESN'T BECOME A BURDEN WHILE TRUDGING THROUGH SNOW.

WHAT DO YOU THINK ABOUT THE CRAMPON EQUIPMENT?
SENPAI.

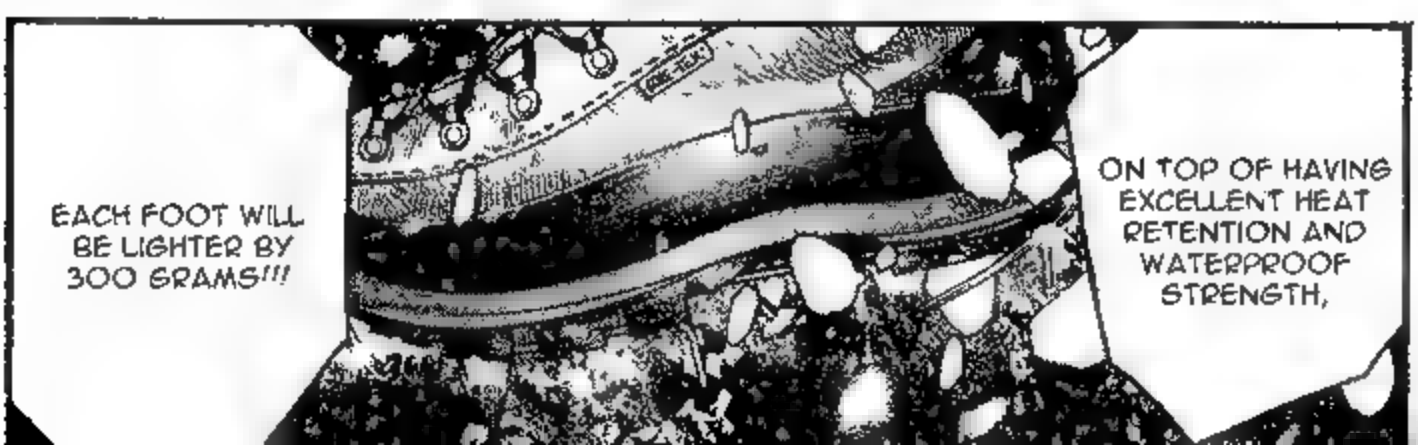


SENPAI, LET'S MAKE THE CRAMPONS BETTER YET,
AND MAKE THEM T.TANIUM!!

OH YEAH, TAKEMURA, I THOUGHT OF COATING THE AXE'S BELT, BUT
IF WE COAT THE CRAMPON BELTS, TOO,
THEY WON'T STICK IN THE SNOW SO MUCH, WILL THEY!?
THAT'S GOOD ON TOP OF BEING LIGHT, TITANIUM HAS A LOT OF HEAD CONDUCTIVITY SO
THEY WON'T EASILY GET STUCK IN CLUMPS OF SNOW!!!

WE CAN ORDER AWAY PROTOTYPE HIGH-ELEVATION CLIMBING SHOES WITH THE NEWEST CARBON *SHANK, EQUIPPED WITH A GORE-TEX AND THIN WOOL LINER.
THEN IF WE GET IT FROM THE EUROPEAN MAKER WHICH IS THE TECHNICAL COOPERATION THAT OUR SHOP CONNECTS WITH,
I SEE, THAT SOUNDS GOOD, SENPAI!!!

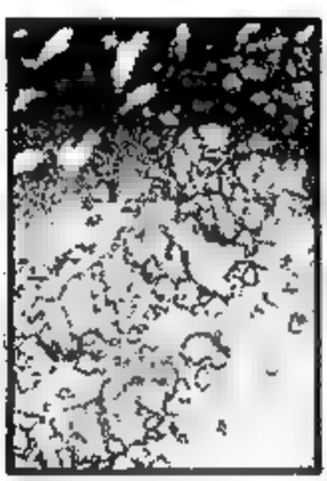
*Shank = A material that gives shows a hard sole.

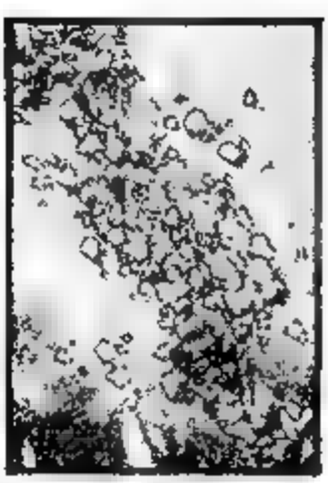


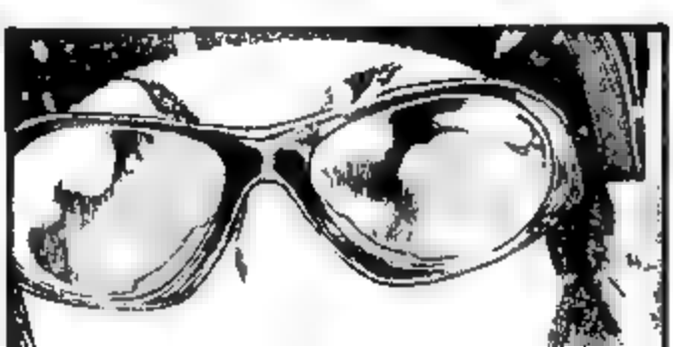
LET'S FORGET ABOUT BIVOUACK-ING,
AND JUST PACK IN UNTIL THE BIG WALL!!!
SENPAI, I'LL SWITCH OFF, HERE

I'LL MAKE IT A WHOLE HOUR EAR-LIER THAN PLANNED !!!
I KEEP GET-TING MORE AND MORE D STANCE!!!
TH S IS GREAT, IT S SO LIGHT!!!

I... I CAN SEE IT







THAT CON=
TINUES UP
TO THE
PEAK-!!!!
THAT IS
THE FINAL
BIG ICE
WALL

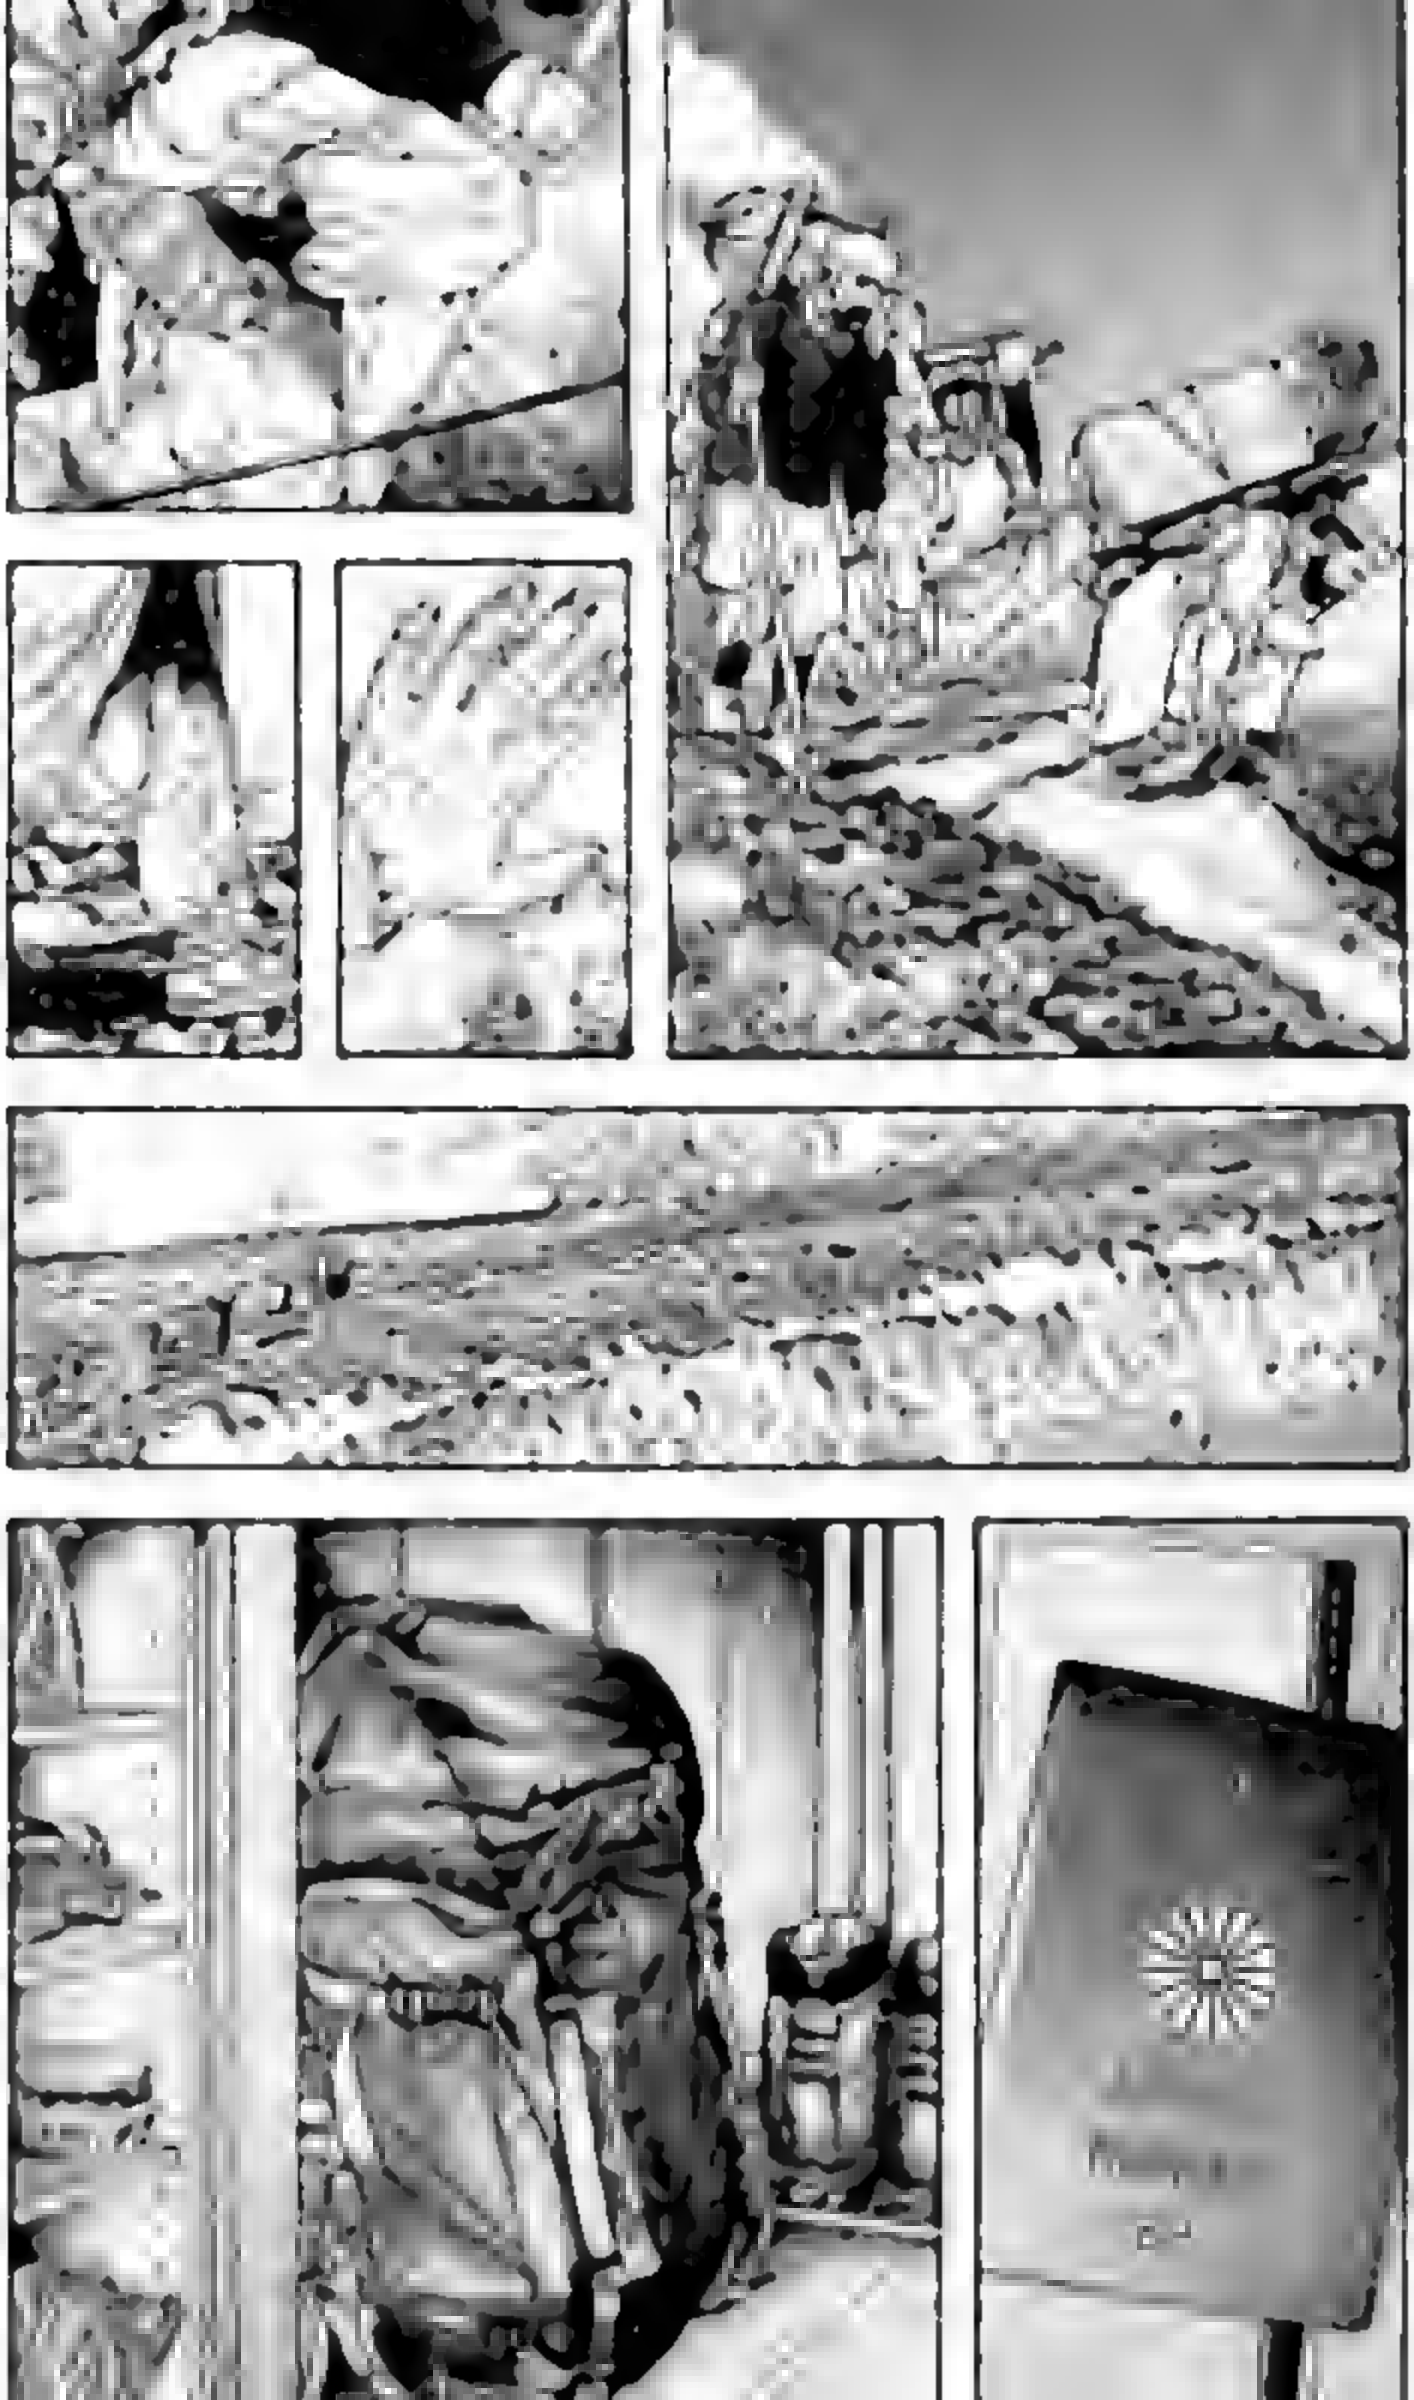
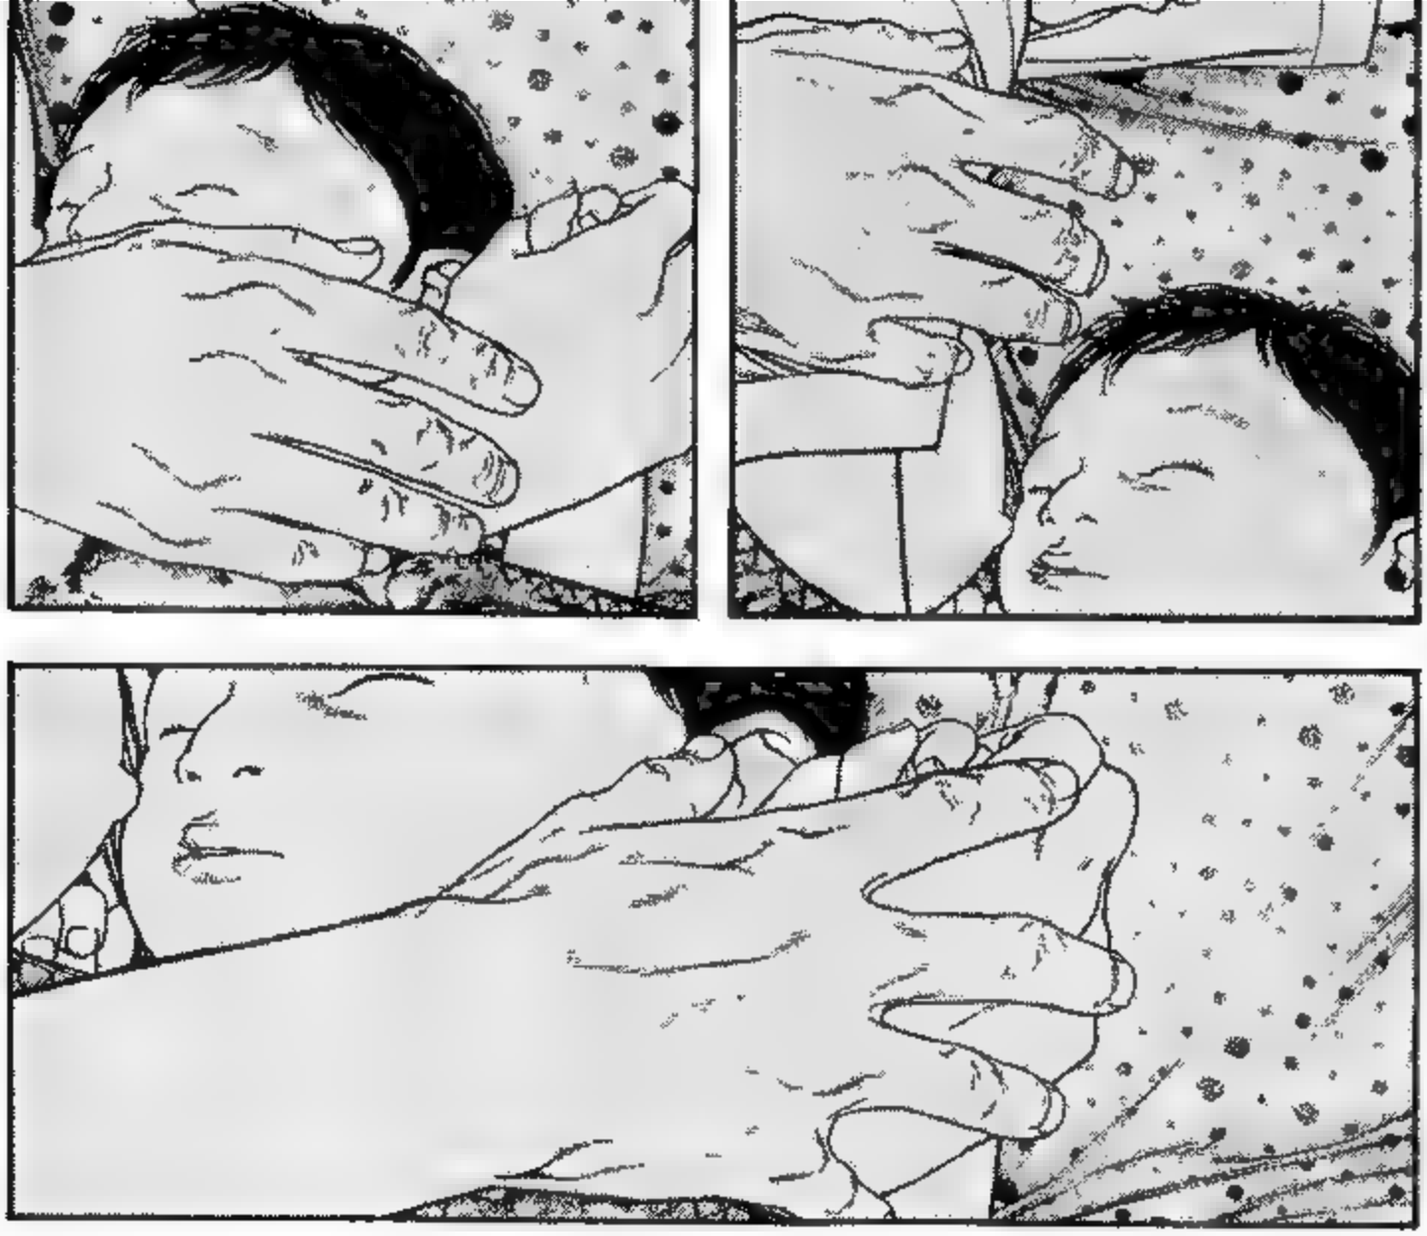
Sir,
We can see Gasherbrum
over there now
We make a turn
on the side of that mountain,
then there is K2 right there
Yeah





K2'S IN S[illegible]!!

⓭二律背反(完)

加藤慶信 KATO YOSHINOBU THE CLIMBER 14 極限の挑戦者

取材・文／廣川慎太郎　イラスト／坂本真一　写真協力／谷山宏典

「死んでもいい覚悟」ではなく、「何があっても生き抜く覚悟」をしなければならない

[夢を追い、仲間から愛された若き挑戦者]

加藤慶信のヒマラヤ登山の原点は、明治大学山岳部・炉辺会（ろばたかい）にある。そして加藤が入部した頃、明大山岳部はすでにある目標に対して進んでいた。それは明治大学山岳部による「8000m峰14座全山登頂」だ。未だ日本の登山家個人では達成されていない大記録を明治大学山岳部出身のOB・現役たちで達成しようというもの。そもそもは1970年、日本山岳会隊に参加した植村直己のチョモランマ（エベレスト）日本人初登頂が皮切りとなり、加藤が入部した時点では9座登頂を成功させていた。

2003年5月16日、明治大学山岳部は雪崩に悩まされながらアンナプルナ一峰南壁を登りきり、頂稜を西の端まで辿る。午後二時過ぎ、加藤慶信を先頭に8091mの頂きに5人の仲間達が次々と立った。明治大学山岳部炉辺会メンバーによる8000m峰全14座登頂が達成された瞬間だった。加藤は明大隊で1997年のマナスルに始まり、ガッシャーブルムI、II峰の連続登頂、ローツェ、そしてこのアンナプルナ一峰と8005m5座登頂を記録。最後は全山登頂の原動力となるまでに成長した。

しかし、加藤の心の中にはくすぶるものがあった。

「今までではどの登山においても、一番難しく大事な判断を下していたのは、いつも隊長が登攀隊長。私ではない。今度は自分でその大事な判断をしてみたかった。頼りになる仲間が一緒でわかりづらくなっていた、自分の力、弱さを知りたい」。そんな思いが芽生え始めていた。

2005年、加藤は大学山岳部つながりの先輩・奥田仁一に誘われ再びヒマラヤに向かう。ここで加藤は、「チョモランマは無酸素で、シェルパに頼らず全ての荷物を自分で上げ、別行動、単独で登りたい」と奥田にわがままを聞いてもらった。「自分の力、弱さを知りたい」という思いからだった。

5月27日、加藤はチョモランマ8848mを単独・無酸素で見事登頂を果たす。「信じられなかった。この自分が世界で最も高い点にいることが。この山はずっと私の夢だった。人生ってのは信じられないことが時として起こるのだ」。本人の記録では余裕もなくというが、写真を四枚撮り、郷里の先輩の遺骨を散骨し、下山にかかる。

しかし加藤は下降の途中、8500m地点から高度障害から両目に霧がかかり、完全に目が見えなくなる。高所は下降時の事故が多い、まして無酸素。しかしこの窮地は別隊で行動していた奥田、シェルパのフチリにより救われる。加藤の胸中は二人への感謝と恥ずかしさで一杯だった。「自分一人だったら確実に死んでいたのだ。この失敗を取り戻し、恩を返すためにも生きて返る」。延々続く下降の末、加藤はアタックキャンプのテントに倒れこむように入り、長い一日が終わった。このチョモランマ単独無酸素登山は、加藤の山に対する純粋さと、自分の能力と結果を受け止める素直さを象徴するものだ。その人柄ゆえに、加藤は他のクライマーから愛され、高所登山の世界で仲間として求められ続けた。

2006年春には、チョーオユーとシシャパンマの8000m二座に明大山岳部後輩の天野和明と共に挑み、連続登頂に成功。加藤はすでに高所登山の世界を牽引する立場になっていた。自分が山と仲間に育てられたように、自分も新しい仲間を育てたい。そう言わんばかりに、高所登山のサポートにも積極的だった。

2008年秋、加藤は明大の先輩、高橋和弘を隊長とする各大学山岳部合同のクーラカンリ縦走隊に登攀隊長として参加した。天帝の峰と呼ばれるクーラカンリの主峰7538m、中央峰7418m、東峰7381mを結ぶ稜線は未踏。まず主峰を末踏の北稜から攻め、下降路を確保してから東峰から主稜線を縦走し、北稜隊と合流して下降するプランだった。10月1日、C1から前衛峰へのルート工作に出た加藤、有村哲史、中村進の3名が連絡が付かなくなる。この日C1入りした高橋隊長と桜井隊員が捜索に向かい、18時50分、3名の遺体を発見。上部に雪面が割れた跡がある。雪崩に遭い下部へ流されたのだった。5350mのキャンプを設営し、登山開始を前に加藤が残した手記がある。

「山はその荘厳さゆえ、美しさゆえに厳しい残酷な側面を合わせ持っている。僕達は現実にその山の前に立っている。この厳しい現実世界のなかで影らませてきたその夢を具現化することで、初めて本当の幸福感が得られるはずだ」。このシーズン降雪は少なく、天候は安定し、雪崩発生を予見することは難しかったという。「物事に、この世の中に『絶対』はありえない。それでも『絶対』を心に誓い、『死んでもいい覚悟』ではなく、『何があっても生き抜く覚悟』をしなければならない」。

加藤を知る、生き抜く覚悟をもって登り続ける仲間によって、挑戦の系譜は受け継がれていくだろう。

8000m峰8座10回登頂。この記録は日本人クライマーとしては、竹内洋岳、山田昇、名塚秀二、田辺治に次ぐもの。加藤慶信は32歳になった2008年秋までハイペースに記録を積み上げた。加藤の登山家としての姿は、“純粋で素直”という言葉が最も相応しい。山を純粋に愛し、自らの能力をぶつけた結果を素直に受け止める。だからこそ安定して実績を積み上げ続けることができた。そんな加藤の登山人生を振り返ろう。

◀明大山岳部による8000m14座全山登頂を達成した、アンナプルナI峰南壁の登攀。

単独・無酸素で頂を極めたチョモランマ、アタック直前の加藤氏。

▲2005年、チョモランマ頂上で撮影。「この山はずっと私の夢だった」

かとうよしのぶ。1976年、山梨県南アルプス市生まれ。1994年、明治大学に入学、山岳部入部。97年のマナスル登頂から、ヒマラヤ8000m峰14座中8座を制覇。08年10月1日、チベット・ヒマラヤの[illegible]リに登攀中雪崩に遭遇し、32歳で早逝。

加藤慶信 挑戦の足跡	
1995年	ガングスタン（6192m）登頂
1997年	マナスル（8163m）登頂
1999年	リャンカン・カンリ（7535m）初登頂
2000年	3月、黒部横断（鐘ケ岳～十字峡～剣岳）
	明治大学炉辺会会員による8000m全座登頂に向け、残る4座登頂を目指す、ドリームプロジェクトに参加
2001年	ガッシャーブルムII峰（8035m）
	ガッシャーブルムI峰（8068m）連続登頂
2002年	ローツェ（8516m）登頂
2003年	アンナプルナI峰（8091m）南壁から登頂　プロジェクト成功
	12月、黒部横断（五竜岳～S字峡～剣岳）
2005年	チョモランマ（8848m）単独無酸素登頂
2006年	チョーオユー（8201m）登頂
	シシャパンマ（8027m）北壁をアルパインスタイルで第二登　連続登頂
	マナスルに二度目の登頂（アシスタントガイド）
2008年	チョモランマに二度目の登頂（アシスタントガイド）
	クーラカンリ（7538m）縦走隊に参加
	10月1日ルート工作中に雪崩に遭い生涯を終える

There are technical climbing terms that appear in "Kokou no Hito". Here, the terms appearing in volume 13 are explained!!

Light and Fast (P110).....[3]
Planning for the lightest equipment wait in order to speed up, it is an alpine style where one quickly goes right up to the peak. Many teams when unloading or choosing routes plan these right up to the peak, a small number of team members are sent up to the top. It is an "expedition style" and contrastive climbing method.

Akole (P111).....[4]
A village among the mountains found by car on the way to K2. As the entrance to the Baltoro Glacier. In order to get to K2 it is a one week to 10 day trek to the base camp.

Thread Hook (P113)
Making a V-shape hole in an ice wall, a pole setup in order to put a sling though.

V-Thread (P130)
With a long ice screw, opening a v-shaped hole in an ice wall for resistance, and a sling looped through as a fulcrum to guarantee safety. In order to economize on equipment, it can be maintained for a long time and requires reasonable skill to be created in a way that maintains safety. It has recently spread as a popular technique. Based on the person who discovered this technique, it is also called Abalakov.

Gasherbrum (P188).....[5]
Like K2, a peak on the border of China and Pakistan located on the Baltoro Glacier. It has peaks from I to IV. Peak I is also called Hidden Peak and is 8068m in elevation. Peak II is 8035m, both of which are among the fourteen Eight-Thousanders. Similar to the other 8000m broad peaks, if you go by car to the mountain village Askole it usually takes a less than one week trek in order to reach the inner area where it is located.

Pulmonary Edema - Brain Edema (P88)
An elevation sickness caused by a loss of pressure and a loss of oxygen at high altitudes. Pulmonary edema is when water oozes into the lungs from another organ, making breathing difficult. Brain edema is when a swelling occurs in the brain which causes motions out of harmony (you cannot walk straight ahead, and such), speech impediment, hallucination, irregular movements, and lethargy.

Low Oxygen Mask Training (P92).....[1]
A mask worn to limit airflow in order to make breathing more difficult, thus used for training in low oxygen situations.

Slackline (P109).....[2]
A game where you walk across a taut rope held with a pin for training. It was said to first stat in America's free climbing holy land, Yosemite, limbers tied ropes they weren't using anymore between trees so they could maintain their balance. They start at knee-high and are later escalated to above rock walls. At that point, for safety, a rope or sling is tied to the body as the person crosses. It later became generally fashionable and now a specifically used tape called a slackline can be enjoyed.
